A WORTHY INVESTMENT

Next week a violent battle will surge across campus as Eastern students attack the forces of learning.

It is expected that certain maneuvers will be employed to conquer the foe—heavy drill periods, looting of exam supplies and chemical warfare (the use of benzedrine and its derivatives).

A more effective weapon is available which would abolish all exam hysteria. It is preparedness.

Today while we are reminded of exam period let's take inventory of our courses. With a little organization, term papers can be completed on time, ignored subjects can be brought up to date and a satisfactory study schedule can be plotted. Such planning will eliminate the frantic struggle of that last week of school, the week when all of us want to enjoy college life, not despise it.

One way to make this extended studying easier is to take an interest in it. Every year when exam schedules come out a mild murmur of disapproval is detected. But why this discontent with study when we came to college to learn? Exploring the knowledge of the world is a privilege. It should be a joy, for through our study we touch ideas and every idea shows us a slice of the world.

Learning has proved value. Many students here work hard to put themselves through school, and the visit of our mothers recently recalls their sacrifices for our education. Why don't we invest in our opportunity.

Perhaps we are reluctant to study too hard for fear of becoming "unbalanced individuals." It is true that social and avocational qualities should be developed along with our work. But we should remember that we came to college with a goal—to acquire skill and knowledge. The goal is worthy of perseverance, it will bring us success. We must take care that we don't throttle this ambition in our desire to be well rounded.

THANKS FROM EDITORS

With this, the last issue of the Progress for the 1952-53 school year, we feel we should take advantage of our final opportunity to express our thanks and appreciation to the students, faculty members, printers, advertisers, and the many others who have contributed in any way to the success of the Progress. Many of those doing much to promote the Progress are never given credit on the masthead, but they are the people who have worked conscientiously with a ceaseless desire to help better the paper without any special recognition except gratitude. To list all these people would require more space than is available, but may they know who they are and feel that their efforts have been sincerely appreciated.—(Clyde and Ruth)

Weddings

Edgerton—Long

The chapel at Wright-Patterson Air Force Base, Dayton, Ohio, was the setting for a double ring ceremony uniting Lt. Ruth O'Netz Edgerton and Major Clyde F. Long in marriage. The vows were heard by Chaplain D. H. Fredrick at 3:00 o'clock Saturday, May 2, 1953. Major Long received his A. B. degree from Eastern in the class of 1937. For the past three years he has been performing as a personnel officer of the USAF Institute of Technology at Wright-Patterson Air Force Base, Ohio. They will reside at 401 Archer Drive, Fairborn, Ohio after a wedding trip through the south.

Weather Training Deadline

Deadline for college graduates and second-semester seniors to apply for training as weather officers with the USAF Air Weather Service has been extended to June 1, 1953.

Requirements remain the same—a bachelor's degree and credit for one year of college physics and mathematics through integral calculus. Both men and women are eligible to apply.

Successful applicants will be commissioned as second lieutenants in the Air Force Reserve. In midsummer they will be ordered to duty for a 9 to 12-month course in meteorology at one of several well-known U. S. colleges and universities.

In addition to the weather training, the officers will attend a short basic officer training course before assignment to active duty in an Air Force weather station.

While attending the government-paid weather training, students will receive full pay and allowances of a second lieutenant. In the case of a married student, this amounts to about \$350 a month, for a single officer slightly less.

Application forms for a direct commission and weather training are available by writing to the Commanding General, Air Weather Service, Washington 25, D. C.

The program is administered by the USAF Institute of Technology.

ESC Track Team Downs Morehead Locals Remain Undeclared

Coach Fred Darling's Eastern cindermen retained their undefeated record by downing the Morehead Eagles, 69½-52½, in a night meet at Morehead Tuesday.

Gordon Fleck of Eastern was the chief individual pointmaker, scoring 10 points on first in the mile and half-mile runs.

Jim Hanlon won the low hurdles, placed in six events and participated in the mile relay which Eastern won.

Jack Bond of Eastern tied the 100 yard dash record of 10 seconds flat. However, he has run the 100 in less time—9.8—in a non-OVC meet.

The meet had been re-scheduled after rain prevented it last week.

1953 Maroon Baseball Team

Kincaid Summarizes Season; Looks Ahead To Next Year

The 1953 baseball season will soon come to a close and a hectic one it has been. Trying to figure out why the Maroons played great ball on some days and sandlot ball on other days I went to one of the men that should know. Anyone that took the time to read the sports page in the last addition of the Progress should know all about Greenie Kincaid, and his work with the baseball team. The following is a direct quote by him. (in fact he wrote it).

"At the start of spring practice this year I thought of having a really good season. We had more good pitchers than we knew what to do with. Even though we had only one regular infielder left from last year's team I thought the men we had would come through okay, and in my estimation to be playing regular the first time they did. I think I have some of the best freshmen players in the state in Roy Pelligrinon, Gary Harvey, Don Boyer, Ray McIntyre, Bob Brown and Allen Riger.

"What hurt us most, besides the weather, was the loss of three pitchers. I thought I would use them quite a bit but when Charley White, Hillard Conly and Bill Stewart were all declared ineligible, it really put a strain on the pitching staff. I think, though, the other pitchers came through okay. We lost several games on

mistakes that only experience is the cure for. But all ball players make mistakes, even the great ones. We had the best outfield in the conference in Roy Kidd, John Delaney and Nick Tsangeos and Bob Roby who really came through in the last few games.

"Our catching department held up in the important games and should be even better next year since Don Boyer and Tom McAllen will both be back.

We had a real hustling ball club that never quits as most of our followers will remember from some of our games, especially our two wins over U. K.

"The team is much better than I expected with Jim Odle, Roy Kidd, and Ron Finley showing the way in their department. Don Richardson and Ron Pelligrinon pitched great ball in every game and in my estimation, the two best pitchers in the conference.

"We still have a chance to win the O. V. C., but if we don't, I still think we've had a good season and I'm proud of every man on the team, a fine bunch of boys to work with. Watch this team next year with the experience the freshmen got this year and the confidence the rest gained, they'll tear their conference to pieces. John Delaney and Nick Tsangeos, two good men, are the only seniors on the squad. But the year's experience and return of the ineligible men should make up for this loss."

Time and seasons sure do fly... It seems like it was last week that Don Daly scored the winning touchdown against Toledo. But it's really been nine long months of athletic activities. A luckless Maroon football team overcame numerous bad breaks, both on and off the field, to have a fair season. Paul McBrayer's Great Senior Squad brought mild fame to Eastern by virtue of the O. V. C. Championship and a N. C. A. A. bid. Also in the so called minor sports;

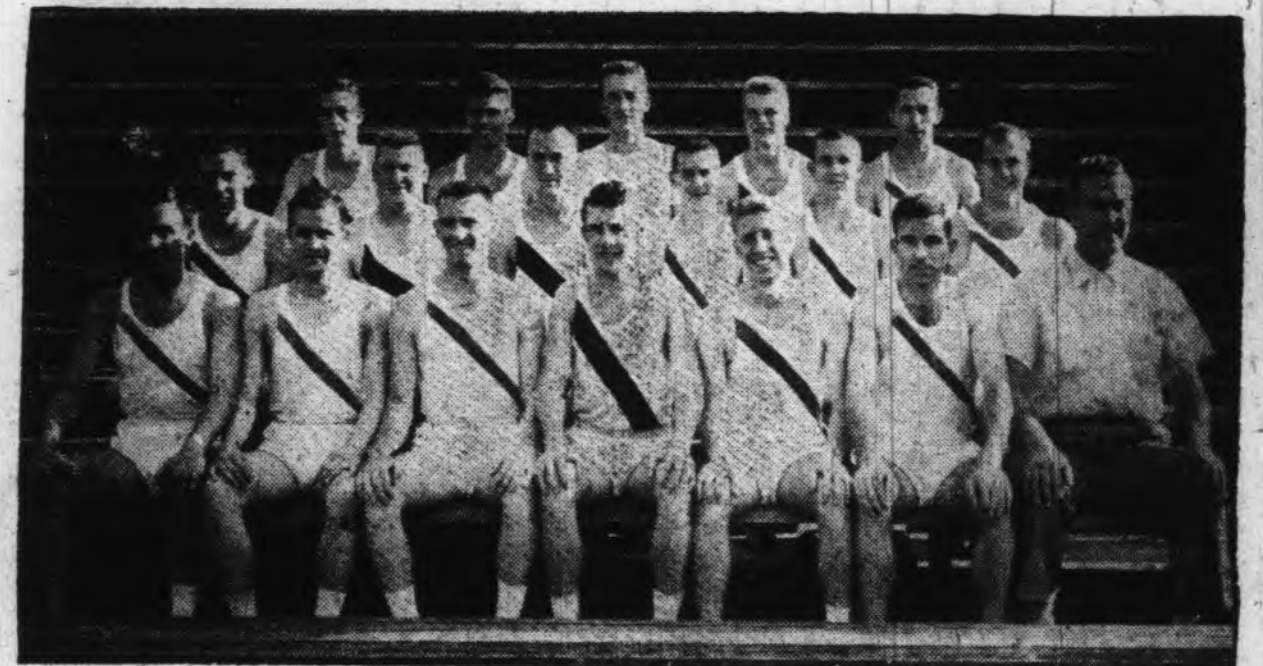

the swim team upset powerful T. P. I. and the University of Tenn.; the track team has yet to taste defeat; and Turkey's baseball team has two wins over the Big Boys from Lexington. It's been a long year at that...

THEY SAY...

That come next fall the Maroons will not only have the best team in the O. V. C. but the roughest. Watch for Uncle Tom's boys to set many a foe back on their heels, including the "Toppers" from Bowling Green. That's a game I'd miss only for the draft board.

Paul McBrayer will take nothing and make something. The big Irishman will use that McBrayer magic and floor another fairly well polished team. We often wonder what could a basketball genius like McBrayer do with half the talent that goes into U. K.? If I were in his shoes I'd take to the pipe the day after graduation.

The O. V. C. that no one seems to ever know about comes up this week end and it looks like Eastern will win more than their share of the honors. The tennis team, a big question all year, are odds on favorite to keep the doubles crown. Two years ago Fred Darling took another undefeated track team into the tourney and came out champs, and this year with a better team and more will to win they are sure to repeat.

Front row (left to right): Ralph Perry, Paul Smith, Ernest St. John, Clay Moore, Gordon Fleck, Glenn Morris and Darling. Second row: Stephen Massey, Tom Sammons, Walter Reis, Joe Osborne, Ronald Carmony and Bill Bradford. Third row: Denzill Elliott, Jim Hanlon, Jim Bingham, Don Daly and Ed Miracle. Jack Bond and Chuck Schmitt were absent when the picture was made.

A SMILE

By CLYDE WHITE

No one can say that I don't take my column seriously. I'm even taking a summer job as a traveling salesman of sorts just for the purpose of tracing the authenticity of all the farmer's daughter jokes. I probably won't make much money at it, but think of the fun I'll have.

Along about this time of the year I should thank all those kind souls who have often and humorously contributed to this orgy. Especially I would like to thank a couple of guys who write columns in other papers down South. Both are jokesters in the first degree. Also, I would like to thank all friends for telling me the unprintable jokes. I enjoyed them anyway. By the grace of God and Uncle Sam I'll be seeing you next fall.

And now, on with the doings. First we have the one about the old maid who was seeing her first vaudeville. She watched in amazement as a magician folded a handkerchief over a newspaper and then read the print. Then he doubled the handkerchief and again read the paper. The old maid quickly rose from her seat, and as she sailed down the aisle was heard to say, "And me with this calico dress on!"

A woman rushed in crying: "Doctor! Come quickly. My husband has swallowed a mouse!"

"Get back to him," said the doctor, "and try waving a piece of cheese in front of his mouth. I'll be there as soon as I can."

Five minutes later the doctor reached the house. A man was lying on a settee with his mouth wide open, while the hysterical woman was waving a big fish close to his mouth.

"You fool," he cried. "I told you cheese."

"I know that," she shrieked, "but I've got to get the cat out first!"

Two lawyers before a country justice got into a wrangle. At last one of the disputants losing control of his temper, exclaimed to his opponent: "Jim Rogers, you are the biggest jackass I ever set eyes on."

The justice pounded the desk and called loudly: "Order! You seem to forget that I am in the room!"

Customer with hangover: "Give me something for the shakes."

Bar tender: "What do you want?"

Sufferer: "Something tall, cold, and full of gin."

Nearby Drunk: "Sir, you are speaking of the woman I love!"

Mo: "How come don't take your girl to the movies anymore?"

Bo: "It was raining one night and we stayed home!"

Grandpappy: "Doc, you remember that vitality medicine you gave me last week?"

Doctor: "Yes. What about it?"
Grandpappy: "I accidentally dropped it in the well."

Doctor: "Goodness, man! You're not drinking the water, are you?"

Grandpappy: "Heck, no! We can't even get the pump handle down."

There's nothing like having a baby around to make a person realize that it's a changing world. By the way, did you hear about the man on the flying trapeze that caught his wife in the act?

Child's definition of women: "They're the ones who dance backwards."

The Brains of the Team

Teamwork can work miracles. In a football game the man who sparks these miracles is the quarterback. He's the man who calls the signals. There's a man who calls the signals for an Air Force flying team, too!

They call him an Aircraft Observer.

Do YOU have what it takes to become an Aircraft Observer?

It isn't easy. It's tough. You have to be a MAN to qualify as an Aircraft Observer. But when you are one, brother, you're SOMEBODY! The success or failure of a mission involving over a million dollars worth of flight equipment depends on you.

THE AIRCRAFT OBSERVER IS THE SOMEBODY WHO:

As *Bombardment Officer*, is number one man on a bombing run, the man who controls the plane in the target area!

As *Navigation Officer*, is the pilot's guiding hand on every flight!

As *Radar Officer*, is master of a new science and operator of the device that sees beyond human sight!

As *Aircraft Performance Engineer Officer*, is the one who "keeps the plane flying", the man who knows his plane in-

side and out, who keeps it fit for the skies and sees that it stays there!

If YOU can accept a challenge like this, you'll take your place beside the best—you'll find your future in the clouds!

TO BE QUALIFIED you must be single, a citizen, between 19 and 26½ years old, have had at least 2 years of college and be in tip top physical shape. If this describes you, then YOU, too, can qualify. Today!

Eastern Regents Hold Meeting

'53-'54 Budget Not Adopted

The quarterly meeting of the Board of Regents of Eastern State College was held on the campus Monday with only routine matters to be considered, since it was not possible at this time to adopt a budget for 1953-54. Action on the budget was deferred pending further information about the possible amount of money that will be available from the state appropriation after readjustments are made to meet the financial crisis in which the state finds itself.

A leave of absence was granted to Keith Brooks, teacher of speech, in order to permit him to do graduate work at Ohio State University during the next academic year. Leaves for the summer were given to Dean Gatwood, A. L. Whitt, William H. Hopp, and Miss Anna Gill who plan to do graduate work at Ohio State, Vanderbilt, Purdue, and Colorado State College of Education, respectively.

Dr. B. P. Pennebaker, head of the biology department of Tennessee Tech., was added to the faculty of the biology department for the summer session. Mrs. Helen Kiser Cosby, of Richmond, was also employed to teach classes in education during the summer session.

Building Inspected

The board inspected the new science building, which is now nearing completion, and heard a report that the building would be available for occupancy about June 1. One third of the building is already being used.

The board approved settlement of the college's claim against an insurance company in connection with the disintegration of one of the boilers of the heating plant last winter. The company agreed to pay \$8,875 in settlement of damages caused by the failure of 258 tubes in the boiler.

The board also expressed appreciation and approval of the audit made recently under the direction of state auditor T. Herbert Tinsley.

Ernest Johnson of the architectural firm of Brock and Johnson submitted figures on the estimated cost of the proposed new dormitory to house 176 men. The estimated cost of the structure, which is to be located near the present dormitories for men, is \$465,000. The president was directed to make application for a loan of an additional \$130,000 from the Federal Housing and Home Finance Agency. The agency had previously earmarked \$320,000 for the project. However, the board indicated a desire to explore the possibility of borrowing the entire amount through the issuance of bonds to be sold to the public. The matter will be further considered when the board meets again May 27.

The following were present for the meeting: W. E. Blackburn, Pikeville; A. C. Jones, Harlan, and Cecil C. Sanders, Lancaster, regents; Miss Lois Colley, secretary, and Dr. W. F. O'Donnell, president of Eastern.

ESC Students Hear Dr. Green Calls South 'New Frontier'

Calling the South the "new frontier in America," Dr. Fletcher M. Green, professor of history at the University of North Carolina, said the South is the land of hope and promise and the land of the future, in an address before the students and faculty of Eastern, May 6.

Dr. Green, long-time leader in southern educational and historical groups, called attention to the bitter sectionalism leading to the Civil War and the long struggle of the South to regain its strength and declared that the gap which separated the North and South has been closed because of the more rapid advance of the southern states.

"No region of the nation has made the progress educationally, culturally, and economically in the last 20 years as has the South," he added.

Remaining In South

He said that until the last few years large numbers of the best trained and most capable men and women of the South left for the greater opportunities to be found in the North but recently the young people of the southern region are remaining because of the greater opportunities to be found in their home communities.

The speaker stated that the new sectionalism which arose a few years ago as manifested in resentment toward the Civil Rights program of the national government, the formation of southern associations, the increase of magazines for the South, books about the South by southern writers, even the emphasis on "rebel" caps and flags, was all a part of rebellion against outside interference and criticism and also a trend to follow conservative political leaders of the South. This felling, he continued, has died down to a large degree since the change in the national administration.

Dr. Green was introduced by Dr. Horace W. Raper, member of the Eastern history faculty who did his graduate work at the University of North Carolina. President W. F. O'Donnell presided. Special music preceding the address was presented by the Eastern woodwind quintet composed of college music students.

Eastern Graduates To Hear Dr. Love

(Continued From Page One) music by the college choir and Miss Brown E. Telford, organist.

The invocation will be given by Dr. W. H. Moore, pastor of the First Methodist Church, followed by the singing of "Praise Ye the Lord," from "Merry Mount," Hansen, by the choir, assisted by pianists Miss Peggy Chandler, Louisville, and Miss Freeda Waggoner, New Albany, Ind.

After the scripture reading by Dr. E. N. Perry, pastor of the First Baptist Church, the traditional baccalaureate hymn, "Dear Lord and Father of Mankind" will be sung by the choir and audience. Before Dr. Love's address the choir will sing "By the Waters of Babylon," Coleridge-Taylor, and after the address "Beautiful Saviour" arr. by Christiansen.

THE CAT'S MEOW!

Well, this is it for this year. Here's hoping I didn't make very many of you mad at me this year and if I did, "I apologize" to all of you. Things look like they've finally cleared up a little bit around here and maybe we'll have some time to go to the beach during exam week. Things look like they picked up a little lately but it's almost a little late for that now.

It seems Bob Garrett has been seeing a little of Phyllis Rollins lately. I wonder what Alma thinks of that. . . Mike Deep seems to be one of the latecomers too. He seems to have spent some of his time lately with a certain little dark haired girl. . . Virgil Cook and Juanita Thompson are seen together some lately. This is a repeat performance, isn't it? . . . Did you see Beverly White's picture in the paper not long ago. The caption said she is to become Mrs. pretty soon. . . That attached male Jean Howard was seen with turned out to be a friend, just a friend, that's all. . . Betty White seems to be having a hard time choosing between Ben and Joe. It's about time she was making up her mind, don't you think? . . . The one act plays turned out fine. Jimmy Burch's was really on the beam. . . Speaking of Mr. Burch, I think I saw him with Charlene Meeks the other night. . . Hey, Bob, are you slipping? I saw Billie Davis with Ernie Durham at the Kyma Club picnic. . . Ernie and Chester Easterling really liked the food at the picnic, too. But they didn't eat it. . . Mike Margaritis and June Peterman really seem to enjoy each other's company. . . Charlene Babb hasn't worried for dates between Don Myers and Gary. . . Eddie McNabb and Norma Gschwind don't have a thing to worry about. They both live in northern Kentucky and can see each other this summer. . . Speck's seems to be a favorite place of Wade Brock and June Ash. . . Who is the little blonde that we have seen with Al Dougherty often of late. Things look pretty serious here. . . Janet Grant and her Bill still seem to be hitting things off o. k. . . Janet Campbell can't seem to make up her mind about Karl Jones and Charles Hughes, can she? . . . Looks like one Somerset girl has replaced another in Tommy Robert's affection. Cynthia Jones in the new one. . . Angilina Peters has been very happy lately or at least it looks that way when she's with Grant Bales. . . Shirley Carson and Charlie Gibson still seem to be having a hard time. She's dating Eagle Doty and Jim Cox. . . There is never anything to worry about with Dottie Brannam and Gene Saylor. Things are always peaches and cream. . . Jeanette Bunch is another gal who is taking the fatal step soon. . . Have you seen Kay Wilson's ring? It's a beaut! . . . Bill Bradford doesn't seem to mind the long walk to Stateland. Maybe Ann Lowery has something to do with that. . . Charlie and Toby are making a habit of things lately. . . It looks like even rain can't dampen the spirit of the Kyma and swimming clubs. Rain or no rain they went on their picnics on the days planned for them. . . How do you like Ed Patrick's hair. He really looks like a strawberry blonde, doesn't he? . . . Faye Roundtree had to leave school early and go on a vacation to North Carolina. Must be nice! . . . Guess that's it for the last time. Guess "The Cat" will be seeing you even this summer when you're not expecting it so you had better watch out for me. Have a good time this

summer and hurry back to Eastern next fall. Meow!
