## Commissioner's Message

The problem of developing "a high type of sportsmanship among schools, athletes, and the general public," as suggested in the K.H.S.A.A. constitution, is one to which school administrators and coaches might give their attention. Many are doing this and have been doing so for a long time.

We believe that sportsmanship at the high school level improves each year. However, a coach occasionally removes his team from the floor because of poor officiating, issues a statement to the press that "we wuz robbed," or looks the other way when one of his basketball players exhibits an ugly attitude toward an official. We shudder to think what an attitude like this does to a team, a student body, or a community.

Dr. Rhea H. Williams, writing in the Texas Interscholastic Leaguer, thinks that respect for constituted authority can be one of the most important outcomes of a good athletic program. We reprint his editorial because we think that it is especially timely.

### Respect for Law

There are many values which accrue through properly directed interschool athletics. One of the most important of these is the opportunity to learn respect for constituted authority. There are many trends in our present-day society which indicate that there is a definite lack of respect for constituted authority on the part of the public and students. This is exemplified daily in the many instances of disrespect and outright antagonism toward our peace officers, game officials in athletics and others who have been designated to enforce certain rules which have been agreed upon in advance.

In recent weeks throughout the state of Texas there have been many newspaper reports dealing with attacks on peace officers by laymen who undoubtedly are guilty of such items as speeding, drinking and other law violations but who resent and do not respect constituted authority.

This same trend is found daily in the sports columns of our newspapers as is exemplified by the college or high school coach who claimed that he was robbed because of a decision made by an official or by a local coach or newspaper columnist who claimed that the game the past weekend was lost through the inefficiency of game officials.

The game officials are invited by a school to work their game. Both schools have agreed that the game will be played under a certain set of rules, and yet when any decision is made with which they do not agree they immediately begin to rebel. In most cases, the complaints result in physical attack and in embarrassment to all parties involved.

Perhaps one of the most insidious and harmful effects of this philosophy which is permeating so much of our society relative to constituted authority is the psychological effect. There is a growing tendency on the part of those who have had a misfortune or who have not

succeeded or who have failed to win an athletic activity to blame it on some other individual or group, usually on those who have enforced a rule because they are in the position of constituted authority.

If coaches, administrators and fans are to fulfill one of the major objectives of athletics, which is to teach respect for constituted authority, then they must indoctrinate and educate the athletes under their control in this direction. There are ample experiences available in the athletic program for this.

Perhaps one of the most important of these is the ability of an individual player to learn to respect the constituted authority which resides in the coach as a teacher. Another splendid illustration is that when athletes are participating in games they should realize that the officials who are calling the game are the constituted authorities for this game and that even though they do not agree with all the decisions, they must learn to respect and to abide by these decisions.

It is very difficult, however, for athletes on the playing field to gain the proper concepts for obeying constituted authority when they see the coach or hear fans deriding the decisions of the officials.

There is a feeling among many of our people that democracy means that each person or group has a right to their own beliefs and actions, regardless of the rights of others. Nothing could be further from the truth, as this would be anarchy. In democracy the rights of other people must be respected, and a democracy is government by the will of the majority and a government by law and not of people. Athletics offer one of the greatest opportunities to develop in youth a respect for law and a respect for constituted authority.

It is up to our coaches, teachers and interested laymen to see that this spirit is inculcated in the youth of our state, and only by setting the proper example of respect for constituted authority can we expect our high school athletes to receive this most valuable attribute from our interschool athletic program.

Athletics are very similar to atomic power in that they can be used for either good or bad, depending on the leadership provided by the coach, the school and the community. Athletics can, therefore, create in the boy the proper respect, the proper regard and the proper prestige for constituted authority; or it can create in the boy disrespect and a complete lack of respect for constituted authority.

Because of the emotions which are so closely integrated with athletics, there is always the possibility for this lack of respect to flare out sporadically unless careful and continual guidance is provided for our youth.

Only by the proper direction and supervision can we justify our athletic program. It is up to everyone interested in athletics to see that the proper respect for constituted authority is provided in all areas of our life.

## "Approved" and "Certified" Officials

A large number of K. H. S. A. A. registered officials qualified for the advanced rating of "Approved" and "Certified" as a result of the National Federation basketball examination, which was given in Kentucky on December 5, 1960. The "Approved" rating does not carry forward from year to year, but must be earned each year. After an official has received the "Certified" rating, he keeps this rating by clinic attendance. Only officials receiving these higher ratings are eligible to work in the regional tournaments. Only "Certified" officials, who are residents of Kentucky, are eligible to work in the State Tournament.

Basketball officials who qualified for advanced ratings during the current season are as follows:

## The Flying Dutchman

Track provides fine competition. It gives a young man or a young woman an opportunity to compete with himself or herself as well as with teams. The Dutchman salutes the Kentuckiana Cinder Club for the lead that it has taken to elevate track to the level it rightfully deserves. George Gibson deserves a lion's share of the credit for the rejuvenation of this sport in Kentucky. George and his committee have been responsible for the construction of the largest indoor board track in the U. S. at Freedom Hall at the Kentucky State Fairgrounds.

This track is an oval with eight laps to the mile, a sprint straight-away down the middle of one hundred yards, plus twenty yards for a start and a finish. Curved ends of the oval are banked with an outer edge two and one-half feet high at the highest point. It is a terrific accomplishment.

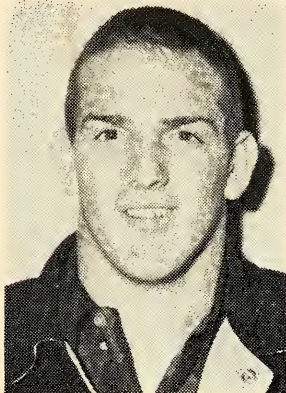

High School athletic directors should support the first Mason-Dixon Games which will be presented on February 18, sponsored by the Kentuckiana Cinder Club and the University of Louisville. George Gibson sends word that the high school events will have the sanction of the K. H. S. A. A. The Dutchman is informed that Wilma Rudolph, winner of three gold Olympic medals at Rome, along with other famous track stars, will perform as added features. High School coaches interested in entering any of the events should write Wayne Cooper, Chairman of High School Events, Mason-Dixon Games, Freedom Hall, Louisville, Kentucky.

Let's look at some of our mail to start the new year of 1961! From Jerry Kimmel, Beechmont, comes a postcard saying that along with Charlie Eades he attended three basketball clinics, one at Bowling Green, another at Hopkinsville, and a third at Owensboro. Jerry goes on to say that he enjoyed each one of them. Who else did this? We want this information for the record.

From Julian Pitzer, Sports Editor of the Daily News of Middlesboro, comes a letter recommending Gale Robbins of Bell County High School for the Game Guy Award of the year. Julian writes that in spite of an operation, which many predicted would prevent his ever playing football again, Gale overcame this handicap and amazed his doctors with his determination to once again compete on the gridiron.

Coach Charlie Black, Barbourville, wrote a letter asking if it is legal for a basketball player to wear a football helmet to protect a facial injury. We ruled, as did Cliff Fagan, that football helmets have not been approved for wear for any purpose during basketball play. The uniform of a basketball player offers no protection from contact and the use of such equipment by an opponent could be dangerous.

The mail from Danville contained a recommendation of Coach Jim Morrison by Ken Snowden for the Flying Dutchman Award for January. Jim, who directs the athletic destinies of the Kentucky School for the Deaf, sets such a good example of sportsmanship and has been so outstanding in his treatment of officials that he is highly deserving of the Kentucky Thoroughbred with the little corn cob pipe adorning his neck. Everybody in that section says that this chap is always pleasant, solicitous of the needs of officials, and generally is the "Host with the Most." Ken further requests an Abou Ben Adhem citation for Memorial High School in Lincoln County for an outstanding effort to elevate good neighbor practice to a new high level in that community.

Gale Robbins

Another letter which is anonymous says: "Send a razz-berry to a certain coach instead of a corn cob pipe for not staying on the bench during games." The Flying Dutchman only compliments. If he can speak well of an individual, he speaks—otherwise, he holds his peace. Our philosophy is to point out the good that is in everybody. This letter recalls one received sometime ago saying, "Dutchman, you have sent a corn cob pipe to the biggest louse in Kentucky." That may have been true but we just happened to know something good that this "louse" had done which transformed him into one of nature's noblemen.

Times are changing! Strange things are happening. To wit: Joe Creasons Courier-Journal story of December 18 tells of a woman who has embarked on a basketball officiating career in Kentucky. Pretty Laura Lou Golden has been qualified by the K. H. S. A. A. as a "Whistler." Her husband, Billy Joe, who hails from Lynch, is one of the Dutchman's favorite arbiters. He is teaming with Laura Lou to form a husband-wife officiating team. I'll see you at those mountain clinics in October, Laura Lou.

You just don't know who is an official anymore. The next time you stand on the corner of Fourth and Walnut Streets in Louisville and the traffic officer toots his whistle to cross the street, do so or he might call a technical on you. That officer is Hubert Loudon who is a "moonlighter"—a policeman by day, a basketball official by night. Wouldn't you feel strange if you booed an official and he locked you up for disturbing the peace?

Anybody might be an official in these changing times. At the Bluegrass Tournament I watched a Kentucky State Senator do an outstanding job of officiating. The "Whistler" was Senator George Conley of Ashland. In 1963 we may see the Lieutenant Governor of the Commonwealth call the plays. It is no secret that the Senator from Ashland will make the race for that office. Why shouldn't the Lieutenant-Governor officiate? Mayor Ralph Mussman of Newport is one of Kentucky's best referees.

Incidentally, the Dutchman notes that both the officiating Mayor and the whistling senator have rapidly-expanding waistslines. They are getting "plumpy".

So here is the Dutchman's closing thought—More people commit suicide with a fork than with any other weapon.

## Minutes of Board Meeting

The Board of Control of the Kentucky High School Athletic Association met at the K. H. S. A. A. Building, Lexington, on Thursday morning, December 22, 1960. The meeting was called to order by President Louis Litchfield at 9:30, with Board members W. H. Crowder, K. G. Gillaspie, W. B. Jones, Oran C. Teater, and Cecil A. Thornton; Commissioner Theo. A. Sanford, and Assistant Commissioner J. B. Mansfield present.

The Commissioner read the minutes of the October 22nd meeting. K. G. Gillaspie moved, seconded by Oran C. Teater, that the minutes be accepted as read. The motion was carried unanimously.

The Commissioner reported that the football championships had been very successful, with ticket sales at the Class A and Class AA final games amounting to \$8,307.50, and program profits bringing the total receipts up to approximately \$8,800.00. Expenses will be approximately \$4,000.00. He also presented financial reports filed with his office by the managers of the first round games, which showed the following: Lafayette-Paducah, \$335.80 profit; Hazard-Highlands, \$1,439.40 profit; East Main-Paintsville, \$549.30 profit; Ft. Knox-Murray \$231.64 loss. He stated that, in line with Board policy and with the approval of President Litchfield and the members of the football championship committee, he had mailed a check to Prin. S. M. Mata-rizzo of the Ft. Knox High School, in the amount of the deficit mentioned.

The Commissioner stated that he and Mr. Mansfield had studied by grades the 1959-60 enrollments of the schools maintaining football teams, and that they had the following recommendations to make concerning changes in football championship regulations for the next two years:

a-Class AA teams shall be schools with an enrollment of 315 or more in grades 10-12, based on 1959-60 enrollment records; and Class A shall be those with an enrollment of less than 315 in grades 10-12.

b-The Pikeville High School and the Elkhorn City High School shall be moved to Region 3, Class A.

c-The semi-final sites shall be determined by the regional winners, but the present plan shall be changed to an alternating plan which would provide that first round Class A and Class AA games would not be played in the same numbered region any year. The alternating plan starting in 1961 shall be determined by lot.

d-The Class AAA final game shall be played on the weekend prior to Thanksgiving.

W. H. Crowds moved, seconded by K. G. Gillaspie, that the football championship regulations, as recommended by the Commissioner and the Assistant Commissioner, be accepted and put into effect. The motion was carried unanimously.

The Commissioner recommended that the 1961 regulations in swimming be the same as the 1960 regulations, with the swimming committee being given authority to make any necessary adjustments in the classes and events. W. B. Jones moved, seconded by Oran C. Teater, that the recommendation of the Commissioner be accepted and adopted. The motion was carried unanimously.

The Commissioner stated that the Board of Control had been asked to rule on the athletic program of the Madison High School and Model High School for the year 1961-62, the question being whether or not the Madison-Model High School, currently a member of the K. H. S. A. A., is in reality two schools, each eligible for membership in the Kentucky High School Athletic Association. There was a general discussion of the present arrangement, which was approved by the Board of Control some twenty years ago. The Commissioner stated that, after studying the present arrangement of the Madison-Model High School, he believed that it was perhaps somewhat different from that approved by the Board of Control originally; that it was his considered opinion that the Madison High School and the Model High School were each eligible for membership in the K. H. S. A. A.; and that he had notified by telephone the principals of the two schools involved that he would recommend to the Board of Control that each school be considered eligible for K. H. S. A. A. membership, beginning in the fall of 1961. The Commissioner stated that he had advised each principal that the Board would be in session on December 22, and that he was sure that the members of the Board would be glad to have these men appear before the Board if they desire to do so. The Commissioner then recommended to the Board that, at the beginning of the 1961-62 school year, the Madison High School and the Model High School each be considered eligible for membership in the K. H. S. A. A. K. G. Gillaspie moved, seconded by Oran C. Teater, that the recommendation of the Commissioner be approved and adopted. The motion carried unanimously.

W. B. Jones moved, seconded by Oran C. Teater, that the next meeting of the Board of Control be held in Louisville on January 28, 1961. The motion was carried unanimously.

W. B. Jones, chairman of the trophy committee, reported that his committee had opened the basketball tournament trophy bids, the only two bidders being the Sutcliffe Company and the Hunt's Athletic Goods Company. Mr. Jones stated that the Sutcliffe bid was \$38.00 per set of regional trophies and \$29.80 per set of district trophies, the total amount of the bid being \$2,515.20 plus 3% sales tax; and that the Hunt's bid was \$42.57 per set of regional trophies and \$36.19 per set of district trophies, less a 2% discount, making a

net total of \$2,937.34 for the complete order. Mr. Jones stated that the Trophy Committee recommended that the Board accept the Sutcliffe bid as being the lowest and best bid. Oran C. Teater moved, seconded by W. H. Crowds, that the recommendation of the Trophy Committee be accepted. The motion was carried unanimously.

W. H. Crowds moved, seconded by Cecil A. Thornton, that all bills of the Association for the period beginning October 22, 1960, and ending December 21, 1960, be allowed. The motion was carried unanimously.

There being no further business, the meeting adjourned.

### BASKETBALL RULINGS

(Continued from December Issue)

35. Play: Fourth quarter time-out is granted team A. Play is resumed, following which a floor violation is called on B1. The Scorer notifies Referee that the time-out called by A was its sixth.

Ruling: Team B is given a free throw for the technical foul by A. Then ball is out in play by team A at out of bounds spot nearest the violation by B. (10-7-Note)

36. Play: A1 catches the ball while both feet are off the floor and he alights with both feet touching the floor simultaneously. He then jumps in the air (both feet off the floor) and comes down again, before passing or throwing for goal, with both feet touching the floor simultaneously. He does not step or pivot.

Ruling: Violation. (4-17)

37. Play: A1 and B1 commit a false double foul and it is the fifth for A1. A1 attempts his free throw first, after which: (a) it is immediately discovered that A1 has been disqualified; or (b) B1 attempts his free throw and then the discovery of A1's disqualification is made.

Ruling: Note following Rule 10-7 applies. In (a), free-throw attempt by A1 is canceled and the player who replaces A1 is given a free throw. In (b) it is too late for correction and A1's successful attempt is allowed. A1 is replaced immediately. (10-7-Note)

38. Play: After Official has placed ball at disposal of A1 for a free-throw resulting from a technical foul: (a) B2 pushes A2; or (b) A2 shoves B2.

Ruling: In both (a) and (b) the fouls which are committed after the ball is placed at the disposal of A1 for his free throw attempt are personal fouls because they are contact fouls during live ball. In (a), A2 is awarded a free throw for personal foul by B2. If free throw by A2 is successful, it is out in play by B anywhere along the end line at A's basket. If free throw is missed and does not touch basket ring, ball is out in play by B from out of bounds at sideline opposite A's free throw line. If free throw touches the basket ring but is not successful, ball remains alive and is in play. In (b), B2 is awarded a free throw for personal foul by A2 and the ball then is put in play by a jump ball in the center circle between any two opponents. (6-1; 8-7)

### LITTLE THINGS

Isn't it amazing how a little drop of oil  
Makes the wheel run smoother, and lessens sweat and toil?  
Isn't it amazing how a little drop of rain  
Lifts the drooping flower, so it will bloom again?  
Isn't it amazing how a kindly word of praise  
Cheers the heavy laden and helps the burden raise?
