THE EASTERN PROGRESS

Eastern Kentucky State Teachers College and Normal School

VOLUME V.

RICHMOND, KY., FRIDAY, JULY 20, 1928

Number 22

Registration For Eastern's Second Term Reaches 646

Enrollment In College Department is Five Less than Last Year; Normal School Number Is Same

WORK COMPLETED IN DAY

The total enrollment for the second summer term of the Eastern Kentucky State Teachers College and Normal School, which will close Friday (today) thus far is 646 students, it was announced Thursday by M. E. Mattox, registrar.

So far the enrollment is five less than it was during the second summer term last year, but last year's enrollment is expected to be reached and possibly passed before the registration closes. This year there are 142 students in the normal school department and 504 students in the college department.

During the second summer term of the 1927 session there were 509 students in the college department and 142 students in the normal school.

Practically all of the students here for the second summer term were enrolled the opening day, last Monday, it was announced by Dr. Homer E. Cooper, dean of the Teachers College. Dr. Cooper stated that this was made possible by the use of a new system of enrollment.

By the major portion of the enrolling being done the first day, the officials were able to start classes the period after chapel of the second day of the term. Wednesday was the last day that a student, who wishes to carry a full load, might register. Today is the last day that a student may register at all for the second summer term.

The second summer term for the normal school started a week earlier than the college, since that department's first term was only five weeks in length, due to the fact that classes were held on Saturday. The first term in the college was six weeks in length with no classes on Saturday. During the second term in both college and normal departments classes will be held on Saturday.

This year the normal school will close one week earlier than the college. The date is Friday, August 10. The examinations in the normal school will close Friday, August 10. The last examinations in the college for the summer will be held at 11:10 a. m. Friday, August 17.

All of the amusement and entertainment features which were held during the first summer term, except the Friday night rhythmic games and dances, will be continued. The Exchange Club boys band of Richmond will give weekly concerts, officials have announced.

Keith To Write Life Of John Crittenden

Research Work Will Be Done During Second Summer Term in Library of Congress by Eastern Faculty Member

WORK TO BE COMPLETED

Charles A. Keith, head of the history department of the Eastern Kentucky State Teachers College, will be in Washington, D. C., during the second summer term of five weeks gathering material in the Library of Congress on the life of John J. Crittenden, which will be the subject of his thesis for his doctor's degree.

Last year, while on leave of absence, Mr. Keith completed his work for his Ph.D. degree in history at Indiana University, and will receive the degree upon submission of his dissertation.

Most famous among the accomplishments of Crittenden, a noted Kentucky statesman, is the writing of the Crit-

(Continued on Page Four)

SCIENCE DEPARTMENT OF EASTERN IS NOW DIVIDED

What is considered one of the most forward steps taken recently at the Eastern State Teachers College is the division of the department of science, which will be completed by the opening of the fall semester.

Instead of one department of science Eastern now has four departments. They are biology, chemistry, physics, and the combined department of geography and geology. Dr. H. L. Donovan, president of Eastern, explained that the division was made to keep pace with the forward trend in the colleges.

Eastern combined the departments when it was a small college, but the division became necessary with its development. The division is expected to assist in meeting the requirements for admission to the Southern Association of Colleges to which Eastern expects to become a member. More effective work also may be done in this way, officials say.

Dr. D. W. Rumbold, a new instructor from Duke University, will be in the biology department. Another addition to the faculty, Dr. Vernon Albers, of the University of Illinois, will teach physics. Miss Mary Frances McKinney and Dr. Kinnemar will teach geography and geology, and Meredith Cox chemistry.

Physics Instructor Is Added to Faculty

Dr. Vernon M. Albers, Who Obtained His Advanced Degree At University of Illinois is Latest Addition

NEW DEPARTMENT OPENED

To the Eastern Kentucky State Teachers College's department of physics, just created this year by the board of regents, who divided the department of science, will come Dr. Vernon M. Albers, of Richville, Minn.

During the past June commencement Dr. Albers received his Ph. D. degree in physics from the University of Illinois. He has been recommended to the officials of Eastern as a thorough and capable teacher and will come here in the fall to take up his work.

Dr. Albers from 1923 to 1927 was a half time assistant on the faculty of the University of Illinois. During 1927 he was a full time assistant at the University of Illinois. He also has had other teacher experience.

The new physics teacher is only 26 years of age. He was graduated from Carleton College with the degree of Bachelor of Arts and then attended the University of Illinois where he obtained a Master of Arts degree and last June the degree of Doctor of Philosophy.

During his time in the University of Illinois and Carleton College he did his major work in physics and also did extensive study in the fields of mathematics and theoretical physics.

Dr. Albers has done much research work at the University of Illinois. He is skillful in laboratory arts and did experimental work on the arc spectra of beryllium. This work was done in preparation for the writing of his thesis for his doctor's degree.

Numerous instructors and officials of the University of Illinois recommended him to the Eastern officers. They described him as a man of the highest character and reliable in every way. A professor of physics at the University of Illinois said that Dr. Albers excels as an experimenter, having ready and original ideas and being a skillful technician.

In the division of the department of science of Eastern this year, four new departments were created, those of physics, chemistry, biology, geography and geology. Eastern officials say that the aim of the institution is to strengthen each department as much as possible. They feel that Dr. Albers will add much to the physics department.

President Coates Memorial Service Set For July 29th

Prominent Educators of Kentucky Will Gather Here to do Homage to the Late Executive of Eastern

LIFE TO BE DESCRIBED

A memorial service for the late Thomas Jackson Coates, who died last winter after more than ten years of faithful service as president of the Eastern Kentucky State Teachers College and Normal School, will be held Sunday afternoon, July 29, at 3:30 o'clock on the Eastern campus.

Among those who will join in the service will be prominent educators of Kentucky who were associated with Mr. Coates in his work as head of the college. The program for the service has just been announced from the executive offices of the teachers college.

W. C. Bell, state superintendent of public instruction of Kentucky, will preside at the meeting, which will be opened with music. Various prominent persons who were associated with Mr. Coates in some walk of life will deliver memorial addresses.

H. H. Brock, of Harlan, member of Eastern's board of regents and a state senator, will be the first, speaking about Mr. Coates as "The President." Dr. H. H. Cherry, president of the Western State Teachers College, of Bowling Green, sister institution of the one to which Mr. Coates devoted a great part of his life, will speak of Mr. Coates as "The Educator."

Prof. R. A. Edwards, superintendent of the training school at Eastern, will have "The Colleague" as his subject. Following his address will be a harp solo, "Elegie," by Hasselman, played by Miss Brown E. Telford.

"The Teacher" will be the subject of Miss Mattie Dalton, superintendent of the schools of Fayette county. Dr. Rainey T. Wells, president of the Murray State Teachers College and Normal School, will have "The Citizen" as his memorial subject. John C. Cardwell, of Louisville, for many years a close friend of Mr. Coates, will speak about "The Friend." Closing the addresses will be Dr. R. L. Telford, pastor of the First Presbyterian church of Richmond, of which Mr. Coates was a member and officer. His subject will be "The Man." The service will close with music.

Embodied in the printed program is Mr. Coates' famous definition of a rural school, which has caused comment thru the nation. It is as follows:

THE RURAL SCHOOL

"In the mind of the average person a rural school is a little house on a little ground, with a little equipment, and a little attendance from a little district where a little teacher teaches little children little things in a little way. . . . The problem of improving the school is to write 'larger' where the word 'little' occurs."

Also on the program is a poem about Mr. Coates, written by William L. Keene, member of the English staff of the Teachers College. It is as follows:

WHITE SILENCE

The night he died—white silence shrouded deep
The little world he loved. The campus ground
Lay dim with brooding trees, close guarded round
With somber shadowed buildings still as sleep.
Snowflakes whirling soft as whispered breath
Enfolded all the earth; no other sound
Disturbed the quietness. In grief profound
His little world its vigil kept with death.
And there were memories—old dreams of how

SCHOLARSHIPS TO BE FOSTERED AT EASTERN

Five members of the staff of Eastern have been appointed to membership on the student loan, scholarship and fellowship committee by Dr. H. L. Donovan, president, and immediately will take up the work of directing efforts for the increase of such funds at Eastern.

Members of the committee are Miss Anna Schnieb, G. Marshall Brock, Miss Marie L. Roberts, Charles A. Keith and Thomas McDonough. Dr. Donovan said that the institution was looking forward to a material increase of such funds under their direction.

The board of regents recently provided for the organization of such a committee in order that persons of wealth might become interested in establishing scholarships, fellowships and memorial loans at Eastern. The committee not only will solicit the funds with the aid of others but will direct the disposition of such funds.

The money from the funds received will be used to assist worthy students of small means in the college. Small sums are often needed to assist students of limited means who have high scholastic records. This work will be given more attention at Eastern than ever before.

Peabody Graduate Is New Critic Teacher

Miss Elizabeth Wilson, a Teacher of Wide Experience, Will Join Staff of Training School in September

RECOMMENDATIONS HIGH

Miss Elizabeth Wilson, a native of Boon's Hill, Tenn., has been employed as a critic teacher in the training school of the Eastern Kentucky State Teachers College and Normal School and will begin her work here at the opening of the regular collegiate year in September.

At the June commencement Miss Wilson obtained her master's degree from George Peabody College, Nashville, Tenn. She was graduated from that college with a Bachelor of Science degree in 1923. She first attended Martin College, Pulaski, Tenn., and was a member of the diploma class there.

Miss Wilson is a teacher of wide experience. She first taught in a rural school at Fayetteville, Tenn., in 1916, and later in 1919. In 1923 to 1926 Miss Wilson was a critic teacher of the second and third grades at East Texas Teachers College at Commerce, Texas.

Later in 1926-27 Miss Wilson was a critic teacher of the third grade at the North Texas State Teachers College, located at Denton, Texas. At George Peabody College she took many classes in education and is prepared to teach theory and practice of teaching and elementary education. She is a member of the Presbyterian church.

Dr. H. L. Donovan, president of Eastern, as professor of elementary education at Peabody College, had Miss Wilson in one of his classes. He said of her: "Miss Wilson has been in my classes during the present school year. She is one of the best students I have had since coming to Peabody. Miss Wilson is a woman of mature scholarship and fine professional training. She has had rich experience in public schools and in a training school of a teachers college. She is thoroughly prepared to do critic teaching, supervision, or teach classes in elementary education in a normal school or teachers college. I am pleased to recommend her for any one of these positions. She has my unqualified endorsement."

He walked these silent paths late hours of night,
One arm behind his back, the weary care
Of endless toil a fever on his brow—
Heroic, tragic, lonely in the light,
The pale cold moonlight on his silver hair.

—William L. Keene.

Dr. Hoy Completes Research Work While at Eastern

South Carolina Man, Member of Summer Staff, Starts Further Work in Field of Biology

IS PRINCETON GRADUATE

Notable research work in the field of biology has been done by Dr. W. E. Hoy, of Clinton, South Carolina, who this summer is a member of the staff at the Eastern State Teachers College. Dr. Hoy with his brother-in-law, Dr. W. C. George, of the University of North Carolina, has just completed a study of the somatic chromosomes of the opossum.

The result of their work will be published soon, probably in the Journal Morphology, directed by the Wistar Institute of Philadelphia.

This work was finished while Dr. Hoy was teaching the first term and he started immediately to investigate the possibility of daily rhythm in the cell division of animals.

The first work in the study of the somatic chromosomes of the opossum was made because of the belief that such were the carriers of hereditary factors, and to note the behavior of these chromosomes in mammals. It has been observed in insects and the tendency in genetics is to find out how it applies to mammals.

The study of the possibility in a daily rhythm of cell division is related to the work just completed. It was prompted by the difficulty of obtaining material for the first study. Tadpoles are being put up hourly by Dr. Hoy. In order that any effect might not be due to experimental conditions, the experiments are being made in dark and light, under various degrees of temperature and in large and small aquariums. Such a daily rhythm in cell division already has been established in plants.

Dr. Hoy is a graduate of Franklin and Marshall College, of Pennsylvania. He then attended Princeton for four years, where he obtained his doctor's degree. His fields are genetics and entomology at Eastern during the second summer term.

Dr. Hoy is a member of the faculty of the Presbyterian College of South Carolina and he will return there in the fall.

Good Teaching Is Subject of Donovan

"The Characteristics of Good Teaching" was the subject of Dr. H. L. Donovan, president of the Eastern State Teachers College and Normal School, in an address before the teaching of Madison county assembled in Richmond Wednesday morning.

The invitation to Dr. Donovan to speak was made by Miss Leila Jane Harris, superintendent of the Madison county schools. Practically all of the teachers of Madison county were assembled to hear Dr. Donovan.

Dr. Donovan urged that the teachers have their instruction related to experience. He stressed the value of one aim for goal to which the teachers should be constantly striving. A motive must be supplied the pupil by the teachers, Dr. Donovan urged.

One of the greatest assets that a student may have is initiative, which should be encouraged by the teacher at every possible time, the president said. He cautioned the teachers to watch for the individual differences of the students and keep such in mind in working out the conduct of the school.

Students also should be urged to recognize relative values and whatever practice is given them in such judgment will be greatly helpful in after life, Dr. Donovan told the teachers. Application of the lessons also was discussed as a valuable characteristic of the teacher.

Objectives of Health Education
 By Mary E. Blackeroy

The world war gave a new impetus to health work and to teaching health in the schools, not only in the United States, but all over Europe as well. Health leagues and clubs have been formed generally among the pupils in schools. The Junior Red Cross, Scouts, and similar organizations have grown rapidly in membership and influence. Health codes for children have been formulated and enforced by the young people. Health clinics have been organized and supported. "Better Health Weeks" have been organized and observed. The school nurse and health and development work have been added to a large number of school systems. Excellent health readers have been prepared for use by the school children, while courses in health training have been added to nearly all schools.

It cannot be doubted for an instant that a child, who grows up with a health consciousness which has been wisely cultivated throughout his school life, will be a higher and better citizen. Neighborhood and community sanitation and hygiene offer one of the finest sources for work in community citizenship for older children. Community health is a phase of hygiene which has received little attention in the past and almost none so far in the schools.

Health is essentially a function of school education of specific and well known practices related to nutrition, exercise, sleep, rest, recreation, cleanliness, and these in turn are dependent on adequate knowledge of healthful living. The development of habits, and knowledge that will control the behavior of the child is the purpose of the school and the function of education.

Perhaps the greatest objective in health education has been school feeding. This movement originated in France, but was developed more widely in England. In the United States the movement was inaugurated in New York City in 1908 in two schools. The work was promoted by voluntary societies until 1920 at which time the board of education assumed all the responsibility for the work.

With the coming of the twentieth century came also the age of preventive hygiene. Slowly but surely we are coming to realize the most economic way to meet problems presented by needless illness and premature death is to remove their causes by preventive measures. More and more this idea of preventing rather than waiting to cure is gradually seeping into society. Its influence is noticeable in the movement for health supervision of school children and pre-school children, in the spread of baby welfare stations and clinics in large cities, in the health lesson the teachers are actually teaching their children, and in the anti-tuberculosis and anti-diphtheria campaigns throughout the state.

Organized play and games have also been added to our health program. Dr. Dressler says: "Any sympathetic young man with good sense and ability to handle boys can break up a 'city gang' in a week if you will give him a chance at these boys with a real play ground."

Health education is taking in the country school as well as the city school. It is dealing with the problems of rural teachers in teaching health and hygiene, dealing with the location, construction, and lighting of the classrooms, convenient and sanitary water supply for the school buildings, and ventilation of the country school. These are problems much harder to solve than in the city, but the boards of health are making much progress.

"Open Air Schools" originated in the movement to provide during vacation for the tuberculosis and scrofulous

children. These schools were at first vacation camps or forest schools, where the chief emphasis was placed on the improvement of the health of the children. Gradually some instruction other than this was evident for under such conditions sluggish children exhibited marked improvement. This movement is just beginning to take hold of the people and now there is scarcely a day in which calls from some part of the country do not come asking information concerning open air schools.

One of the most rapid developments of the public health program has been that of public health nursing. With the development of medical inspectors appeared the need of follow-up work in the school. In 1908 Miss Lillian Wald, of New York, persuaded the city commissioner of health to make an experiment in school nursing. The success of the enterprise was such that a nurse was soon appointed and the development from then on was very rapid.

No where in this country up until a few years ago had adequate medical inspection of school children been made. Health supervision includes a complete medical examination made once a year. In addition to the annual examination, medical supervision includes special examinations when necessary, especially if the community is threatened with an epidemic.

The instruction of parents in the knowledge of healthful living is also a recent health movement. The schools are providing public conferences, lectures and baby clinics. The object of these activities is to inform the public and especially the parent of what the school is attempting and to obtain their co-operation in developing health practices. Since the work of the school is largely vitiated by the failure of the parents to understand its efforts and co-operate with it, it becomes a matter of economy and good sense to educate the parents as well as the children. This is the only effective way to insure community health practices.

New Cold Check Rules Announced

In order to co-operate with the Richmond banks who have placed a service charge of 50 cents on any cold check handled by them, it has been announced from the business office of Eastern that the service charge will be collected by that office on any cold checks given by students to the business office.

It also was announced that any person giving a worthless check to the business office would disqualify himself or herself from obtaining any other check cashed there unless it is proved to the business office employees that there is money in the bank to meet the check.

G. M. Brock, business agent, announced that the business office would cash checks for students if the amount of the checks does not exceed \$10.00. Once the business office cashes a cold check, not only will 50 cents be charged the one giving it, but that person may not cash another check at the business office until he has reinstated himself with the office force.

The Richmond banks charge 50 cents each for handling any cold check and any handled at one of the banks after it has been given at Eastern will be charged with 50 cents. The institution is merely charging 50 cents because it must put up that amount for each check handled by one of the banks.

Friday Night Games to be Discontinued

Announcement has been made from the executive offices at Eastern that the rhythmic games, held every Friday night during the regular collegiate year and the first summer term, will be discontinued during the second summer term.

Discontinuance of the games is due to the fact that classes will be held every Saturday during the second summer term in the college department. Classes also will meet each day in the week in the normal school.

It is the belief of officials that the weekly games will interfere with the study during the second summer term, which is only five weeks in length. Other features of the first summer term's social program will continue as before with some additions.

Reading List For Students Published

To the students in the class of Prof. R. A. Edwards, superintendent of Eastern Kentucky State Teachers College's training school, have been given a list of books of recent publication, which he has advised his students to read in order to increase their general fund of information and amount of culture.

Mr. Edwards, describing the list of books, said it is a "list of 40 non-fiction books of recent publication, widely read by the enlightened public, reflecting the realistic spirit of the present generation, and written for the most part in elegant literary style."

The books are just as readable and entertaining as fiction and at the same time have a wealth of knowledge of a text book. The list of books follows:

The Story of Philosophy, Will Durant; The Mind in the Making, James Harvey Robinson; Why We Behave Like Human Beings, George A. Dorsey; This Believing World, Lewis Browne; The Revolt of Modern Youth, Lindsey and Evans; Why Men Fight, Bertrand Russell; Public Opinion, Walter Lippman; A Modern Book of Criticism, Ludwig Lekisohn; Human Nature in Politics, Graham Wallas; Your Money's Worth, Chase and Schlink.

The Great American Bandwagon, Charles Merz; America Comes of Age, Andre Siegfried; The Melting Pot Mistake, Henry P. Fairchild; The Glorious Adventure, Richard Halliburton; On the Trail of Ancient Man, Roy Chapman Andrews; The Advancing South, Edwin Mims; The New Universe, Baker Brownell; The Next Age of Man, Albert Edward Wiggam; Mind and Heredity, Vernon L. Kellogg; The Modern Use of the Bible, Harry Emerson Fosdick.

Jesus and Our Generation, Charles W. Gilkey; Microbe Hunters, Paul de Kruif; Benjamin Franklin, the First Civilized American, Phillips Russell; Napoleon, Emil Ludwig; Disraeli, Andre Maurcis; George Washington, the Image and the Man, W. E. Woodward; George Washington, the Human Being and the Hero, Rupert Hughes; Jefferson and Hamilton, Claude G. Bowers; John Paul Jones, Man of Action, Phil-

THE WEEK IN BRIEF
 Friday, July 20: Chapel address, 9:30 a. m., "The Significance of Surnames," by Dr. Hugh McLellan, pastor of the First Christian church of Winchester.
 Saturday, July 21—Showing of the historical motion picture, "Vincennes," at 7:00 p. m. in the gymnasium.
 Monday, July 23: Chapel address, 9:30 a. m., "Partnership," by P. H. Callahan, Louisville manufacturer and nationally known Democrat.
 Showing of the popular movie, "Hold That Lion," starring Douglas McLean, at 7 o'clock in the gymnasium.
 Thursday, July 26: Concert in open air auditorium, 6:30 to 7:30 p. m. by Richmond Exchange Club boys band.
 Friday, July 27: Chapel address, 9:30 a. m., "Introducing a Study," by Dr. Hugh McLellan.

Oh horse you are a wondrous thing!
 No horn to honk, no bells to ring,
 No license buying every year,
 No plates to screw on front and rear.

No spark to miss, no gears to strip,
 You start yourself, no clutch to slip,
 No gas bills mounting every day
 To steal the joy of life away;
 Your inner tubes are all O. K.,
 And, thank the Lord, they stay that way.

Your spark plugs never miss or fuss,
 Your motor never makes us cuss,
 Your frame is good for many a mile,
 Your body never changes style,
 Your wants are few and easily met,
 You've something on the auto yet.

CHAPEL ANNOUNCEMENTS
 Free inoculation against typhoid fever will be given all students who request such treatment. The nurse's office in Sullivan Hall will be open from 7 a. m. to 8 p. m. every Wednesday and from 7 a. m. to 1 p. m. every Saturday for the purpose of giving the inoculations.
 All screens have been placed in the cafeteria and the place is adequate to meet every condition.
 Chapel will be held every morning during the second summer term, and announcement will be made when it will not be held instead of when there will be chapel. Many well known speakers will be heard at chapel, which begins each morning at 9:30 o'clock and lasts until 10 o'clock.
 Students are asked to co-operate with officials of Eastern in keeping the campus beautiful and are asked to refrain from throwing paper and trash on the drives and grass.

PERSONALS

Miss Gladys Carson, of Nicholasville, who was in school here last semester, was a visitor on the campus during the first of the week.

Miss Edith Ransdell was in Campbellsburg during the week end.

Miss Mildred White and Ruby Castle spent last week end at their respective homes in Ashland.

Miss Mae Florence Jacobs will spend this week end in Nicholasville.

Miss Mary Gaines is spending this week end at her home but will return for the second summer term.

Miss Stephenia Brumfield, of Nicholasville, spent one day this week with friends on the campus.

Miss Nola Waatts spent the week end at her home in Waddy.

Miss Virginia McCoy was with her parents in Frankfort this week end.

Miss Beulah Lykin was at her home in Maysville during last week end.

Miss Ruth Herndon was the guest of Miss Mary Lebus last week.

Mrs. Carrie Lee Davis was with relatives in Danville.

Miss Mary Ann Semones was the guest of Miss Ava Howard, Patterson Hall, Lexington, during a part of the week.

Mrs. Emma Baker Ross was a visitor of friends at Eastern during the past week. Mrs. Ross graduated from Eastern last year and has been in Columbia University during this year.

Miss Golde Lancaster was in Georgetown last week end.

Miss Opal Shroul spent the week end at her home in Bethel.

Mr. Everett Hall, of Georgetown, was the guest of friends at Eastern last week end.

Mr. and Mrs. William Stevens motored to Lawrenceburg for the week-end visit to Mrs. Tom Carter. Mrs. Stevens and little son will remain for a week's visit.

Miss Lorraine Harris was in Bethel on a business trip last week.

Mrs. Bessie Ballenger returned Monday from her home in Bethel. She was accompanied by Miss Margaret Copps and Miss Lucille Hickey, who will be in school here this semester.

Louise Barnett, Thelma Moreland, and Ronald Connelly motored to Harrodsburg Sunday to spend the day with Miss Moreland's parents, Mr. and Mrs. Moreland.

Mr. R. T. Jacobs, of Cynthiana, returned Monday to complete his work for a degree this semester.

Miss Frankie DeBoe has as her week end guest Miss Ruth Odway, of Maysville, Ky.

Misses Stella Ward and Virginia Routt, former presidents of Y. W. C. A., are enrolled at Eastern again.

Marguerite Ault, Nellie Earl and Fred Ballou will be Thursday evening dinner guests of Mrs. J. S. Cobb in Nicholasville.

Miss Connie Lowe was the week end guest of Miss Maye Waltz at her home on the Lexington-Versailles road.

Martin Jasper and Lee Webb were in Science Hill for the term end.

W. A. Ault and son, James, were in Ashland last week.

Miss Margaret Ault spent the term end in Nicholasville.

Miss Nellie Earl visited her sister, Mrs. J. S. Cole, in Nicholasville, last week end.

Miss Lucy Belle Arnold has as her guest for the week end Mr. Ernest Skaggs, of University of Kentucky. Mr. Skaggs was formerly in school at Eastern.

Miss Emma Cord had a delightful visit to her home in Maysville during the term end.

THE LAYING OF GAS LINE THROUGH CAMPUS BEGUN

A crew of approximately 35 workmen Tuesday began digging in preparation for laying the natural gas pipe line through the campus. The excavation was practically complete Wednesday and the work of laying the pipe will be rushed to completion.

A four-inch pipe will be laid through the campus and Eastern will start receiving natural gas at the same time as Richmond. The gas only will be used on the campus where the artificial gas is now used.

The pipe will be run from Lancaster avenue across the campus near the driveway through the camps and will connect with the city pipes again at College street. The work was started near Lancaster avenue.

New Catalog Goes To Press Friday

The catalog of the Eastern Kentucky State Teachers College and Normal School for the collegiate year of 1928 and 1929 and the summer session of 1929 will go to the printers next Friday, it was announced from the business office.

A promise of prompt printing has been made to Eastern officials, who believe that the entire catalog will be ready for distribution within two weeks at least. The various heads of departments and executive heads of the institution have been at work on the catalog for several weeks.

This summer the catalog is being printed earlier than usual in order that it may reach more prospective students than ever before and in order that such students may be able to have a fuller use of it.

The catalogs, containing complete information regarding next year, will be distributed from the business office. Any students who wish to have catalogs sent to them or others, may leave such addresses at the business office in order that prompt mailing may be assured.

CONCERTS TO BE GIVEN EACH THURSDAY NIGHT

The Exchange Club boys band of Richmond will give weekly concerts on the campus of Eastern State Teachers College throughout the second summer term, it was announced yesterday by the business office.

Two concerts were rendered on the campus during the first summer term by the Exchange boys band, and attracted large audiences. Officials felt that the concerts were so popular that they would continue them weekly during the second summer term.

Three years ago the Exchange Club boys band was organized in Richmond and since that time has developed into a capable musical organization. John Orr Stewart, head of the music department of Eastern, assisted in the organization of the band as a member of the Exchange Club.

Concerts will be held on the Eastern campus each Thursday night from 6:30 o'clock to 7:30 o'clock during the entire five weeks. If weather permits, the concerts will be held in the open air auditorium, otherwise in the gymnasium.

GOOD MOVIES COMING DURING SECOND TERM

Four excellent moving pictures will be shown at Eastern during the remainder of the summer term. The popular movies are shown each Monday night in the gymnasium, beginning at 7 o'clock. Last Monday the film "Sensation Seekers," was shown and was well received.

"Hold That Lion," starring Douglas McLean, will be shown next Monday night, July 23, in the gymnasium. It is a comedy and considered one of the best made by that popular comedian of the silver screen. It is well worth seeing, all critics agree, if the movie goer is seeking a night of laughter.

The film showings the remainder of the term are Monday, July 30, "Convoy," with Dorothy Mackall and Lowell Sherman; Monday, August 6, "Flaming Frontier," with Hoot Gibson; Monday, August 13, "Sunset Derby," with Mary Astor and William Collier.

College Is Topic Of Dr. H. E. Cooper

At the first chapel exercise of the second summer term Tuesday morning a short talk was made by Dr. Homer E. Cooper, dean of the Eastern State Teachers College, who gave advice to the new students.

Dr. Cooper called attention to the fact that if classes are to be dropped, the action must be by official order or the student so dropping a class will lose all credit for the term.

It was also announced by Dr. Cooper that classes would begin immediately after the chapel period. The classes could be started at that time, he said, due to the new method of enrollment which did not take up so much time as in former years.

Dr. Cooper explained various changes in the institution. Not longer may a student carry work in both the college and normal departments, he said. Most interest is now being taken in curriculum and transfers and special work is being done with students in freshman English, Dr. Cooper said.

Some time also was spent in discussing the standard students. The standard student and the standard teacher, said Dr. Cooper, does much that is not shown on the official record. He deplored the fact that too many persons were seeking only credit and urged that the student indulge in general reading for the improvement of his culture as well as professional reading.

NEW LABORATORY FEES

Due to the increased facilities in the laboratories of the Eastern State Teachers College and the offering of extra courses, several new laboratory fees are being charged and old ones raised, it was announced yesterday from the business office.

The biology laboratory fee has been increased from \$2 to \$4. New laboratory fees are \$2 for botany; \$2 for physics and \$4 for zoology. The fees cover only the cost of the materials used, it was announced.

Eight Degrees And Many Certificates Granted by Regents

Recommendations Are Made By Faculty and Registrar to Last Meeting of Board

WORK JUST COMPLETED

Eight degrees were approved by the board of regents of the Eastern Kentucky State Teachers College at the recent meeting in Richmond. Those persons receiving the degrees recently completed their work during the summer session and were awarded their degrees at once.

The regents also approved the extension of 35 advanced certificates for life. A total of 49 Standard or Life certificates were granted and 191 college elementary certificates.

Recommendations for the granting of the degrees and the teaching certificates were made by the faculty of Eastern. These persons were certified by M. E. Mattox, registrar.

The degrees granted and the names of the certificates granted are as follows:

Degrees Granted

Degrees granted by the board of regents were Bachelor of Science to Mae Kirk Kenney, and Bachelor of Arts to Ruth Knarr, Elizabeth Hubbard, William Elkin Pearson, Lawrence Wagers, Lela Webb, Albert Wilson, and Thomas C. Yager.

Life Certificates

The board of regents extended the advanced certificates of 35 persons for life. They are Kearney Adams, Irene Bentley, Elizabeth Bettis, Hattie M. Bumback, Lillian M. Clift, Ann Conrad, Effie Cook, Mrs. Josephine Davis, Mrs. Agnes H. Deane, Milton Donnell, Vivian Estes, Harriet C. Haughaboo, Virginia Tevis James, Margaret Johnson, Carroll Jones.

Mrs. Lurlene N. Jones, Ruth R. Lane, Mrs. Roxie Lemon, Mrs. Mae Wyan Locke, Josephine Meyers, Mrs. Lillian Estes Miller, Edith Moore, Edna Neal, G. A. Nelkirk, C. P. Ramsey, Elizabeth Reeves, Rebecca Ross, Henrietta A. Schirmer, S. K. Smallwood, Lillie Mae Snyder, Doris Spillman, Erby Spillman, Mabel Wasson, Mrs. Elizabeth Hisle Wroe and Serena Young.

Standard Certificates

The applications for standard certificates approved by the faculty and later by the board of regents were submitted by P. M. Broughton, Mrs. Elizabeth B. Burson, Clark E. Chestnut, James Cornett, Frances Cox, Nathan E. Darnell, Alma Louise Dowden, Mabel Dudley, Norma K. Dykes, Lucile A. Fightmaster, Frances E. Flege, Anabel Gilbert, Esta Belle Gillem, Julia M. Goodpaster, Cyrus E. Greene, Mary Willis Greene, Oneta Beryl Hahn, Minnie Hanks, French Holbrook, Ruth Horton, Roy Hubbard, Ruth Elizabeth Johnson, Hattie Lee Jones, Ruth Lee, Mattie E. Little, Edna Minter.

Hazel A. Oetzel, Bessie C. Park, Permelia F. Parker, Bertha E. Pendleton, Kathleen Plummer, Verna D. Poynter, Mary E. Robinson, Evelyn F. Ross, Jane K. Rowlette, Nellie Schellenger, Margaret L. Scott, Hester W. Smith, Olga V. Stratton, Nancy Woodford Summay, Virgil K. Tarter, Margaret Telford, William R. Tudor, Bonnie Olga Tussey, Lucille P. Wallace, Thelma Lee Welch, Ruth Wayne Wheatley, Mary Mildred White and Exta Williams.

Elementary Certificates

The applications for college elementary certificates, 191 in number, approved by the faculty and the board of regents, were submitted by Opal Aaron, Pearl Aaron, Mrs. Hester R. Abner, Opal Acree, Maggie Thelma Acton, Lena Allison, Lucy Mae Anderson, Helen Vicars Arnett, Rose Ellis Ball, Willie B. Ball, Edgar Banks, Jewell Barber, Corinne Elizabeth Beach, Grace E. Beatty, Elsie Bengel, Adelaide Benton, Neppie Berry, Louise Bertram, Katherine Black, Lorene Blackburn, Frances Bogle, Ruth Bogle, Betty Jo Boleyn, Moody Bowling, Dudley Brandenburg, Oleta Brandenburg, Mary Lou Branhams, W. Smith, Cleora Smither, Edna Smither, Alma Smyth, Mayme Stamper, W. Gayle Starnes, Thomas L. Stephenson, Nina B. Stevens, Stella Stone, Lena Sturgill, Calvin I. Switzer, Curtis B. Tarter, Erma Tatem, Ova J. Taylor, Hogan Teater, Meredith Thompson, Sadie B. Tinsley, Henry Triplett.

Lucille Wagers, Calvin Walker, Frances Walker, Mrs. C. H. Warren, Anna Wash, Elizabeth Watson, Lee C. Webb, J. O. Webster, Willie Wells, Gladys Wesley, Rawdy Whitaker, Ola Williams, T. Open Williams, Mary Willoughby, Mrs. Willie F. Wilson, Jeannette Winburn, Eunice Witt, Jessie Lee Wittwer, Gola Iona Woods, Rena Workman, Eleanor Young and Jonne L. Zachary.

KEITH TO WRITE LIFE OF JOHN CRITTENDEN

(Continued from Page One)

tenden compromise, with which he sought to prevent the ever-widening breach between the North and South before the War Between the States.

Mr. Keith explained that there are 28 volumes of mounted material concerning the life of John J. Crittenden in the Library of Congress and baskets full of other material such as letters, speeches and records of his work in the national capital.

A complete life of John Crittenden will be written by Mr. Keith, telling of his service in the Kentucky legislature as speaker of the house; his work as governor of the state, and his national service in Washington as a United States senator and later a congressman. He also served two terms as attorney-general of the nation. Mr.

Keith stated that Crittenden is one of the outstanding statesmen of America. He explained that Crittenden ranked slightly below such men as Clay, Calhoun and Webster, but that he took Clay's place in congress at his death and was widely influential and famous. His attempt to preserve peace just before the Civil War with the Crittenden Compromise and other resolutions are among his notable efforts.

John J. Crittenden was born in Woodford county and moved to Rus-

sellville, but early returned to Frankfort and later to Woodford county. He was a lawyer.

While in Washington Mr. Keith also will search for material about Crittenden in the 100 volumes of the Washington Globe to find some of his exploits in congress. When he returns to Kentucky Mr. Keith plans further research work here.

Before writing his thesis some time

during the coming collegiate year, Mr. Keith expects to look through a Kentucky newspaper file, the Frankfort public library, the Filson Club of Louisville for material about Crittenden and to interview members of the Crittenden family.

Mrs. Harriett Hollins and Mrs. Jane Sharp, of St. Louis, widowed sisters, died on the same day and were buried in the same grave.

CONCENTRATING ON WILSON BROTHERS HABERDASHERY

Finishing Touch!

The pocket handkerchief is that deft finishing touch which makes a man correctly dressed. Wilson Brothers Style Committee has originated many handsome creations in many popular shades. Woven from the finest imported and domestic fabrics, from French, Irish, and Swiss looms, with hems that are rolled, they'll add zest to your ensemble.
