## Early Season Basketball Questions

EDITOR'S NOTE: These interpretations of the rules of the National Basketball Committee of the United States and Canada do not set aside nor modify any rule. The rulings are made by the National Federation of State High School Athletic Associations in response to situations presented.

1. PLAY: During free throw by AI, there is pushing along the lane: (a) by A2; or (b) by B1. In either

along the lane: (a) by A2; or (b) by B1. In either case action continues and the free throw is completed. Does the ball become dead when the foul is committed; does free throw count if made; and is a substitute

throw awarded?

RULING: If the foul occurs after the ball was in flight, the point counts if made and, if missed, no substitute throw is awarded. If the foul occurred before the ball was in flight but after the throwing motion has started, it is continuous motion in (b) but not in (a). Hence, in (a), the ball becomes dead when the foul occurs and A1 has not made an attempt with a live ball. Consequently, no point is counted if made, and A1 is then given an attempt with a live ball whether made or missed. Two free throws are awarded for the foul by A2, which is considered to be intentional. In (b) it is continuous motion and, therefore, the ball does not become dead, the point counts if made, and no substitute throw is awarded if missed, but another free throw is awarded the offended player for the foul committed by B1.

PLAY: During jump ball, A6 enters to replace
 Before the ball is tossed, and without any charged time-out, A1 reports and desires to reenter to replace

RULING: A1 may not reenter before the next opportunity to substitute after the clock has started.
3. PLAY: After being beckoned, substitute A6

enters the court. When does he become a player?
RULING: As soon as he enters the court after

being becokened.

4. PLAY: One and a half minutes are consumed for a time-out by injured A1 who is: (a) replaced; or (b) not replaced.

RULING: In (a), the time-out is not charged. In

(b), two time-outs are charged to A.

5. PLAY: A1 dribbles in his back court for 5 seconds. He then fumbles and the ball is rolling on the floor in the back court when he requests a time-out. RULING: Since the ball is not in control of a

player (even though it is still in control of his team)

the request should not be granted.

6. PLAY: Team A: (a) returns to the court to start 2nd half 45 seconds after the scheduled starting time; or (b) returns to the court immediately after being notified of the 2nd half starting time 3 minutes in advance of its start, and then causes a 45 second delay.

RULING: One might conclude that both rules 2-12 and 10-1-(a) apply, and that the rules are in conflict. However, this is not the intent, nor is it the interpretation given to each by the National Basketball Rules Committee. Rule 10-1-(a) applies to (a). No violation has been committed by team A because it has not delayed its return to court to start the 2nd half by "a full minute" after the scheduled time for it (2nd half). Team A is ready to play in 45 seconds. The purpose of

rule 10-1-(a) is to provide the officials with a definite guide for assessing a team with a technical foul when it fails to be on the court on time to start either half. Invariably, this delay occurs in the team's dressing room where the timer's signal would not be heard. The delay may or may not be deliberate. Rule 2-12 applies to (b). The addition of the 15-second warning signal to this rule is for the purpose of eliminating the increasing amount of delay in the situations outlined in the rule when teams are already on the court. It should be noted that no specific penalty is listed for this violation. The official must first determine whether, in his judgment, a violation has occurred, after which he applies the general statement of rule 10-1 as the basis for assessing the violating team with a technical foul. In (b), team A certainly has violated and must be assessed a technical foul. Rule 2-12 revision was made with the intent of preventing prolonged huddles which were becoming a problem.

7. PLAY: A6 reports to the scorer and enters the court after being beckoned. He then requests a time-out, which is granted. Before the 1-minute for the chargd time-out has expired, substitute A7 reports for the purose of replacing A6.

RULING: A6 may be replaced.

8. PLAY: The first quarter ends immediately after the ball leaves the hand of Al on a try for goal. While the ball is in flight on the way to the basket, or while it is bouncing or rolling on the ring, Al or Bl illegally contacts an opponent.

RULING: The ball remains alive until the basket is made or missed. The player who illegally contacted an opponent has, therefore, committed a personal foul and the penalty should be administered immediately. The ball is dead and the quarter ended after the free

throw or throws have been attempted.

9. PAY: B1, who has taken a position in a lane space adjacent to the end line during a free throw attempt by A1, backs out of this space before the ball touches the ring or backboard, or before the free throw ends. A2, occupying the second space on the same side of the free throw lane as B1, moves into the space vacated by B1 before the ball touches the ring or backboard, or before the free throw ends.

RULING: Double violation. Ball becomes dead when the violation by the free thrower's team occurs. No point can be scored and play shall be resumed by a jump between any two opponents in the nearest

circle.

10. PLAY: Try for goal by A is successful. A2 catches the ball as it comes through the basket and leisurely drops it to the floor or passes it to an official. In so doing, be gives his teammates an opportunity to get into a desired defensive formation.

RULING: Technical foul. Any touching of the ball beam A after a goal is scored should be penalized unless it is entirely accidental, or is in such a situation that no advantage could be gained through such act

11. PLAY: With his back to the basket, A1 estab-(Continued on Page Eighteen)

Approved and Certified Officials

A larger number of K.H.S.A.A. registered officials qualified for the advanced rating of Approved and Certified as a result of the National Federation basketball examination which was given in Kentucky on December 7, 1964. The Approved rating does not carry forward from year to year, but must be earned each year. After an official has received the Certified rating, he keeps this rating by clinic attendance. Only officials receiving these higher ratings are eligible to work in the regional tournaments. Only Certified officials who are residents of Kentucky are eligible to work in the State Tournament.

Basketball officials who qualified for advanced ratings during the current season are as follows:

# The Flying Dutchman

The year of 1964 with all of its mistakes, heart-actes and failures is behind us. The opportunities we missed in 1964 and our successes are a matter of history now. Let's forget them and remember that 1965 offers us new opportunities to serve the young Kentuckians in the K.H.S.A.A. sports program.

Claude Ricketts, who migrated from Harlan's mountains to become a top Louisville official and a regional representative for the K.H.S.A.A., has discovered unsurpassed courage in a physically handicapped youngster at Good Shepherd High School in Frankfort. Claude wants John Kemp to receive a Lionheart Award and consideration for Game Guy of 1965. What has John done to win this honor? In spite of the fact that he has no arms or legs he engages in sports by managing the Good Shepherd basketball team. Scrappy youngsters like Johnnie Kemp keep marching through each new year as continuing examples of raw courage. The Dutchman's award is on its way to this great lad.

The brand new year of 1965 started right for a young fighter from Glasgow who is overcoming a physical handicap to play basketball. When Dick Coop, Glasgow High School Coach, nominated David Fant for the Game Guy Award, a first happened in our program aimed at encouraging physically handicapped youngsters to engage in sports. Coach Dick Coop won the Dutchman's Lionheart salute for overcoming polio when he was a star on the hardwood at Campbellsville High School a few years ago.

Here's the "dope" on David Fant: (1) A straight "A" student, (2) an active church worker, (3) a lad who plays basketball in spite of a leg severly injured when struck by a truck. With a great guy like "Dickie" Coop on Dave's side, he's certain to become a real fighting Kentuckian. Incidentally, Coach Paul Coop of Campbellsville, one of the finest gentleman this Dutchman ever blew a whistle for, is Coach Dick Coop's father.

Don C. Sullivan of Lexington is the first winner of the Corn Cob Pipe of Honor for the new year. Besides being one of the best basketball officials in the country, Don is a man of service, giving his efforts to the East-West College All-Star Basketball Game, to the Kiwanis Club of Prestonburg, and to the improvement of officiating in the state. Don's influence for the good of young men is halled in the Ohio Valley and Southeastern Conferences where he officiates. His thirteen years of officiating for the K. H. S. A.A. testify that he is a fine example for young people. An interesting experience came to Don Sullivan

An interesting experience came to Don Sullivan in Eastern Kentucky, during a ball game between two heated rivals when he called a foul. The other official detected a fight between opposing players and asked Sullivan what he had. When Sullivan indicated he had a personal foul on one player, the older official replied, "Stand aside, Sonny, I have a multitude of them." The other official was Foster (Sid) Meade who is a legend in his own time in the hills of Kentucky.

Whenever the Dutchman hears western Kentuckians spin "yarns" about Irvin S. Cobb, he remembers Sid Meade who is a legend in his own time in the hills state. Sid's humor is unexcelled and there is never a dull moment in any crowd when Sid is around. Happy New Year, Sid!

As 1965 took over when 1964 left off, an unsigned "poem" came in the mail dedicated to the Flying Dutchman. Here it is:

In days of old when Charlie was a tot,
Those who loved him called him "Curly" a lot;

Don Sullivan

But now no one calls him this at all, Because what was once curly is now bald. When you leave this earth to become a star, The shine from your head will show where you are.

There are strong indications that this poem should have gone to Ty Holland, Rex Alexander, Elmo Head, Turner Ellrod and Ernie Chattin. Please share this literary "gem" with me, fellows.

Charlie Irwin of Hopkinsville wants a ruling on this play: Team A has the ball out of bounds for a throw-in and has five seconds to get the ball in play. After two seconds a time-out is called. How many seconds does Team A have to throw the ball in from out of bounds when play is resumed? The answer is five seconds because the time-out caused a new throw-in situation to occur.

Here's our thought for the beginning of our new year:

"And I said to the man who stood at the gate of the year;

Give me a light that I may tread safely into the unknown!

And he replied,
Go out into the darkness and put thine hand into
the hand of God.

That shall be to thee better than light and safer than a known way."

#### MINUTES OF BOARD MEETING

The Board of Control of the Kentucky Hight School Athletic Association met at the K.H.S.A.A. Building, Lexington, on Saturday morning, December 19, 1964. The meeting was called to order by President Oran C. Teater at 9:00, with all Board members. Commissioner Theo. A. Sanford, and Assistant Commissioner J. B. Mansfield present.

Ralph C. Dorsey moved, seconded by Don Davis that the minutes of the October 3rd meeting be waived, since the members of the Board had received copies of these minutes. The motion was carried unanimously.

The Commissioner reported that the 1964 championship playoffs had been very successful, although inclement weather had affected adversely ticket sales in some of the games. He recommended that each of the four teams participating in the playoffs in Lexington be allowed an additional amount of \$200.00 for incidental expenses.

Ralph C. Dorsey moved, seconded by Don R. Rawlings, that the appropriations recommended by the Commissioner be allowed. The motion was carried unanimously.

The Commissioner reported requests of Shelbyville High School and Corbin High School principals to place their schools in the AA football classification for the next two seasons. He recommended that these requests be granted, and that also Class AA schools for the 1965 and 1966 football seasons be those with an enrollment of 321 or more in grades 10-12, the enrollments being based on figures given in the 1963-64 listing of Kentucky High Schools, published by the State Department of Education. Don R. Rawlings moved, seconded by Preston Holland, that the recommendations of the Commissioner be accepted and approved. The motion was carried unanimously.

Don Davis brought up the subject of a possible change in the football regulations to provide that the playoff games be conducted at neutral sites, and there was a discussion of possible changes in the regulations concerning the selecting of officials and the setting of their fees. Possible action on these suggestions was deferred to a later

date.

The Commissioner read a letter which he and members of the Board had received from the administrators of the Pikeville Independent School System, relative to the ending of the regular football season as it applies to the Dickinson ratines. It was the unanimous opinion of the Board members that the Commissioner had rules correctly in declaring the weekend of November 7, 1964, the end of the regular season, as far as the playoff tabulations was concerned, and that no games played after that date could be counted in the Dickinson ratings.

Foster J. Sanders, Chairman of the Trophy Committee, reported that his Committee had met at the K.H.S.A.A. office on November 14, 1964, at which time sealed bids for the 1965 district and regional tournament trophies were opened. He stated that samples submitted by six bidders were examined, and that the Trophy Committee accepted the bids of the Gipe Sporting Goods Company, Owensboro, Kentucky, and the Sport Shop, Glasgow, Kentucky, for district and regional trophies respectively. The price per set of district trophies was \$50.00, and \$54.25 per set of regional trophies.

The Commissioner reported that on September 30, 1964, acting under authority delegated to him by the Board of Control, he had given K.H.S.A.A. sanction to the Shawnee High School of Louisville to again

act as the official sponsor of the Mason-Dixon Games, High School Division, scheduled to be held in Louisville on February 27. 1965. He stated that at the time it appeared that the AAU and he USTFF could resolve their differences to the extent that no violation of policy would be involved by giving the sanction mentioned. Preston Holland moved, seconded by Sherman Gish, that the sanction given by the Commissioner to the 1965 High School Division of the Mason-Dixon Games be approved, but that AAU representatives in the Louisville area be advised that no future sanction will be given to the High School Division of the Games which will conflict in any way with the sanctioning policy of the National Federation of State High School Athletic Associations. The motion was carried unanimously.

The Commissioner reported that on December 12, 1964, he had suspended the Willisburg High School from the K.H.S.A.A. for a period of thirty days because, in his opinion, certain Willisburg supporters violated the Association's Sportsmanship Rule during and after the Springfield-Willisburg basketball games played at Springfield on December 4, when they conducted themselves in an unsportsmanlike manner toward officials John Conn and Tom Duvall. The Commissioner stated that no school officials or players were involved in the trouble which ended in a fight between one of the officials

and a Willisburg patron.

There was a discussion of a possible change in the state swimming regulations, with respect to expense allowances given competitors in the State Swimming Meet. Don Davis moved, seconded by Sherman Gish, that only those swimmers who qualify for the finals in the Class A and Class B boys' and girls' events be given expense allowances for transportation, lodging and meals, these allowances to be based on the State Track Meet allowances on these items. The motion was carried unanimously.

Ralph C. Dorsey moved, seconded by Foster J. Sanders, that the 1965 regional basketball tournament regulations be changed to provide that, in tournaments where two games are played per session, four officials shall be employed. The motion was carried unanimously.

Don Davis, Chairman of the Tournament Officials Committee, gave his report. He and the members of his Committee proposed a new plan for the selection of State Basketball Tournament offifcials, to be recommended to the State Tournament Manager for 1965. There was a general discus-

sion of the proposed plan. Don Davis moved, seconded by Foster J. Sanders, that the new plan for the selection of State Basketball Tournament officials be recommended to the Commissioner, who is the tournament manager, for 1965. The motion was carried unanimously. The Commissioner accepted the new plan, and stated that he would put it into effect on an experimental basis for the forthcoming 1965 State Basketball Tournament.

Sherman Gish moved, seconded by Ralph C. Dorsey, that the next meeting of the Board of Control be held in Louisville on January 23, 1965. The motion was carried

unanimously.

Sherman Gish moved, seconded by Morton Combs, that all bills of the Association for the period beginning October 1, 1964, and ending December 18, 1964, be allowed. The motion was carried unanimously.

There being no further business, the

meeting adjourned.

#### HOW TO WATCH A WRESTLING MATCH

What's happening

First — both wrestlers come forward from corners of mat, get instructions, shake hands.

Next — referee blows whistle and sig-

nals "wrestle."

Now — each wrestler is trying to get control of the other by getting behind or on top of him - a Take down.

Points — first points are likely to be given for a Take Down. When a wrestler gets a take down, referee signals two points

with the right hand.

Then — defensive wrestler (usually one on bottom or "down") is trying to escape or Reverse his position. Offensive wrestler (usually top or up) is trying to get a hold with which he can keep his opponent's shoulders on the mat for two seconds - a fall or Pin.

Every match has three periods, each

two minutes long.

First Period — starts from the standing

or neutral position.

Second Period — starts from the "Referee's Position". Choice of position is decided by toss of a coin, with winner choosing either up or down.

Third Period — starts with position

at start of second period reversed.

Scoring -

Mat Points:

Take Down, 2 pts; when wrestler gets behind or on top of opponent from neutral or standing position. Subsequent takedown, 1 pt.

Escape, 1 pt.; getting out from underneath opponent to standing or neutral position, facing him.

Reversal, 2 pts.; getting out from underneath opponent and behind or on top of

him by one maneuver.

Near Fall — 2 or 3 pts; holding opponents shoulders to or near mat but not close enough for fall or pin.

Stalling — 1 pt. to opponent.

Illegal Holds - Roughness, Technical Foul — 1 or 2 pts; to offended boy.

Team Points:

Pin or Fall — 5 pts. for team.

Decision — 3 pts for team. Awarded to team whose wrestler scores most "mat" points, neither having secured a pin.

Default or Forfeit - 5 pts.

Draw — 2 pts. to each team.

#### INTERSCHOLASTICS OR INTRAMURALS, WHICH?

By Peggy Stanaland Editor's Note: This presentation was given at the Kentucky Conference on Physical Fitness, held in Louisville on August 17-18, 1964. Miss Stanaland was a member of the Athletics and Physical Fitness panel. She is an Assistant Professor of Physical Education at the University of Kentucky.

To pose this question to a woman physical educator is about like posing the question "Meat or vegetables" to a nutritionist. By intramurals we mean those programs that take place intra-muralis, within the walls of a given institution, and do not involve other institutions; by interscholastics we mean those programs that may involve two or more schools - extra muralis outside the walls. Extramural and interscholastic will sometimes be used interchangeably.

BEFORE ATTEMPTING A CUT AND DRIED YES OR NO, RED OR BLACK OR THIS OR THAT answer to this question, let me qualify any statements that may fol-

low by these two beliefs:

1. First of all, I believe that the welfare of the girl who participates is of primary concern. All other outcomes of competition are secondary. These other values have their place, yes, but the well-being of the girl is foremost, and must not and cannot be sacrificed for other outcomes, however noble they may be. (This is a basic tenet of the society in which we live.)

2. Secondly, I believe that the competitive element in sports activities can be used constructively for the achievement of desirable educational and recreational objectives when favorable conditions are present. Competitive experiences may be wholesome and beneficial, and result in acceptable con-

duct and attitudes. Competition in and of itself does not automatically result in desirable or undesirable outcomes.

Concerning these two beliefs then, the use of practices that ensure desirable outcomes is the responsibility of all associated with these events — sponsoring agencies, players, coaches, officials, and, yes, even spectators.

Sports competition is the privilege of all girls. "Sound instructional and well organized intramural programs will answer the needs and desires of the majority of young women." For those who seek and need additional challenges in competition and skills, a sound, carefully planned and well-directed program of extramural (or interscholastic) sports is recommended.

By no means should this interscholastic program be limited to a 10-game schedule of basketball only. This has the same connotation as the dietitian who says I believe in food, then sanctions a diet of potatoes only. I believe in an extramural or interscholastic program for girls and women that attempts, yea, even dares, to give more than one team sport to girls who are interested. A program that dubs all other sports as "minor" and promotes but a desultory interest is not on an educationally sound footing, as I see it. Tennis is not a minor sport to the girl who plays tennis well; volleyball is not a tame game to the girl who plays volleyball well. From my point of view then, the logical process is to establish first a good instructional program in physical education; an outgrowth of this is an organized intramural program; and, finally, an outgrowth of both of these would be the extramural/interscholastic. Only then will the competitive experiences for girls have both horizontal and vertical balance. Horizontal with the variety possible in intramurals; vertical with the depth of skill levels required in interscholastics.

To all too many of us, the words interscholastic competition and basketball have been synonymous. I suspect that we are guilty of indolence when it comes to variety in our sports programs for girls and equally guilty of a lack of imagination and foresight in diagnosing the interests of girls today.

Please understand that an interscholastic program of competition is not confined to a scheduled season of basketball or hockey. There are many other forms of extramural activity: sports days, telegraphic meets, invitational matches, the culmination of a clinic or workshop in a particular sport.

None of these programs can survive without competent leadership and careful guidance, where possible, I believe this leadership should be under the direction of a woman — a woman however, with the competence and intelligence to enlist the help and technical knowledge of others—whether male or female — when the growth and expansion of a given program warrants it.

At the outset I stated that competition was the privilege of all girls. According to

the practices of the culture in which we live, along with privileges go responsibilities.

The privileges of competition bring forth responsibilities. If we as leaders are vitally concerned with the total fitness of our girls, then we will accept these responsibilities — whether on the intramural level or the interscholastic level.

Questions, answers, and comments from

the floor and from the panel:

Question: What are some of the things that can be done to stimulate more girls

activities in schools?

Answer: We should throw this question open to the floor. One answer would be to find out what the girls like, then do the things they like.

Answer: One way is to go out and form track clubs at the schools. Another way is to hold clinics in regards to girls' activities.

Answer: We should provide proper leadership and equipment for the girls.

Question: One question might be posed. Are we only working toward girls' track and field training just to aim toward the Olympics? How does your group feel about girls track and the Olympics?

Answer: We hate to think that the first question is being asked. However if Olympics participation is the outcome later, then

Comment: Girls are competing in volleyball, tennis, golf and swimming. How can you reconcile the efforts to get girls interested in track?

Answer: We feel that running, jumping and throwing is basic of all sports. We are not interested in Olympics as such.

Question: How we can increase interest

in girls tennis and other sports?

Answer: The best way is to set up district, regional and state wide competition in the girls' sports. Women leaders should request the K.H.S.A.A. to help out. The Board of Control will give budget support to sports for girls if there is a demand by the school administrators.

#### BASKETBALL QUESTIONS

(Continued from Page One)

lishes his right foot as a pivot, stepping forward with his left foot. In readying himself to make a "jump' try, he lifts his right foot and moves it up near his left and places it on the floor.

RULING: Traveling.

12. PLAY: The penalty for violations listed in rule 9, sections 2 through 10, inclusive, provides that the ball becomes dead or remains dead when violation occurs, and that ball is awarded to a nearby opponent for a throw-in at the out of bounds spot nearest the violation. What is meant by a nearby player?

RULING: The terminology "nearby player" is used to prevent a team from delaying the contest by requiring that a specific player, who is not near the

out of bounds spot, make the throw-in. Nearby means exactly what it implies. Some member of the offended team, who is in the vicinity of the out of bounds spot, is handed the ball by the official. The official can control situations in which the team attempts to bring a player from a long distance by merely waving that player away, and handing the ball to a nearby player at the out of bounds spot and start his count immedi-

13. PLAY: A1 has been designated to make a throw-in. The official attempts to hand the ball to A1, who refuses to accept it because he or a teammate is not ready. What procedure does the official follow?

RULING. The official should place the ball on the floor at the designated spot and begin his 5-second count. Rule 7-5 provides that the official shall hand the ball to a designated player for the throw-in. The act of "handing" to the designated player may not include taking or accepting the ball even though this is usually the result. When ball is "handed" and is offered, the official has fulfilled his obligation. Rule 7-6 uses the word "disposal" to cover the situation when a player refuses or fails to accept the ball. "Disposal" is interpreted to mean "placing the ball on the floor at the designated spot". In rule 8-1 the word "disposal" is used to connote both the act of first "handing" then "placing the ball on the floor at the free throw line", when the free thrower does not accept the ball when it is handed to him. In this respect, the situations for the throw-in and the free throw are the same.

14. PLAY: Revised rule 10-7 provides that the "coaches may at any time leave the bench to confer with substitutes, to signal players, to request a timeout, or to perform other necessary coaching responsi-bilities". What are other necessary coaching responsibilities?

RULING: The Rules Committee was cognizant there would be unusual situations which would require the attention of the coach during the time the clock was running. Therefore, the Committee felt obligated to provide coverage in the rules which would provide for such emergencies. The following are examples of such situations: (a) Confer with personnel at the scorer's table when necessary. (b) Rise from the bench to talk to or congratulate a player who has been replaced. (c) Accompany an in-going substitute toward the Scorer's table at the side line. (d) Attend an injured player who has been removed from hte court. There may be other situations which are not listed here. However, the officials are not authorized to interpret this part of the rule so that it includes any or all actions of a coach in relation to his players and substitutes. The clause is not meant to be a "catch-all" which permits a coach the right to do almost anything not specifically prohibited in the rule. The coach is to be permitted to rise from and leave the bench only when it is necessary for him to do so in fulfilling his coaching responsibility. If a coach leaves the bench while the clock is running when it is not necessary, the official has no alternative but to penalize promptly.

COMMENT: The revision of rule 10, section 7, is intended to prohibit undesirable bench conduct which had developed. The rule has been made more specific than in the past so the coach may definitely know what he may or may not do, and also to give the officials and game administrators a positive guide for the purpose of carrying out their responsibilities. A study of the rule, the Rule Book Comments on the revision, Case Book play 21, and the Editor's Comment will provide a sufficient basis for proper direction of coaches and officials.

PLAY: How many free throws are awarded for

a technical foul?

#### ELIZABETHTOWN — CLASS AA, REGION 2, DISTRICT I, CHAMPION

(Left to Right) Front Row: Mgrs. G. Cox, D. Smith J. Ashcraft, J. Galvin, G. Hobbs. Second Row: G. Inman, S. Davis, K. Brann, G. Baskett, D. Miller, J. Gardner, J. Mace, J. Coffman, D. Joiner, D. Matherly, D. Howard, A. Thomason, D. Collins, C. Sparks. Third Row: H. Irwin, C. Nowlin, N. Torres, T. Benningfield, T. Claggett, F. Warf, L. Yates, T. Robinson, C. Shaw, K. Recce, J. Meredith, M. Sherrard, K. Brann, M. Skilman, Fourth Row: B. Best, D. Noblin, R. Cox, D. Rennie, J. Turner, G. Aiken, B. Hogg, R. Goldie, N. Imman, L. Atherton, Fifth Row: D. Langley, G. Torres, G. Avery, B. Marchell, R. Galvin, B. Conley, G. Langley, S. Bastabad, J. Gray, R. Greys, G. Torres, G. Avery, B. Garay, R. Greys, G. Torres, G. Avery, B. Gray, R. Greys, G. Torres, G. Avery, B. Marchell, R. Galvin, B. Conley, G. Langley, S. Bastabad, J. Gray, R. Greys, G. Torres, G. Avery, B. Gray, R. Greys, G. Fark, R. Greys, G.

RULING: One, unless the foul is flagrant. Then the penalty is two free throws and the offender is disqualified.

16. PLAY: Prior to tossing the ball for a jump, the official confirms there are two seconds of time left in the period. After a legal tap, and after the ball has touched the floor, the backboard, or a player, it goes out-of-bounds. The official then discovers that the timer neglected to start the clock.

RULING: The referee is authorized and justified to declare the period over if, in his opinion, he is positive that two or more seconds were consumed after

the clock should have been started.

17. PLAY: Near the end of the first overtime period, with the score B 51—A 48. A1 is fouled by B2 while attempting a field goal. Time expires before timer is able to stop the clock. The try is successful, making the score B 51 - A 50. Before A1 has an opportunity to attempt the free throw, team A requests and is granted a 7th time-out. The referee assesses a technical foul on team A for the excess time-out. Free throw attempt by A1 is successful, making the score A 51 - B 51.

RULING: Because the score is tied at the end of the overtime period (A 51 - B 51) a second overtime will be played. The second overtime will begin with the administration of the penalty for the technical foul. The combination of the foul by B2 and the technical foul called on team A results in a false double foul. Therefore, after the free throw try (by team A) for the technical foul play will be resumed by a center

18. PLAY: B2 fouls A2 while A1 is in the act of trying for a field goal. The foul by B2 occurs before the ball is in flight for the try.

RULING: The continuous motion provision pertains in this situation. The coverage is in the exception to Rule 6-7-(3) which provides, "A foul is committed by an opponent of a player who has started a try for goal . . ." The boldfacing of the word opponent is the interpreter's, but it will emphasize that the exception does not specify which player must be offended, but that it provides that the exception prevails when an opponent of the player making the try does the fouling.

19. PLAY: Time is out. There are only six players on squad A. A6 substitutes for A1. After A6 has become a player, but before the clock starts, A6 commits a disqualifying foul. May A1 return to the game even though the clock has not started?

RULING: A decision strictly in conformance with the letter of the rule would prohibit A1 from returning until after the clock had started. However, in the circumstance outlined above, A1 should be permitted to return before the clock starts. The rules require that a team must use 5 players as long as it has 5 eligibles.

20. PLAY: Team A scores. Team B, knowing that Team A usually goes into a full court press immediately following the scoring of a field goal by the op-ponents, permits the ball to remain on the floor and does not attempt to pick it up and make the throw-in until all of its players have taken the desired position

in attempt to counter the full court press.

RULING: The official shall place the ball at the disposal of the scored upon team. It is recommended that in such situations the official attempt to hand the ball to a nearby player of Team B. If the player refuses the ball, the ball should be placed on the floor, behind the end line. This is placing the ball at the dis-posal of the team to throw it in. When the ball is so placed at the disposal of the team to make the throwin, the 5-second count is started.

21. PLAY: Team A is in control in its front court. At passes the ball to A2. The ball is muffed or missed by A2 and goes into the back court where it strikes an official and the ball then returns to the front court where A3 gains control. In (a) after striking the official, the ball is caught in flight by A3; or (b) after striking the official. the ball hits the floor in the front court before A3 gains control.

RULING: In both (a) and (b) Team A has committed a violation.

22. PLAY: A6 reports to the scorer wearing number 18 on his jersey.

RULING: Number 18 is illegal and the scorer should not signal that a substitute is about to enter. If a substitute wearing such a number is inadvertently permitted to enter the court, the substitute has committed a technical foul.

23. PLAY: A1 attempts a free throw or field goal. Ball lodges on flange between the ring and backboard or in the angle between the ring and backboard.

RULING: The ball becomes dead as soon as it is in a fixed position. It is put in play by a jump ball between any two opponents at the nearer free throw circle.

24. A6 reports to the scorers' bench, scorer sounds his signal, and the official beckons. A6 then runs to the bench for last second instructions. He does not enter the court immediately after being beckoned.

RULING: This is a technical foul for delay of game unless a charged time-out has been requested on behalf of Team A.

25. PLAY: As a result of an injury to A1, time-out is taken. Assuming that A1 will be unable to continue, A6 reports to the scorer and subsequently is beckoned by a floor official to enter the court. (a) before or; (b) after A6 enters the court it is evident that A1 could continue to participate. Al indicates he desires to do

RULING: In (a) the official shall ignore the incomplete substitution since A6 did not become a player by entering the court. In (b) A6 became a player when he entered the court. Thus A1 became a withdrawn player who may not re-enter before the next opportunity to substitute after the clock is started following the replacement of A1.

26. PLAY: Following a violation, the official designates the out-of-bounds spot and hands the ball to Al for the throw-in. A1 moves up or down the court three or four yards from the designated spot for the purpose of making the throw-in.

RULING: A1 has committed a violation when he leaves the designated spot for the throw-in after the

ball has been handed to him.

27. PLAY: After three players have been disqualified, Team A has only four who are eligible to continue in the game as participants. In a gesture of good sportsmanship, coach of Team B indicates he desires to withdraw a player so that each team will have four players on the court.

RULING: This is not permissible. Team B must use five players as long as it has that number available.

28. PLAY: During the warm-up, A1 and B1 commit flagrant fouls against each other several minutes be-

fore the game is scheduled to start.

RULING: Such fouls are flagrant technical fouls and the situation described in the play above is a false double foul. Two free throws and the situation described in the play above is a false double foul. Two free throws are awarded each team. A1 and B1 are disqualified and are not eligible to participate in the game. The free throws are attempted at the start of the game and after their completion, the ball is put in play by a jump at the center circle between any two opponents.

29. PLAY: A coach of Team A consumes a full

60 seconds in substituting for disqualified A1.
RULING: A1 should be replaced as quickly as possible and, in any event, the substitute must report immediately after the 15-second warning. The time available for a substitute to report to the scorer following a disqualification should never exceed 45 seconds.

30. PLAY: At has the ball in the free throw lane near the end line where he remains for approximately two sconds, after which A1 steps over the end line and out of the court apparently for the purpose off avoiding a penalty for being in the lane for more than 3 seconds.

RULING: Technical foul. At has left the court for

an unauthorized reason.

1964-65 Basketball Publications Corrections

Rules Book: There are no corrections. Case Book: 322D. Play—The third sentence of the ruling should read, "If missed no substitute try is awarded.'

368C. Play-The second sentence of the ruling should read, "In (a), 2 points are awarded A1." Delete the third sentence. (Refer to 451L. for confirmation of ruling.)

468C. Play—The player in the ruling is A1 rather

than A2.

#### THE WRESTLING CODE

The following code for wrestling coaches was developed by the Wrestling Committee of the National Federation of State High School Athletic Associations.

To maintain the national interest in interscholastic wrestling, and to continue to retain the high standards in this sport, I, as a wrestling coach, pledge to abide by the following rules:

1. To consider the health and welfare of the wrestler as my first responsibility, and I will never ask him to do anything which may impair his health.

To discourage excessive weight reduction. This procedure is frowned upon and adversely reflects on the coach.

3. To keep all equipment including the

mats clean, safe and attractive. 4. To carefully match wrestlers of equal weight and size in practice bouts.

5. To not accept a position as wrestling coach unless I can do justice to the sport.

6. To attend clinics and keep up to date on wrestling techniques and rule changes.

7. To explain all illegal and dangerous holds and demonstrate how to block them. Discourage the use of all "questionable" holds and tactics.

8. To have all wrestling groups well organized and thoroughly conditioned before

wrestling in competition.

9. To coach the wrestlers to accept cour-

teously the official's decisions.

10. To remember in a crowded room to start the wrestlers down on the mat, as studies indicate that most accidents occur when contestants are working on their feet and fall on others on the mat.

11. To seek first aid for all mat burns

immediately after class.

12. To be aware that the wrestlers acquire most of their concept and philosophy of the sport from the coach. He must, therefore, conduct himself above reproach at all times.

13. To teach the wrestler to want to win

fairly and squarely.

14. To remember that all wrestlers have parents who trust you with their training and care. Don't ever lose that trust.
