THE EASTERN PROGRESS

Eastern Kentucky State Teachers College and Normal School

VOLUME VI.

RICHMOND, KY., TUESDAY, SEPTEMBER 18, 1925.

NUMBER 1.

REGISTRATION DIRECTIONS

Dr. Homer E. Cooper, Dean, Issues Instructions For Enrollment of Students

INSPECTION IS URGED

1. Read these instructions through before going further, then follow them in detail.
2. Be deliberate. There is no reason for haste nor for rash decisions.
3. Assemble in ground floor corridor. Receive catalogue, instruction sheet, printed schedule.
4. Form in line and go up the stairway to the Registrar's office.
5. Normal School students go to the office of the Principal, University Hall.
6. College Elementary Certificate. Those who want to prepare for this certificate by beginning or completing the requirements, go to Room 37, second floor. Use Room 38 as an overflow room, so that you may sit. Turn to requirements, catalogue, page 70.
7. Standard Certificate. Those preparing for this certificate go to Room 23, second floor. Use Room 22 as an overflow room so that you may sit. Turn to requirements, catalogue, pages 70-73.
8. Degree, College Certificates, etc. Special students, visitors, Juniors and Seniors go to Room 40, second floor. Turn to requirements, catalogue, pages 73-77.
9. Note on your printed schedule all corrections made in red ink found on the printed schedule posted on the wall.
10. Write in ink your name on all of the blank cards the same as it was written on the one card at the Registrar's office.
11. Check through carefully the work which you propose to take in order to get the right courses, to avoid duplicating anything already taken, to see that you are prepared for the courses, and to see that what you propose to take is appropriate to the curriculum you propose to take or the certificate which you expect to get. List in pencil on your tentative schedule card the remaining courses in the order in which they are listed in the curriculum for the hours of the day and the days of the week, as shown in the printed schedule. No deviations from your curriculum will be approved unless authorized by the authorization officer. Read in the catalogue all that is said about each course listed.
12. Take the right work and the right amount of it. Do not expect to change your schedule later.
13. After passing the authorization officer, write in ink your tentative schedule into all of the other cards which you have, and fill out all cards completely.
14. Present your cards to the legibility clerk.
15. Present your cards to the approving agent.
16. Present cards to the checking clerk.
17. Pass the window at Room 11, main floor, and present the cards to the secretary to the dean.
18. Present to the financial clerk at end of corridor the card returned to you.
19. Present card returned to you by financial clerk to the office of the business agent and pay fees. Preserve receipt for your fees, your program card and other cards, as well as tickets given you when you register. Your program card can not be changed unless you present your card. Charge of twenty-five cents for a duplicate.
20. Registration is not completed until all foregoing items have been attended to in the order listed.
21. Provide yourself with supplies and with texts if texts are used in the course and sections to which you have been assigned. These may be procured at the college bookstore.
22. Consult room chart on the bulletin boards and report to classes as per your schedule card.

Eastern Teachers Speak In Florida

R. A. Edwards, superintendent of the training school, and Meredith Cox, head of the chemistry department, both members of the Eastern faculty, during the latter part of the summer vacation were in Stuart, Florida, where they were in charge of a district educational meeting.

The teachers of four Florida counties were gathered to hear the addresses of Messrs. Edwards and Cox during the stay of the Eastern faculty members in Florida. They did all of the speaking to the meeting of the teachers and were in complete charge of the gathering.

During the summer months, even before the summer session at Eastern closed, the officials of Eastern were called upon to send teachers into various sections of the state to meet calls for speakers at teachers' conferences.

It was the aim of the officials to have Eastern carried to the communities and this was successfully done through the work of the faculty members. Later in the summer numerous calls were received places outside of Kentucky and as many were responded to as possible.

Messrs. Cox and Edwards did effective work all summer and their work in Florida also received much praise.

FACULTY COMMITTEE TO SOLICIT SCHOLARSHIPS

For the first time Eastern will have a scholarship and fellowship committee this fall to encourage the gifts of prominent citizens and graduates toward such funds. The committee will take up its work in the fall.

Those faculty members appointed on the committee by Dr. H. L. Donovan, president, are Miss Anna Schnieb, G. M. Brock, Miss Marie L. Roberts, C. A. Keith and Thomas McDonough. Miss Schnieb is chairman of the committee.

The committee was provided for by the board of regents in order that persons of wealth and influence might be interested by establishing student memorial loans, fellowships and scholarships. Not only will the committee aid in the solicitation of the funds, but also in the direction of their placement.

It is found that very small sums in many cases aid worthy students to finish their work for a semester or a year and the committee will endeavor to have such funds for the work. The faculty and regents are anxious that this work be encouraged.

OFFICE CHANGES

Numerous changes have been made in the placement of the administrative staff of the Teachers College. Miss Maye M. Waltz, formerly to the business agent, has been changed to secretary to the dean to succeed Miss Anne O'Connell, who resigned.

Mrs. Hart Perry has been moved from the cashier's window to fill Miss Waltz's place. Miss Augusta Daugherty, formerly stenographer in the business office, has been made cashier.

Miss Inez McKinney, formerly of the extension department, is now assistant bookkeeper, filling the place of Miss Corynne Lowe, resigned. Miss Elizabeth Dunigan, of Waddy, is a new stenographer in the business office.

TRUCKS PROHIBITED ON CAMPUS DRIVEWAYS

A resolution has been passed by Eastern's board of regents, forbidding the use of the driveway through the campus by trucks except on business of the college. The rule was made after it had been reported that truck drivers were abusing the privilege granted to all to use the roadway. Signs have been placed at each entrance to the campus, notifying the traveling public of the rule.

Students Greeted By New President

Dr. H. L. Donovan Describes Opportunity for College Education A Privilege; Urges Industry

CITED EQUIPMENT HERE

If there is one season more beautiful than another on the campus at Eastern, it is autumn. The leaves take on colors more gorgeous than the hues of the rainbow. No artist's brush can compete with the touch of Nature's forest. Our trees are beautiful that you may enjoy them. They welcome you with their bright colors. Nature dresses up Eastern for the arrival of our students. We invite you to enjoy the wonderful environment which surrounds you.

As President of the institution, I extend to you greetings on behalf of the Board of Regents and the Faculty. We are happy to receive you into our college. We are here that we may serve you. Our business is administering to those who hunger and thirst after knowledge. A cordial welcome and best wishes that you may enjoy a happy and profitable year is the greeting which we extend to you.

The opportunity for a college education is a privilege. Only a select few ever attain this privilege. What a wonderful thing it is to be able to go to college! There are two significant things which it implies: First, to attend college successfully means that you have mental ability of a high order. You must be above the average individual in mental capacity to succeed in college. Second, it signifies that the student has an ambition far greater than that possessed by average individuals. The completion of a college course marks you as an individual of quality. It is an achievement coveted by all who have not had such a privilege. Think what it will mean to you in the years to come. I congratulate you on your opportunity to attend college at Eastern.

Eastern hopes that you will be happy while you are here. We hope you will find your place in the institution. You will have to make that place, however. A student who is in earnest will succeed and be happy in his work. The loafer will find this campus an uncongenial environment. The professors will be a nuisance. Living here will not be very interesting for those who have no purpose or ambition.

We congratulate you on the choice of a college. Eastern has a beautiful campus and magnificent buildings. Her library and laboratories are probably not excelled in the state. Her teachers are men and women of scholarship and ability. They are interesting to know. To have the opportunity of associating with these men and women is a great privilege. Learn to know your professors. Cultivate them that they may be your friends. Do your work thoroughly that they may appreciate you. Work and play with all your might while you are at Eastern. We admire those who engage in both work and play enthusiastically.

There is one other injunction which I would impress upon you. Select your friends with care. Pick out those who appear to have quality, stamina, and character. Cultivate their acquaintance. Bind them to you with hoops of steel. The friends of youth will be long, long friends. Remember the old adage that "birds of a feather will flock together." You are known somewhat by the friends you make. Your success in life will be determined in a large measure by those with whom you associate. Get acquainted with the best students.

Every institution has certain ideals. Eastern has a spiritual life that is as apparent as its physical plant. Catch the spirit of the institution. Understand its ideals. Uphold its standards. Make the spiritual life at Eastern a part of your life. Participate in the activities that tend to develop college

Enrollment in City Schools Total 1,131

The Richmond city schools opened Tuesday with a total enrollment of 1131. Of these, 248 were in the Madison High School and 550 were in the Graded School. School officials said that they expected the total enrollment to pass 1200 by the close of the week. The enrollment at Madison High School showed an increase of 21 in the high school department and a loss of 5 in the graded school over the first day enrollment last year.

Only half-day sessions were held yesterday and today but beginning tomorrow the schools will operate on a full day schedule for all grades above the third, beginning at 8:30 a. m. and closing at 3:15 p. m. The noon recess will be from 11:50 to 1 o'clock. It will be necessary for children to provide for their own lunches this week and next since the cafeteria will not open until September 17.

DIVISION OF SCIENCE DEPARTMENT IS MADE

Beginning at the fall semester, the science department will be divided in order that more effective work may be accomplished. This is considered one of the most forward steps taken by the college in a scholastic way in several years.

The old department of science has been divided into four departments. These are the departments of biology, chemistry, physics and the combined department of geography and geology. The division was made in order to keep pace with the forward steps being made in this line by other colleges.

The development and growth of Eastern also caused the change. When Eastern was only a normal school all of the sciences were combined under one department, but with its recent progress such could not remain. More effective work also may be done in this way. It also will aid Eastern in obtaining admission to the Association of Colleges and Secondary Schools of the Southern States.

New faculty members of the department of science will be Dr. D. W. Rumbold, of the biology department; Dr. Vernon Albers, of the physics department; Thomas Herndon, of the chemistry department, and Dr. Kinneamar, of the department of geography and geology department. Miss Mary Frances McKinney, teacher of geography, and Meredith Cox, professor of chemistry, also will be affected by the change.

MRS. COATES ACCEPTS BURNAM HALL POSITION

Mrs. Thomas Jackson Coates, widow of the late president of Eastern, this fall will occupy the position as house mother at Burnam Hall, Eastern's newest girl's dormitory. She has moved with her family from the president's home on Lancaster avenue to a house on South Second street.

During the day Mrs. Coates will be at Burnam Hall, which has gratified Eastern officials much, since they believe that she will be a wonderful influence with the girls staying there.

MISS DAUGHERTY RETURNS

Miss Augusta Daugherty, of Bowling Green, an employee in the business office, who was operated on for the removal of her appendix toward the end of the summer session, has sufficiently recovered to be able to return to her work. She has been made cashier.

spirit. Link up with some extra curricular activities while you are here. Those who are happiest are the students who participate most fully in the activities of the college.

Welcome, thrice welcome, to you who are so fortunate as to be able to enter upon this wonderful venture—another year in college.

EASTERN GRID CARD IS STIFF

Heavy Schedule, Starting With Louisville, Arranged for Team Handicapped By New Rules

PRACTICE STARTS MONDAY

Candidates for Eastern's football team will report to Coach G. N. Hembree Monday afternoon and practice will be started as soon as possible and continued into the intensive stages within the first few days in order that the eleven may be ready for its opening game October 6 at the University of Louisville.

Coach Hembree is not enthusiastic over the prospects for a world beater, but expects to have a game crew of gridders. He is handicapped by that fact that this is Eastern's first year as a member of the Southern Intercollegiate Athletic Association, whose rules prohibit the eligibility of freshmen for the varsity teams.

Also numerous veterans and mainstays of the team were graduated or will not return to college. The freshman team will be Eastern's first and will be coached by Thomas McDonough who has just arrived in Richmond.

Despite the poor prospects the schedule makers have set up a formidable array of games for the Eastern gridders. Louisville is a tough opener. A week later Eastern plays before the home fans for the first time with Morris Harvey, of Barbourville, W. Va., as an opponent. October 20 is an open date. Morehead Normal is a home opponent October 27, and this game is followed by another open date November 3.

Then starts the racket making with Transylvania at Lexington Nov. 10; Kentucky Wesleyan at Richmond Nov. 17; Union College at Barbourville, Nov. 24, and the final game with Western State Teachers College here Thanksgiving Day.

The schedules are in the hands of A. B. Carter, chairman of the athletic committee, who plans to make the freshman schedule after the prospects for that gang may be better determined.

Due to the fact that so few will be eligible for the team Coach Hembree, assisted by George Gumbert, has issued a call for every available man who has any promise of developing into a football player. More than ever in recent years the winning of games depends upon the reserve power of the contestants and it is hoped that some unknowns will develop into the much needed quantities.

Rumors have reached Richmond that Captain-elect Beckham Combs, one of the state's best linemen, will not return to college, but these appear to be unfounded. He will be a tower of strength in the line and one around whom may be built a good defensive network.

In addition to Combs among the players who will be candidates for the

(CONTINUED ON PAGE FOUR)

ROARK HALL SCIENCE BUILDING

Only a few minor changes have been made in the buildings of the Eastern Teachers College in preparation for the opening of the fall semester. Most noteworthy is the changes which will culminate in Roark Hall being made exclusively into a science building.

The offices of A. B. Carter, farm manager and teacher of biology, have been moved to Roark Hall. A bacteriological laboratory for him also has been established in Roark Hall. The quarters of Rex W. Cox, teacher of agriculture, also will be in Roark Hall.

Officials state that as soon as is possible without causing inconvenience to the teaching staff and handicapping the work, the entire of Roark Hall will be turned over to the various science departments.

Welcome, Students

It is with greater pride and a full appreciation of the institution which you have entered that the Eastern Progress welcomes you here to the fall semester. At no time in the history of the college has it been more fully convincing that great possibilities lie in store for the ambitious, industrious.

It may be said even more convincingly that you have come for superior training amid the thousands of others in the collegiate world. It is the hope of the Eastern Progress that the new students may feel from the day that they arrive that Eastern is their alma mater as much as any graduate or student of longer stay here.

In persuing the various educational offers in the collegiate world, it would be difficult to match the opportunity of a student at Eastern, who is offered a standard college course with all necessary expenses for a semester only \$117.50, including room and board. By making this possible, Eastern has offered a challenge to the other colleges and at the same time subtly admonished its students to take the fullest advantage of the chance offered.

Students should realize that their training will be given in a school plant valued at more than a million dollars, that the faculty is the largest and most competent since the founding of the college, that Eastern is the only teachers college offering a complete commercial course, that Eastern is a member of both the American and Kentucky Associations of Colleges, and that all of the extra curricula activities of any college may be had at Eastern.

It also is noteworthy that Eastern's executive force, including the president, dean, board of regents and business agent, are working tirelessly for the progress of the college, which means that progress of Kentucky.

Possibly no greater opportunity for service has been presented the students than is at hand now. Few realize the tremendous good that may be done the state by constant application to Eastern's courses, but if only a moment's reflection will be given, it may be seen that that will lead to better prepared teachers and a more enlightened commonwealth of Kentucky.

It's a College

Among the most encouraging prospects for the fall semester is the fact that of the large number of applications for admission come a good per cent of high school graduates who intend to remain at Eastern for the entire four-year period of collegiate work.

Already there has been a marked advance in the last few years in college spirit as was noted especially last year, but there is ample opportunity for more improvement.

It is true that Eastern is essentially a professional college for the training of teachers, but it is inconceivable that a teacher should have less genuine love for his college than a pseudo engineer or minister of the gospel.

Now that Eastern is firmly established as a four-year college, its alumni will grow steadily and exact more and more from the student body, but in the interim there is no reason that just as so-called "college pep" cannot be shown.

Even more pride should be taken in the athletic teams since this year is the first that Eastern has been a member of the Southern Intercollegiate Athletic Association. The first freshmen teams will be on the field. It will be extremely hard for the team to get a formidable array together without the services of freshmen.

For this reason the student body should help boost the varsity all the more since they will be fighting under difficulties and in need of all the support possible. It will be a good team and a fighting one, but one playing under difficulties.

CANDIDATES FOR THE MAXIMUM

- If you can keep your head when taking courses,
And never take the same course more than twice;
- If you can trust yourself to pick the right one,
And never choose it 'cause the "prof's" so nice;
- If you can make a dash at three and thirty,
Three days a week for twenty years or more;
- If you will always answer to the roll-call
Nor falter, though your head,—and feet—be sore.
- If you can tend each course for fifteen hours,
And listen with enthusiastic air;
- If you can read the countless pages called for
And never let yourself admit despair;
- If you believe the "half" that your instructors,
With gilded words would cram 'way down your throat;
- If you can stand their many witticisms,
And never let them know they've "got your goat."
- If you can pick a major and two minors,
If all your other courses never clash;
- If you have always used utmost discretion,
Nor let your education sound like hash;
- If you have kept strict count of every hour,
And added up your credits year by year;
- I know, at last, you'll get an honored sheepskin,
What though, byt then you'll be quite old and sear!

Fall Semester To Be Epoch Making

Advance applications for rooms in the dormitories at Eastern indicate that the fall semester of the Eastern Kentucky State Teachers College and Normal School will be the largest fall semester in the history of the college, it was announced by Dr. H. L. Donovan, president.

In no previous year since the founding of the college in 1906 have the applications approached those of this year. Last year there were 571 students enrolled for the fall semester and officials of the school believe that this number will be far surpassed during the present term.

Dr. Donovan also pointed to the fact that a great increase has been noted

in the number of high school graduates who have indicated they will enroll at Eastern during the fall semester. This, he says, is a great sign of the growth of the college.

Officials also are encouraged as to the growth of the college by the fact that the high school graduates indicate they will be present for the full college course of four years. This continuous stay will add much to the effectiveness of the college.

Several members of the State Medical Association, which held its annual convention on the Eastern campus last week, have indicated they will send their children to Eastern because they were so impressed with the buildings, grounds and prospects of the institution. One doctor brought his daughter to Richmond with him and will leave her here for the college year.

Dr. Donovan has announced that the faculty is complete and is the largest that it has ever been. It also is noteworthy that there are more degrees held by the faculty this year than ever before. Eastern plans to become a member of the Association of Colleges and Secondary Schools of the Southern States. Eastern already is a member of the National Educational Association as an approved college and is a member of various other associations.

Various student activities are to begin at once. Included in these will be the Eastern Progress, student newspaper; The Milestone, annual student publication of the senior class; the literary societies; the open forum committee; the Little Theatre Club and various clubs and organizations.

LOWE-BARNETT

The marriage of Miss Corynne Lowe, of Cornersville, Tenn., and Mr. Bodie Barnett, of Shawnee, Okla., was solemnized during the latter part of August at the home of the bride's father in Tennessee. Miss Lowe for the past four years has been assistant bookkeeper for the Eastern Kentucky State Teachers College and Normal School.

Miss Lowe is the charming daughter of Mr. George E. Lowe. She won many friends by her pleasing personality and attractiveness while in Richmond who rejoice with her at this time. Miss Lowe is a graduate of the Bowling Green Business University from which she came to Richmond to accept the position as assistant bookkeeper.

Mr. Barnett is a childhood sweetheart of Miss Lowe, both having been born and reared in Cornersville, Tenn. He is a promising young business man in Oklahoma and at present is engaged as manager of an automobile business at Shawnee.

Immediately after the ceremony the couple left for a motor trip through the west. They stopped for a short time at Mr. Barnett's former home in Memphis, Tenn., and proceeded by touring westward and then southward to Shawnee, Okla., where they will make their home.

Regents Approve Awarding Degrees

Twenty Bachelors Degrees and Many Certificates Are Approved by Eastern Board

NEW TEACHERS GET O. K.

The board of regents of Eastern Kentucky State Teachers College and Normal School have approved the awarding of 20 Bachelor of Arts and Bachelor of Science Degrees to persons who finished this work in summer term, it has been announced from the office of Dr. H. L. Donovan, president of the institution.

Sixty persons were awarded standard certificates by the board and approximately 125 were given elementary certificates when the board met in called meeting for that purpose. All members of the board with the exception of Sen. H. M. Brock were present. Those in attendance were C. A. Weaver, of Ashland; Judge J. W. Cammack, of Owenton; Judge J. A. Sullivan, of Richmond, and Supt. W. C. Bell, of Frankfort, ex-officio member of the board.

At the meeting a one year leave of absence was granted to Prof. Meredith Cox, professor of chemistry who has been granted a fellowship at Duke University, Durham, N. C. Thomas C. Herndon, who holds the bachelor's degree from the University of Kentucky and the master of arts degree from Peabody College was named to fill Mr. Cox's place.

Miss Mary Beall, of Mt. Sterling, instructor in the mathematics department, was granted a leave of absence of one year on account of illness and Miss Louise Lowry, a graduate of Northwestern University, was employed to fill the vacancy. Miss Lowry was said to be one of the best students ever graduated from Northwestern in mathematics.

President Donovan reported to the board a number of improvements and repairs which have been made on the campus including the repair of the roadway through the campus which has been patched, oiled and chipped. Dr. Donovan says that he hopes to be able to place a high type surfacing on the driveway soon.

The arrival of two of the new instructors recently employed by Eastern was also announced by Dr. Donovan. Dr. Vernon M. Albers, who will be in the physics department, has arrived and will make his home at the residence of Mrs. R. C. H. Covington on Lancaster avenue. Dr. Dean W. Rumbold, of the biology department, is also here and will live at the home of W. A. Ault on the campus.

Carr Creek Boys To Enter Eastern

Three members of the freshman class of the college department of Eastern who played on the wonder basketball team from Carr Creek last winter, arrived in Richmond early last week to prepare for their school duties.

They are Zelde Hale, Ben Adams and William Hale, all of whom played on the team which was runner-up for the state championship and a semi-finalist in the national basketball tournament at Chicago.

Work was the first thing sought by the Carr Creek boys who expect to remain at the Teachers College throughout the year. They come from the Carr Creek Community Center where they only found time for basketball practice between shifts in the mines, work on the farm and in carpentry classes.

The boys will be eligible for Eastern's freshman basketball team, which will be coached by Thomas McDonough. This is the first year Eastern has been a member of the Southern Intercollegiate Athletic Association and the first year that it has had freshman teams. They will be a great help in Eastern's basketball rise.

**Additions Made To
Eastern's Faculty**

**Dr. J. D. Farris Comes Highly
Recommended As College
Physician; Math Teacher
Employed**

COX ON LEAVE FOR YEAR

Numerous additions have been made to the faculty of the Eastern Kentucky State Teachers College and Normal School since the close of the last regular school year in June. Among these is Dr. J. D. Farris, a native of Smithland, Ky., who will come to Eastern as college physician and teacher of health.

Dr. Farris spent ten years as school teacher before studying medicine. He was graduated from the medical school of Vanderbilt University in the honor group of his class. He has attended the Western Kentucky Teachers College, University of Chicago and George Peabody College, where he obtained his master's degree. He received his M. D. from Vanderbilt.

In recommending Dr. Farris to the board of regents of Eastern, Dr. W. S. Leathers, dean of the Vanderbilt Medical School, said:

"He is a man of pleasant personality, splendid character, and, I think, exceedingly well adapted for the position of director of a health service in a college for teachers. I believe he would inspire confidence and interest in such work. He would also, I am sure, extend the influence of a department of this kind to the surrounding territory.

"He has been made a member of the Alpha Omega Alpha scholarship society in the Medical School. Only nine students have achieved this recognition. This means that he has made an average of 90 or more in his course during the four years. I wish to recommend Dr. Farris for the position in question without reservation."

THOMAS HERNDON

Another new instructor is Thomas Herndon, who will take the place of Meredith Cox, who will be absent on a year's leave of absence. Mr. Cox, however, will return to Eastern at the end of the year and there will be two chemistry professors. Mr. Herndon was graduated from the University of Kentucky with the A. B. degree and later received his M. A. degree from Peabody College. He also has studied a year at the University of Chicago. Mr. Herndon taught for a while at Bethel College in Kentucky.

MISS LOUISE LOWERY

Due to the illness of Miss Mary Beall, the officials of Eastern have secured the services of Miss Louise T. Lowery as instructor of mathematics. Miss Lowery has received two degrees, A. B. and A. M., from Northwestern University, Evanston, Ill., and comes to Richmond highly recommended. She is a member of the Presbyterian church.

MISS BERNICE CHAMP

Bernice Champ, A. B., A. M., critic, rural school, student at Hamilton College, at Lexington, two years. A. B., Eastern Kentucky State Normal School and Teachers College; A. M., Teachers College, Columbia University; critic teacher, Eastern Kentucky State Teachers College, one semester, 1927; present position, 1928.

MISS ELINOR FOSTER

Miss Foster holds both the degrees

of bachelor of arts and master of arts. She obtained her master's degree in the library school of Columbia University.

VERNON M. ALBERS

A. B., Carleton College, Northfield, Minnesota; A. M., University of Illinois; Ph. D., University of Illinois; part-time assistant department of physics, University of Illinois, four years; full-time assistant University of Illinois, one year and two summer sessions; present position, 1928.

L. G. KENNAMER

A. B., Simmons University, Texas; B. S., A. M., Ph. D., George Peabody College for Teachers; student, University of Wisconsin, one year; professor Abilene Christian College, six years; professor of science, David Lipscomb College, one year; professor of geography, Sam Houston State Teachers College, Huntsville, Texas, summer session; Bursar and Registrar, Abilene Christian College, three years; assistant in geography department, George Peabody College, two years; present position, 1928.

DEAN W. RUMBOLD

B. S., University of Buffalo; student, University of Wisconsin, one year; Ph. D., Duke University; undergraduate assistant, University of Buffalo, one year; graduate assistant in general zoology, University of Wisconsin, one year; teaching fellow, Duke University, two years; instructor biology courses, Seashore summer school, Duke University, 1927; instructor Culver Military Academy, summer session; publication: A New Trematode from the Snapping Turtle.

NOEL B. CUFF

B. S., A. M., Ph. D., George Peabody College, David Lipscomb College, two years; teacher of Spanish; teacher of English, Freed-Hardeman College, one year; principal county high school, Davidson county, Tennessee, two years; teacher of Psychology, Appalachian State Normal School, Boone, N. C., two summer sessions; teacher of psychology, David Lipscomb College, two years; present position, 1928.

ELECTRICITY BOUGHT

Under a new agreement with the Kentucky Utilities Company electric power for Eastern's buildings will be purchased from that company for the next two years for 2.5 and 3 cents a kilowatt hour. The contract was made after it was found that the new buildings at Eastern would increase Eastern's electrical demands to a greater extent than the plant could furnish with its present equipment. Eastern has an option to continue the contract after two years. The campus power plant will be continued for heating purposes.

SCHOLARSHIP AWARDS

The highest scholastic standing in the college department during the second semester of the last regular school year was made by Miss Hazel Broadus, of Lancaster, and in the normal department by Ross Anderson, of Booneville, it was announced during the summer by the open forum committee.

Second in the college was Robert Salyers, of Richmond. Honorable mention was given Charles Pettit and Mrs. Elbert Calco. The names of the winners of the scholarship pins, awarded by the open forum committee, were inscribed on the silver slabs which hang in the lobby of the library building.

GIFT TO LOAN FUND

A gift to the Student Loan Fund was made during the summer by P. H. Callahan, of Louisville, manufacturer and nationally known Democrat, who spoke here and turned back the money which he was to receive for delivering the address. Mr. Callahan is a graduate of Old Central University, whose campus Eastern now occupies.

ROTARY MEET HERE

During the days of August 6, 7 and 8 of August the executives of all of the Rotary Clubs of Kentucky held a meeting in Richmond. The Rotary officials expressed delight at being at Eastern and complimented the college much during their stay.

DENISTON ON LEAVE

N. G. Deniston, head of Eastern's department of manual training and industrial arts, has been granted a year's leave of absence to accept one of the La Verne Noyes scholarships for research work at Bradley Polytechnic Institute at Peoria, Ill. He received one of the twenty scholarships given to one man in each of twenty state groups. His place will be filled by Herbert T. Higgins, graduate of Eastern's two year course, of the University of Kentucky.

SURVEY OF COLLEGE

A complete survey of all of the developments at Eastern will be included in the draft being made by Dr. Homer E. Cooper, dean, to be presented to the Association of Colleges and Secondary Schools of the Southern States meeting at Fort Worth, Texas in November. This will accompany Eastern's application for membership, since that is the only major association of which Eastern is not a member. The president and dean will attend the meeting and formally make Eastern's membership application.

MISS HENSEN AT COLUMBIA

Miss May C. Hensen, who for 16 years has been a critic teacher in the training school, has been granted a leave of absence for a year and during the summer studies at Teachers College, Columbia University. She will resume her work there in the fall.

MISS RUSSELL RESIGNS

Miss Helen Russell, teacher of physical education for women in the college department, resigned her position during the summer and will be succeeded by Miss Gertrude Hood, of Portsmouth, Ohio. Miss Hood taught last year in North Dakota.

MISS ROBERTS AT IOWA

Miss Katherine Roberts, of Lexington, French teacher at Eastern for the past three years, will study at the University of Iowa at Iowa City during the coming year for which she has been granted a leave of absence. She will do work in child psychology.

EASTERN GRIDDERS

(Continued from Page One)

team are Henry Triplett, Allington Crace, Ralph Gentry, Swepton Clayton, Roger Morris, Wilburn Clifton, Fred Dial, Merwin Runyan, Clyde Hensley, Robert Salyers, Robert Guy, John Shirley, Russell Pope, Marvin Jasper, W. E. Ramsey, Bernard Hargrove, Dewey Pearson, James Osborne, John Osborné, Virgil Fryman, Dutch Blake, Robert Morris and James Caywood.

Coach Hembree hopes to start the boys into fast work-outs as soon after Monday as possible in order to get the team selected and whipped into a fighting combination by the Louisville game three weeks later. It will be a task, but one which can be accomplished by hard training, the coaches say.

Of course the names of Brock, Sauley, Harold Moberly and former Captain Jesse Moberly will be missed in the line-ups, but several newcomers showed exceptional ability in spring training and will be developed to take the places of the graduates and strayed.

Uniforms will be supplied to all who wish to try for the team. The equipment has been carefully examined and fitted for the candidates. The athletic field is hard from lack of rain within the past few weeks, but is smooth and well sodded for the most part.

TAPP IS SUPERINTENDENT

Hambleton Tapp, English teacher in the normal department, has resigned his position to become the superintendent of the city schools of Eminence. He already has assumed his new position, but was visitor in Richmond Friday and Saturday.

AUDITORIUM DEFERRED

At the July meeting of the board of regents of Eastern the board was unable to let the contract for construction of the new auditorium in the rear of the administration building due to the fact that all of the bids exceeded the \$125,000 appropriated by the state legislature for the construction of the building. The matter will come up again at the next regular meeting of the board in the fall.
