### Think Not Of War

Recently the American people read in their newspapers that an atomic explosion had occurred somewhere in Russia. Sensitive scentific instruments here in the United States had picked up the vibrating waves from the said explosion.

Immediately Americans began speculating on how Russia might put her atomic discovery to use. It is natural for people to conjure about news reports. We cannot neglect, though, the fact that there is no possible proof that Russia is going to turn her atomic energy into war channels. Yet that nation has not warranted trust in the past.

And this conjecturation has added to the threat of a third world war. We, the peoples of the world, must suppress this idea. We must cast into oblivion all fantastic ideas of war and killing and useless bloodshed.

The world cannot stand another war waged on its earth in this generation or the next generation or the next century.

The mind of the world is warped and sick and near death from starvation, caused by the equipping of monstrous armies, which ravaged and ripped the earth from beneath the

there is within our capacities to think and feel and live.

Think of peace. Work for peace, not by building atomic bombs, tanks, and airplanes, but by educating the mind. It is in the mind of the world that the fate of civilization rests.—B. C.

## Compromise, Not Force

Education is an institution of high morals, of polished ideals and goals. Yet education is letting itself become tainted with disease of racial prejudice that grows ranker in the United States every day.

As a fundamental institution of society, education can-not let itself become involved with bigoted and childish racial prejudice, for education, in its very existence, opposes

such evidences of ignorance on the part of the people.

The LOUISVILLE COURIER-JOURNAL almost daily carries accounts of the situation plaguing the trustees of the University of Louisville. The question of admitting members of the colored race to the municipal university has created much furor.

Early this year the federal court declared that the University of Kentucky must open the door of its graduate school to members of the colored race. A storm of reaction broke and raged for sometime, yet there are members of the colored race enrolled at the present moment in the Graduate School of the University and there has been no serious public repercussion because of this fact.

We are able to comprehend the stand that the University of Louisville is taking on the subject because that school is located below the imaginary and often annoying Mason-Dixon line. Tradition dictates that the South must be prej-udiced against the colored people. It must be said here that there are only a few decent schools for colored people in existence south of the Ohio River.

The problem of racial discrimination in the schools of the South is here. We must face it. We cannot turn our backs on it. Education must not shirk the duty that has

been thrust upon it by society.

Perhaps the best solution of this problem is to have the white and colored children attend the same school. We must make education possible on an equal basis, else we will be denying education the firm foundation of equality. But we feel that racial co-education must not be forced upon either group. Force is never the proper weapon against changing society.

We believe that a compromise solution might be the co-operative support of the southern states in financing and building regional institutions of higher learning such as a medical school, a liberal arts college, a law school, and a graduate school for the colored race. These institutions

would be managed and governed by that race.

Kentucky should lead the way in a program of this manner. She is a border state and can most easily break the tradition of the South and blend her education system into a unity of equal opportunity for all races.—P. M.

It's Homecoming weekend again at Eastern and through the crowd of youthful, unknown faces, we catch an occasional glimpse of a familiar classmate or professor. These are the ties that link the past with the present, for the campus has changed greatly since we were enrolled as students here twenty years ago.

### April night moon

The moon is a solitary queen on her throne far away in the clear, bourgeoning blue of a night sky. A lone star guards her majesty, while cloud dukes make transparent obeisance to her highness and hurry from her awe-inspiring presence.

She kicks her train of sheer, shimmering silk about and goes for a stroll in her unpatterned garden. And her billowy skirt swishes over the paths of the earth; and the wind gifts her with the perfume of spring.

She moves on through her garden and glides away behind a tree toward her misty boudoir, where soon she will rest.

ideas for the planning of the UN home, pour into the organization's offices daily. Most sensible, a prayer room without any religious prayer room without any religious symbols, was put into the blue-prints. Some of the nonsensical ideas include plans for a huge international clock, which would tell the time of all the parts of the world and the idea that the UN should be built on an aircraft carrier making it truly an international home, since the carrier would be able to travel all over the world.

There's going to be an awful lot of coffee in Brazil next year. The Brazilian Coffee Department estimates that next summer's crop will yield from 12,000,000 to 13,000,000 bags. But there won't be as much coffee as there was in 1933 and 1934 when the crop averaged 19,000,000 bags.

The state of Sao Paulo will contribute 8,000.000 bags of the coming crop.

The repair work on the White House is expected to be finished in time for the Trumans to cele-brate Christmas, 1951, in the executive mansion.

All the inside walls are being ripped out and new ones installed on more sound foundations. The exterior sandstone walls are firm and will stand for many more years, federal building inspectors believe.

A new basement, which will contain among other things a barbor shop, a dental office, and a small laundry, will be built. More bedrooms and baths are to

### Frankie Laine's Numbers Arouse Tin Pan Alley

By Crystal Masters This week's blue ribbon tune is a mellow little number played on every juke box throughout the nation, none other than THAT LUCKY OLD SUN. Frankie Laine's rendition of the number one song and its sequel, MULE TRAIN, is causing unusual stir in

Tin Pan Alley. Running the nation's favorite a close second is Buddy Clark's arrangement of YOU'RE BREAK-ING MY HEART. On the flipover, he does a fine job of SONG OF SURRENDER, a melody that will brighten next month's music parade.

Lee's Sweet Refrain Those two sentimental refrains done up so sweetly by Peggy Lee, THROUGH A LONG AND SLEEPLESS NIGHT and YOU'RE SO UNDERSTANDING are still keeping platter fans in a spin.

It's Dick Haymes at his smoothest when he croons MAYBE IT'S BECAUSE, a song that's still capturing the spinner spotlight.

No disc jockey's program is complete nowadays without I NEVER SEE MAGGIE ALONE. an unpredictable that has gained overnight fame. Oldies Lingering

Several oldies are still lingering toward the bottom of the new hit list. Despite a whole summer's popularity, SOME ENCHANTED EVENING and ROOM FULL OF ROSES still have listening appeal.

There'll never be another NIGHT AND DAY, but a new Jo Stafford release called ENVY has a haunting strain that is very nearly like Cole Porter's perennial.

Margaret Whiting's two recordings, SLIPPIN' AROUND and SLIPPIN' AROUND AGAIN, are vying for place number ten on the Hit Parade. She also has a very fine arrangement of DIME A DOZEN and its backer, WHIRL-WIND. Desire A Rest

For those who desire a rest from worry and fret over the hardships of college, try a DREAMER'S HOLIDAY. Perry Como makes it especially enticing

with his silky voice.

A crystal ball, or the gift of prophecy, isn't necessary in saying that LAND OF LOVE and IF I EVER LOVE AGAIN are tomorrow's hits in the making.

# Maroons, Western In Homecoming Tilt

Varsity In Home Finale: Festivities Are Planned

HILDA-GAY MAYBERRY, one of the nation's outstanding young majorettes, will be featured at the colorful halftime ceremonles tomorrow night. Miss Mayberry is only 14 years old and has already gained state and national recognition. She won the American Legion National Junior Championships the past two years and is the only person in the history of twirling in Kentucky to ever win and hold all baton twirling championships at one time. Hilda hails from Louisville, Ky.

Tomorrow night is the night for revenge. It is the time when the Maroon gridders-can avenge a 14-13 setback handed them by the Hilltoppers in Bowling Green last year.

### Maroons Upset Dopesters, Tie Evansville Aces 7-7

By PAUL DUNCAN-

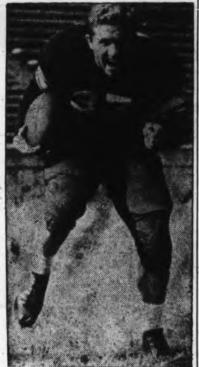

Most everyone thought the Maroons didn't have a chance. In Evansville, the football fans were already thinking and planning the Refrigerator Bowl. The talk was "how badly will Evansville beat Eastern" and "how much trouble will Marshall give the Aces" in the post-season OVC game.

But, that talk took an abrupt reversal shortly after a hard fighting, injury-riddled squad of Eastern Maroons dumped Evans-Aces Score First ville from the unbeaten and untied ranks of the conference with a 7-7 deadlock. After knotting the count near the end of the first half, the charges of Tom Samuels came back strong in the second half,

The Maroon and White pushed the highly touted Aces around for the remaining two quarters in chalking up 13 first downs for a total of 20. However, the varsity fumbled away several chances of scoring a big upset victory.

play, Logel fumbled and Eastern took over, with end Jim Dudding recovering.

With only 45 seconds remaining, Harry Sweesy took a long heave from Pelfrey and the Maroons were on the Aces' 8.

Trailing 20-6 at the half, the Maroons came back strong. Bill Emmett went over from the four to whittle the score to 20-12. Lou Eastern's sixth fumble of the afternoon came about when fullback Ross Herron let the ball get utes later, scatback Russ Russo took a punt on his own 30 and ran it all the way back behind away from him on the Evansville 7. Joe Unfried recovered for the first round bye. Aces.

**Exciting Finish** 

Evansville tried a desperation pass on the last play of the game. Watson threw from his own goal line. Maroon frosh center Bill Adams intercepted the pitch on the property of the past week. Twenty table tennis hopefuls were entered in hopes of copping the title of "champ."

Each week a schedule of games to be played will be posted. The next time the Maroons got the ball, Billy Emmett notched Russo's feat by also romping 70 yards for a touchdown. Emmett carried on a quarterback sneak.
This time, Daniels split the uprights to give the Maroons a 2620 lead.

Aces Score First

Evansville scored its only touchdown in the opening minutes of play. Gene Logel went over from the one-yard line, climaxing a 93-yard march. Bill Russler convert-

Spearheaded by the slick ball handling of quarterback Billy Emmett and the hard-charging runs by Pelfrey and Harry Sweesy, Eastern completely outplayed the favored Aces in the second half. The smaller Maroon line pushed the heavier Evansville forward wall around throughout this battle.

The Maroons got a total of 20 first downs to Evansville's 15. In its powerful ground attack, Eastern gained 338 yards while holding the Aces to 766.

Welcome, Alumni . . . Welcome back to Eastern, the home grounds of the Maroons. Even though you are out in the world and very busy these days, keep on being a follower of "Big E."

Former Maroon gridder Joe Hollingsworth appears to be doing Very well in professional football with the Pittsburgh Steelers. Joe saw plenty of action last Saturday in a tough gam between the Pittsburgh club and the Washing-ton Redskins.

Another Eastern graduate, Rob-Another Eastern graduate, Robert Rankin is doing well in the football world. Rankin, a graduate of the class of 1949 who hails from Louisa, Ky., has coached Loris, S. He was a varsity gridder in 1936 and 1938 under Coach Rome Rankin. Reports have it that his team is a very strong contender for the class "A" title of all South Carolina.

Keep up the good work, Bob.

Many of the varsity footballers went on a shopping spree in Ev-ansville, Ind., last weekend. Many of those flashy new duds you se

them wearing were bought in the popular Hoosier town.

Incidentally, the playing field in that town was not so popular with the Maroon and White. Bosse Field is normally used as a baseball diamond and is very dusty for football with no sod.

Coach Paul McBrayer is hard at work these days preparing his cagers for the season opener here on Dec. 2 with Indiana Central. The following evening, Dec. 3, the Maroons are hosts to the highly touted Blue Devils of Beloit College from Beloit, Wisconsin. (That same evening, Indiana Central plays Kentucky in Lexington.) The new roller- type bleachers have arrived in Weaver Health

Building. The new stands will be installed in the near future.
