About two hundred thousand years ago an old mat sat in the quiet sanctity of his particular part of his cave and hazarded a conjec-ture in regard to the latest in modern warfare: "War was not so unreasonable as long as man used his bare hands, but with the ad-vent of this latest scientific de-velopment we must seek a way to prevent any war in the future."

We haven't the faintest idea what the weapon was, but that isn't important. The important thing is this: Charley Wilson sat in the quiet sanctity of his little home and said to his wife, "If science insists on thrusting fiendish weapons on mankind, we must do something to prevent having wars in the future, for they will surely kill us all. We are going to have to establish an attitude of international understanding."
Charley is not the most intel-

ligent person alive, but he has the right idea. We must develop such an attitude for science is not going to slow down—it is up to the cit-izenry of the world to speed up. We can't stay behind science much longer. Society had better grow until it goes ahead of science. We must learn to think, not as a nation of forty-eight states, but as a world of seven continents. We must never make remarks concerning the character of people of other countries, for we are from every country in the world.

We cannot judge for we are on trial. Our diplomacy is notewor-thy only in that we have no policy. Great Britain hasn't had any policy in comparison with Russia, Germany, Austria, and a host of smaller countries that know internationpolitics from top to bottom. ee "Lessons of My Life," by

Lord Vansittart.) *We must train ourselves to look at problems objectively. We must not tak sides until we have seen both sides to a question. We must not believe that we, as a nation, can do no wrong, for no nation is

In short, we must learn to tolerate the churlishness of the world. We must look at every situation with unbiased eyes, though it might hurt our pride to do so, for only through these attitudes can we hope to have the dream of ages: eternal peace.

During the last few months, reports have been coming out of Europe, concerning streaks of light going across the skies, thought to be rocket projectiles. One Swedish scientist said that he saw one land and explode with a brilliant flash, but not much else.

It is generally thought that Rus sia is experimenting with such pro jectiles, but of course she has said nothing about the subject.

Speaking of weapons, the weapon that has grown old in such a short time, the atomic bomb, is still being kicked around by the U. N. They are still trying to decide on a means for control, but it is unlikely that a satisfactory method will ever be developed for such control. It all makes us wonder what the U. N. will do when and if cosmic rays are utilized in a weapon. If these rays are harnessed, they will probably be sufficiently large to make the atomic bomb look sick.

During one of the tests of German V-2 rocket projectiles at White Sands, New Mexico, one of the rockets went through a belt of cosmic rays a hundred thousand feet thick. The big question is who will establish a pipeline to this belt. We don't know whether to hope for the utilization of these rays or not. They could be very helpful but they also might be "too hot to handle."

One use of radioactive material is almost enough to justify its existence. Radioactive phosphorus has been used in curing cancer, with much success. Skin cancers have been cured in remarkably short periods of time, and further, there aren't as many harmful effects from this material as from X-ray and radium treatment. If cosmic rays can be used in med-icine, we might welcome it.

"It is my happy privilege to say "Welcome Home" to the alumni and former students. Homecoming is always a happy occasion for those of us on the campus. During the past several years we have experienced much loneliness without those of you who were so far Today our hearts are gladdened by your smiles and warm

We are sorry that we could not make you more comfortable in your living quarters. We have crowded you into every available space we could. We were assured of your love for your college home and your willingness to make it possible for so many of the family to come home the same week-end.

I wish time would permit my having a long individual visit with each of you. It is my sincere wish that your short stay be a most profitable and enjoyable one.

When you were younger we were always glad of an opportunity to share your joys and sorrows. You're growing older and being away from us has not altered that desire. You will always be ours and we shall always love you.

Come back home as often as you can. Continue to offer us the encouragement that you have so unfalteringly and unselfishly of-fered us in the past. That loyalty and faith of yours will always help us to carry on with courage and determination with the high hope of becoming even a greater Eastern.'

To the Alumni and Former Students of Eastern:

Greetings! It is difficult to believe that the Big Homecoming to which we looked forward and for which we planned during all the long war years is really a thing of fact. To the many hundreds of men and women who served in the armed forces of our country and whom we seek to honor at this time, and to the many more alumni and former students who are gathered here to do this honor, we say "Welcome Home." To the memory of those forty-eight men whose names are inscribed on our Gold Star Roll, we dedicate this Homecoming. MARY F. McKINNEY Acting Alumni Secretary

AS WE SEE IT

Open Confession To The Eastern Alumni

As an undegraduate of Eastern, I have a confession to make. When I first came to school as a freshman, and when on every side all I heard at the beginning of the first quarter was someone talking about homecoming plans, I was very disgusted. My first reaction was "what in the world do those old fogey teachers and married people want to come back here and get in the way? It's our school and why do they have to come around and act so important?"

Yes, I was very critical and extremely intolerant.

But wait—the longer I stayed at Eastern the more I began to realize that somebody had given the Maroons their wonderful tradition; someone had helped preserve the natural beauty of the most wonderful campus in the south; someone had given Eastern her high scholastic standing; someone had helped create that intangible spirit that permeates the entire atmosphere; someone

had helped Nell, John, and Andy keep Burnam shining like a new button; someone had placed their faith in Mrs. Case and had caused her to have the store of wisdom she now possesses; someone had gotten over the basketball court a little faster than the fellow on the opposing team and had given us a record to uphold; someone had MADE Eastern.

That was three years ago when I considered you "dead timber" and "excess baggage." This year when I heard about all the wonderful homecoming plans, I felt all creepy on the inside because now I know what you have meant to Eastern and to whom Eastern really belongs. Now I know that the spirit about Eastern you can't explain is that love which you alumni still

Today when I pass you on the campus I won't picture a stogy old teacher with a ruler in one hand and a red apple in the other, but I will see a teacher who has the future of the nation as her responsibility; I'll see Mrs. John Doe, Eastern alumnae, who is the mother of future presidents; I'll see Sergeant Smith, Eastern alumnus, who

fought his way through the Belgian Bulge; I'll see Eastern alumni whose small rural schools aren't the most beautiful or the best equipped in the country but who teach democracy and freedom as inalienable

Now I know what makes Eastern Great.

This is your school paper and we want your criticism. If at any time the paper does not measure up to what you think a college newspaper should be, then please let us know and also give us suggestions on a more complete coverage of the news plus what you would enjoy reading in the paper. If you have an idea for a new column, then let us know about it. We want to make it a truly geat paper and we can only do this with your help and advice.

Won't you help us?

The lines may be long, but remember that there is someone else in back of you who is going to have to wait a little longer than even you. Don't break lines, don't grumble, and please be patient until a better system can be put into effect.

The Freshmen, God Bless 'em

It takes all kinds of people to make a college, the least among them, the Fresman, or that's what the frosh feels . . .

He matriculates, registrates, orientates, assimilates . . . He loses his money, privacy and his general sense of well being . . . He stands in lines, takes tests, stands in lines and takes more tests . . . He learns the topography of Madison County hunting for class buildings. . . . He finds Grant didn't take Richmond and wishes to heck he had the wonders into the library and ign't heard from for days had . . . He wanders into the library and isn't heard from for days until some upperclassman finds him and shows him the way out.

Would there were some magic word to dispel all the fog of a first quarter freshman—but alas! no . . . the only universally recommended method is to obey at least 38 percent of the college rules and say your prayers nightly.

SOLOMON, King of Israel, and George Washington, the first President of the United States, lived about alike. They rode in horse-drawn vehicles, wore hand-loomed clothes, used animal oil for light and wood for fuel. They lived nearly 3,000 years apart. Think what you have now and remember that Washington died less than 150 years ago; more in-dustrial progress in the last 150 years than in the previous 3,000.

In comparing the American system with any socialistic plan, one point must be held in mind constantly: freedom to think. Nothing is more valuable than good ideas and everybody has them; nobody has a corner on them. Where any person is free to get ideas and put them to work at his own risk, good ones come to light in a hurry and are put to work in a way that helps every-body; that is the American way.

Compare UNDER any socialistic system of central planning, only a few are considered worthy to think. They have ideas occasionally, of course, but do not try them out at their own risk. They put ideas to work on a big scale at the nation's risk. By this system the whole people must suffer for the blunders of a few. That's collectivism, and the few. That's collectivism, and the differences show up clearly in general prosperity.

America is the most prosperous country on earth. At the last check, national income in the United States was equal to that of the six next highest countries;

national income being the grand total of what everybody earns. Under the American system, in-comes are different; some higher than others but all high. In so-cialistic countries incomes are more alike, uniformly low. Consider PRIVATE enterprise,

Gentlemen of the Continental Gentlemen of the Continental Congress, who years ago made some important decisions for us, today deserve a vote of confidence. Will we keep the form of government they outlined and set up for us or do we change to something like that in Britain, France or Russia? Let us make our decision on a basis of results. If we don't make it soon some-If we don't make it soon some-body will make it for us.

Selecting our course ourselves, doing so wisely and soon, is extremely important. Small items of business can be bungled today and corrected tomorrow, be not this one. If the United States should once go collectivist completely, it would never be a republic again until people who live now are forgotten. There are no practice shots; we make this decision once, and that's how it will be.

"Bite Size" Camera New Rage

HOLLYWOOD — Latest movietown fad, a tiny camera with all the advantages of its larger counterparts is described by Martha Raje as "Bite Size." The comedienne, like other celebrities, finds the new Whittaker Micro-16 camera practical since it takes either black or white or full color pictures larger than itself. It weighs a mere nine ounces and is smaller than a package of cigarettes. Martha's been busy doing a little picture posing herself in the new film, "Monsieur Verdoux."

Rhythm Ripples By DOT HUXT

With everyone at Eastern saying hello again it's no wonder that the King Cole Trio's platter on Student Union "juke" is getting a good workout. Aside from being externely fitting it rates at the top of the list as one of the month's best sellers. (Seems like a, shame that the music box didn't add to its collection, "Kiss Me Hello, Baby.")

"It's Only A Shanty In Old Shantytown" may make someone homesick but it too is popular with all the students. When the Pied Pipers swing into "Aren't You Glad You're You," you lose all that nauseating melancholy and realize (all over again) that you're at Eastern.

"All Through The Day," and even if Andy Russell says so, it isn't just "Pretending." All the old faces around will most likely popularize such old favorites as Bobby Stafford's. "Seems Like Old Times" which comes with the alltime favorite, "I Fall In Love With You Every Day."

Mr. "Solid Sender" James has a new disc with his newest vocalist, Ginnie Powell, singing a rhythmic version of "Do You Love Me?" The Voice has recorded two hits from "Annie Get. Your Gun." -"They Say It's Wonderful" is Sinatra's finest, showing his growth as an artist. Jack Haskell, newest ballad singer with Les Brown's band, makes a scintillating debut with his "In Love In Vain" and "It Couldn't Be True."

For the lovers of the classics,

the Philadelphia Orchestra, conducted by Eugene Ormandy, has made a truly magnificent performof Franck's "Symphony in D Minor," and the Cleveland Orchestra, conducted by Erich Leinsdorf, have a superlative arraingement of Schumann's lovely score,
"Symphony No. 1 in B-Flat
Minor." Maryla Jonas has made
a brilliant selection of Chopin music which displays her astounding mastery of her instrument and the depth of her interpreta-tions. The set includes three Mazurkas, two Nocturnes, two Waltzes, and a Polonaise.

So tag along with us and we'll see what can be done tabout keeping you up on the know-what in music of all sorts.

HOMECOMING EASTERN STATE TEACHERS COLLEGE

We're "home" again in Richmond town, On fair Kentucky soil, Our hearts are filled with happy thoughts That time will ne'er despoil.

We've journeyed here, from far and near, With old school friends to mingle, And our pride in Alma Mater, Sets our pulses all a-tingle.

A down the lane of by-gone days, Our memory travels fast, And we recall the comradeship We shared here in the past.

The college campus calls to mind The laughter of those years, And we forget the moments when "Exams" brought us to tears.

The classrooms still seem just the same, They typify the learning That students glean and garner there, To start ambition burning.

We find the faculty intact, Except for some new faces, But all reflect the earnestness Of scholarship's fine graces.

The names of our Alumni shine On Life's huge Honor Roll, But some have added lustre wor Embossed on Patriots' Scroll.

On battlefields of cruel war They sacrificed and served, Their college code of loyalty Brought honor, well deserved.

A toast to them! Another one To our fine Teachers' College, Its curriculum will meet Life's test, And that's constructive knowledge.

Through all the years that lie ahead, Her ideals we will treasure,
To be within these walls once more,
Has given genuine pleasure. -Lydia Benedict Crawford

Major George Lewis Missing
Major George M. Lewis, former
Eastern athlete, son of Mrs. Beulah Lewis, Vanceburg, was reported by the War Department September 10 to be one of 11 soldiers aboard a Flying Fortress plane which disappeared August 30 while en route from Frankfurt,

Germany, to Casablanca. On September 23 a report from Grenoble, France, stated that eight bodies and the wreckage of an American Army Air Force plane had been found in an Obiou Mountain pass, 8,800 feet above sea level, near Grenoble. A police spokesman said the bodies apparently were those of American fliers and the plane evidently had crashed into the mountain. Two chamois hunters who found the wreckage did not know what type plane it was but said the registra-tion on the log was dated August 29. No further information has yet been received about the plane

Major Lewis was believed to be piloting the plane. He entered Eastern in September 1937, and left school in June 1939. He played tackle on the freshman football team during his first year and was on the varsity team in 1938. Major Lewis was in service about four and a half years. Library Notes

The library staff is greatly pleased with the quiet and business-like manner in which most of the students have been using the library. The total circulation for this week was 1,743 books. Everyone seems to be getting well acquainted with the library, but for the benefit of those who do not yet know their way around, we are giving the following suggestions

The Information desk is the one at the end of the hallway at the entrance to the Reference Room At any time you need help ask for the librarian at this desk.

The Reserve Room is now open to the student body for the first time since 1942. It will be open each afternoon from 1-5 and each evening from 7-9. If it becames necessary to open the Reserve Room in the morning, it will be done. The back issues of current magazines and the bound maga-zines are kept in this room. All books put on reserve by the teachers will also be found in this room. Teachers now having books on reserve are Miss Sorbet, Miss Burrier, Mr. Stocker and Dr. Ken-namer. The Reserve Room is downstairs and is directly below the Reference Room.

It is the custom of libraries that have open stacks to check all books as you leave the stack room or the Reference Room. We need to see the front cover of dents who work in the library and faculty members.

The library can give better service to the entire student body Address Assembly if each person will not have out more than two books at a time from the library. This gives others a fair chance, too. If you really need several books for a special report explain this to the librarian, and special privilege is usually granted.

Perhaps some of you have not become acquainted with our lib-rarians. The head librarian is Miss Floyd, the reference librarian is Whitehead, Miss Rutledge

VOX VETERANI

After a rather lifeless summer as far as activities go, Paul Bunton called together the first meeting of the Eastern Veterans' Club on Tuesday night, September 24. The bulkheads of dear ol' Beckham literally bulged as an overflow of vets gathered to nominate a new administration and cover the

First of all, we'd like to express the swell feeling of seeing all of the old boys back in school again and the same feeling tow-ard the scads of new fellows who have joined us. The enrollment at Eastern this year brought in more than five hundred veterans (which an't bay; for Eastern, that is) and it would be even better to see more than the 319 of these five hundred taking part in our activities.

Despite the fact of that overflow crowd there certainly was far from full attendance. Now, there are many of the new veterans who have not joined the organization due to an apparent mental fatigue, or are not aware that all they have to do is attend the meeting. After you're once there we're sure you'll want to each book. This is purely a routine sign up. It will only cost you matter, and applies also to stu-fifty cents for a fall quarter membership, and it will certainly be

to your advantage.
So, come and bring a roommate

by Bill Dorna or Frank Jones. As always, plans were made to induct the four-man steering committee, a group chosen to guide and assist the president in club direction, with the nominations of Irv Kuehn, Norm Deeb, Joe Keller, Casey Nowakowski, Carl Scott and John Ertel.

A report was made by Carl Scott on the semi-finishing touches for the Homecoming dance to be sponsored by the Vet-erans' Club this year to climax the homecoming celebration. Being held again in the Student Union Building, formal (shoes 'n' ever'thing), it will introduce a new band to the campus bringing the music of Charlie Mack and aggregation.

At present, there is still a bit of controversy as to whether or not we can obtain use of the cafteria for the affair. The large crowd expected shall make it almost necessary, and think of the possibilities of a swell water fight with two big water coolers in easy reach. Then again, if your date wears out you can get chummy with a ham sandwich.

The closing minutes of the meeting brought out the finer points of freshman hell week by Dudley Whittaker. Each year this week of freshman "welcoming" is conducted by the upperclassmen and this year it shall be held from October 12 through the 19.

'45-'46 Recap Of Sports

This past year of athletics at Eastern brought the college and the state of Kentucky another progressive step toward national fame. To the many new freshman we thought it only fitting that we should give them a recap on the 1945 and '46 intercollegiate athletics at Eastern for which every student should take a personal pride because they are our

After winning the KIAC tournament the boys were invited to participate at Kansas City in the NIAA tournament. Here Captain Lewis climaxed his college cage career by being selected on the All-Amateur team for the second straight year as well as having the most points per game aver-age in the nation and ranking fourth with the nation's leading point makers.

Baseball was the next sport to bring interscholastic fame to Eastern. Second Baseman Pete Nonnemacher was selected to play at Fenway Park in Boston on the West All-American collegiate team. Nonnemacher holds the honor of being the first Kentucky collegiate ever to be so recognized. Pete's batting average of .499 led Eastern to an impressive diamond record of 14 wins and three de-

Anothe aid to this impressive record was the fine pitching of Bill DeVenzio, who was undefeated in collegiate play. Bill's pitching highlights came when he defeated the University of Kentucky in both their meetings, 3-0 and 2-1, allowing but two hits in the first meeting, and three bits. meeting and three hits in the second. Bill did not allow the UK batsmen a safety in their first encounter until the ninth inning. While the baseballers were busy

on the diamond, Larry Becker es-tablished a new state record in KIAC track meet by hurling the javelin 191 feet and 4 inches.

Having two boys named in the same year on All-American athletic teams gives Eastern and the state of Kentucky good reason to be proud.

Richmond Team Tops In Bluegrass

The Richmond Colts who have all but cinched the second half of the Blue Grass Baseball League with seven straight victories are frantically searching for capable replacements for their two veteran infielders, Pete Nonnemacher and Casey Nowakowski, who have forsaken the diamond sport for Maroon moleskins.

Manager Earle Combs, former New York Yankee star outfielder in the days of the immortal Gehrig and Ruth and later coach, has done a magnificent job of developing Luther Wren, another Maroon athlete, into being the league's leading hurler with seven victories against no defeats. Wren, who is among the club's leading hitters, has in many instances the seven delivered almost certain defeat into turned almost certain defeat into victory with his powerful bat in the late innings.

Catcher Cliff Tinnell, who has starred in basketball, baseball, and

football for Coach Rome Rankin, has been receiving considerable attention from scouts and may take a fling at big time ball next

Combs has announced the acquisition of three more Eastern players. They are infielder Jim Cinnamon and Pitchers Ray Giltner and Bill DeVenzio, with the latter in all possibility being shifted to the infield to try to plug the gap left by the departing gridders.

ROME RANKIN

Head Football Coach Rome Rankin, A. B., M. A., "the Old Man," "the greatest man in Kentucky," and "Coach," are the names the boys give him. Coach received his M. A. degree from the University of Michigan and has most of his work off for the Ph.D. degree at the University of Michigan and the University of Kentucky. Rankin starred as end in college and later played several in college and later played several years of pro football. He coached eleven years at New Boston, Ohio, where he had several undefeated teams, and he came to Eastern in 1935, where he has had out-standing teams in football and basketball. The 1940 football team was undefeated.

Lost Or Won?

Let others cheer the winning man, There's one I hold worthwhile; Tis he who does the best he can, Then loses with a smile

Beaten he is, but not to stay Down with the rank and file; That man will win some other day, Who loses with a smile.

Welcome, Michigan Alumni!

Welcome home, Alumni! On behalf of the entire Athletic Department we would like to wish each one of you a happy weekend at Eastern. To make sure of this the department is presenting the traditional homecoming game on Saturday afternoon at 2 p. m., between the Maroons and Central Michigan.

The squad of '46 will be in high spirits, with so many of Eastern's former grid heroes present and the cheers of yesterday's ardent fans with us again. From the opening kickoff until the final whistle our boys will be out there fighting to uphold Eastern's traditional football record.
