Letter From the Commissioner

To the District Tournament Manager:

Will you please refer to your K.H.S.A.A. booklet which gives rules and regulations governing basketball tournaments. You should familiarize yourself with these rules, found on pages 30-38. Your special attention is called to the second paragraph of Tournament Rule VI-A-3, relative to the enrollment of your district coaches in the Kentucky High School Coaches Association.

The forms for your various reports are self-explanatory. The report of games should be mailed to the manager of the regional tournament not later than Monday, March 10. Send your financial report, your checked eligibility lists, and the second copy of the report of games to the Commissioner as soon after the tournament as possible. For your convenience, the following check list is given:

1. Invite member schools to your tournament AT ONCE, reminding each school to send each other member school in the district a COMPLETE preliminary list of players on or before February 1, and to send you THREE copies of a final list one week prior to the district tournament. See Rule VIII.

2. Announce the time of drawings in your letter. See Rule IX.

3. At your meeting, conduct the drawings and select the officials. The state plan for division of tournament receipts is recommended. If any other plan is used, a majority vote of the participating schools must be obtained.

4. Your attention is called especially to the last two paragraphs of Tournament Rule V-A, and to Tournament Rule V-C.

5. The following procedure has been established by the Board of Control in the selection of tournament officials under authority given in Tournament Rule V-A: (a) Each school represented at the meeting may submit the names of one or more officials. There shall be a minimum of eight names on the list of officials to be voted on. NO NAME SHALL BE MARKED OFF THE LIST. (b) Each school representative shall rank eight officials in the order of his preference, the first choice being assigned eight points, the second seven points, etc. (c) The tournament manager shall communicate at once with the highest ranking official or officials in the order of their rank. If the official who is selected can not be reached within one hour of the time of his selection, or if he is not available, the tournament manager shall attempt to employ the next official or officials on the list in the order of their selection. If the tournament manager attempts to contact the official by telephone and there is no answer, the manager should check with the operator for a possible change in the official's number. (d) If two officials are tied on points, the highest ranking official shall be determined by flipping a coin. (e) If none of the officials on the list is available, the tournament manager shall have the sole responsibility of securing an official or officials for the tournament.

6. Tournament Rule XV says: "The Board of Control is authorized to select, standardize, and purchase trophies for all district and regional tournaments and the cost of these trophies shall be borne by the respective districts and regions." The Board has contracted with The Hunt's Athletic Goods Company, Mayfield, Kentucky, to supply all of the official K.H.S.A.A. district first place and second place basketball trophies for the 1969 tournaments, each trophy complete with the Association seal and engraving. Your trophies will be shipped to you prior to March 1.

7. It is the responsibility of the tournament manager to secure adequate police protection.

8. THE BOARD OF CONTROL HAS RULED THAT

NOT MORE THAN TWELVE PLAYERS MAY BE IN UNIFORM FOR ANY ONE TOURNAMENT GAME, AND THAT OTHER SQUAD MEMBERS SHALL NOT BE ALLOWED TO PARTICIPATE IN WARM-UP EXERCISES, THIS BEING IMPLIED IN TOURNAMENT RULE XI.

9. Please ask your officials to designate the goals prior to the warm-up time for each game.

10. You will receive three copies of a final eligibility list from each school. Have one of these checked by the coach of each competing team, before his team plays, for the twelve players he will use in each game. Use only one list for checking players on each team since the other two copies may be needed by the regional and state tournament managers. Send the Commissioner all of these checked copies with your other reports. Send the two unchecked copies of eligibility lists of the winner and runner-up to the manager of your regional tournament, along with one copy of your report of games, not later than March 10.

11. It has been ruled that the 2:00 o'clock mentioned in Tournament Rule IV-B may be considered Eastern Standard time or 1:00 P.M. CENTRAL STANDARD TIME. This information concerning the starting time of the regional meeting should be given to your winner and runner-up.

12. Send Secretary Ohr of the Kentucky Coaches Association the list of district coaches to be enrolled in his organization and remittance for these, and send the Commissioner the various reports mentioned above as soon as possible.

13. Tournament Rule VI-A-3 provides that the district representative to the annual meeting may be allowed for expenses an amount not to exceed \$50.00. Since this is a maximum and not necessarily a fixed amount, the delegate should be asked to submit an estimate of the cost of his lodging, transportation, and meals because of his representing the district at the annual meeting.

Sincerely yours,
Ted Sanford, Commissioner
K.H.S.A.A.

Attention!

The Board of Control now has the authority to set the fees for district tournament officials. The following regulations for 1969 have been set by the Board: "The officials shall receive a fee of \$25.00 per game and a transportation allowance of 10c per mile for all necessary travel. In the event it is necessary for the official to remain overnight at the tournament site, he shall be paid an additional \$20.00 per day for lodging and meals."

Attention, Principals!

With the baseball season not far away, the following information should be timely:

1. Since the registration of baseball officials is now a requirement, the intent of this rule would be that only K.H.S.A.A. registered umpires may be used in baseball games.

2. The requirement under By-Law 30 that all coaches and assistant coaches shall be members of school faculties, with a work assignment of at least three class periods, applies to baseball. No person who does not comply with this rule should occupy a coacher's box during a baseball game.

3. Rules clinics for umpires will be held at numerous sites in the state on March 23. The sites will be announced in the March issue of the ATHLETE. Principals are urged to request their baseball coaches to attend these meetings.

Basketball Questions

EDITOR'S NOTE: These interpretations of the rules of the National Basketball Committee of the United States and Canada do not set aside nor modify any rule. The rulings are made by the National Federation of State High School Athletic Associations in response to situations presented.

Clifford B. Fagan, Committee Secretary

19. Play: A1 completes his dribble. He then places (sets) the ball on the floor. After simultaneously removing both hands from the ball so that it is out of his control, he regrasps the ball and picks it up from the floor.

Ruling: Violation. Double dribble. The ball is awarded to team B at the nearest out of bounds spot.

20. Play: A field goal attempt lodges in basket support. The ball is declared dead and the teams prepare to jump at the near free throw line with A1 and B1 being the jumpers. A charged time-out is requested and granted. During the charged time-out, S6 attempts to be substituted for A1, who had intended to be a jumper.

Ruling: Legal. The substitution is accepted. S6 has legally entered the game and any person in the game may participate in the jump. There is no requirement that the person, A1, who originally was preparing to jump must actually be in that position when the ball is to become alive.

21. Play: Following a jump ball in the center circle, the tapped ball is caught in A's front court by A2. He dribbles toward his basket and then reverses direction and continues so that the ball is dribbled into the back court.

Ruling: Legal.

22. Play: A player, who has been holding the ball, places the ball on the floor and gives the "T" signal to the official in requesting a time-out.

Ruling: On the basis of rules coverage, the player is required to make his request for a time-out only when the ball is dead or in control of a player of his team. The definition provides that a player is in control when he is holding a live ball or dribbling it. Since A1 is neither holding the ball nor dribbling it at the time he asks for a time-out, the rules do not authorize the officials to grant a time-out in the situation presented.

23. Play: A1 strikes B1. B1 almost simultaneously draws back his arm and clenches his fist as if to strike A1 but does not swing at him.

Ruling: A1 is disqualified. Flagrant personal foul committed by A1 for which B1 will be awarded two free throw attempts. B1 may be assessed a technical foul for baiting an opponent or unsportsmanlike action. However, it is a matter of judgment on the official's part as to whether B1 was assuming a protective position or an aggressive one. As related in the circumstance above, unless there were additional factors, it is quite likely that the action of B1 would be ignored since it is clear that the whole situation was provoked by A1. If B1 is charged with a technical foul, any member of team A could attempt the free throw after which the ball would be put in play by a jump between any two opponents in the center circle.

24. Play: What are the standards which the referee must use in determining whether a player will be permitted to wear certain equipment?

Ruling: There are four criteria which determine the legality of player equipment. First, any equipment which, in the judgment of the official, is dangerous to other players may not be worn. In this respect, elbow, hand, finger, wrist or arm guard, cast or brace made of sole leather, plaster, metal or any other hard substance shall always be declared illegal "even though covered with soft padding." Thus, the rule does not permit that this provision be set aside. The prohibition of the use of hard substance material does not apply to the upper arm, shoulder, thigh or lower leg if the hard material is appropriately padded so that in the judgment of the referee it is not hazardous to other players. It will be noted that the listing of equipment which is always illegal is not inclusive. It cannot list every item which is not permitted. The generalization is required since the official's judgment is necessary. No list could include every item that some player might desire to wear. The general category, in addition to those listed, prohibits "any other hard substance" from being legal. The second criterion provides that any equipment is legal without respect to whether or not it is hard if the equipment is dangerous to other players. Equipment which could cut or cause an opponent to have an abrasion is always illegal and, therefore, is prohibited. The third standard provides that "any equipment which is unnatural and designed to increase the player's height or reach, or to gain an advantage, shall not be used." The official is given no leeway here and judgment is not required. The fourth criterion provides that equipment used must be appropriate for basketball. In this sense, football face masks and helmets are not acceptable. The traditional basketball knee brace may be worn if it is properly covered. A protector for a broken nose, even though made of hard material, is permissible if it does not extend so as to endanger other players, if it is not sharp and if it has no cutting edges. Eyeglass protectors are considered appropriate equipment for basketball provided they meet the qualifications for legal equipment, including the fourth criterion.

25. Play: A1, whose team is behind in score, is holding the ball without opposition in the mid-court area.

Ruling: After approximately 15 seconds, the trailing official should warn team A for lack of action. Either the referee or the umpire is authorized to issue this warning. In virtually all systems of officiating, the trailing official is responsible for the 15-second count and, therefore, is the logical official to give the warning.

26. Play: A1 sets a screen behind stationary B1 so close that when B1 moves backward, B1 contacts A1 before B1 takes a normal step. The contact is not rough.

Ruling: A1 has committed a foul for blocking because he was in an illegal position (too close to B1). The severity of the contact is not a factor. In contact ensues as a result of a screener being in an illegal position, the foul is on the screener. A screen behind an opponent, to

State Swimming Meets

The 1969 Class AAA State High School Swimming Meet will be held at the Plantation Swim Club pool, Louisville, on February 21-22, the Class AA meet at the University of Kentucky pool, Lexington, on March 21-22. The meet for girls will be held on Friday at each location, beginning at 1:00 P.M.; the meet for boys on Saturday, beginning at 9:00 A.M.

Class AAA will include those high schools with an enrollment of 900 or more (grades 10-12), and Class AA will include those schools with an enrollment of less than 900. All male or all female schools with an enrollment of 450 or more are placed in Class AAA. General regulations concerning the meets appear in the K.H.S.A.A. booklet. All rules appearing in the 1969 scholastic section of the N.C.A.A. Swimming Guide will be followed unless there is some difference between these regulations and those adopted by the Board of Control. In such an event, K.H.S.A.A. rules will prevail.

Only those swimmers who qualify for the finals will be given expense allowances for transportation, lodging, and meals.

Schools sponsoring boys' teams in swimming are: Atherton, Beechwood, Boone County, Bryan Station, Campbell County, Dixie Heights, Fern Creek, Fort Knox, Franklin County, Harrison County, Henry Clay, Highlands, Hopkinsville, Kentucky Military Institute, Lafayette, Louisville Country Day, Model, Murray, Newport, Newport Catholic, Paducah Tilghman, Paul G. Approved and Certified Officials

Since the list of Approved and Certified officials appeared in the January issue of the ATHLETE, three additional officials have qualified for the higher ratings. They are: Paul Boyles and Howard E. Gardner, Certified; Ronald R. Dixon, Approved.

Correction

In the list of schools appearing in the January issue of the ATHLETE, the Covington Latin High School was listed incorrectly in Basketball District 35. The school is in Basketball District 34.

Minutes of Board Meeting

The Board of Control of the Kentucky High School Athletic Association met at the Kentucky Hotel, Louisville, on Saturday morning, January 25, 1969. The meeting was called to order by President Preston Holland at 8:30, with all Board members, Commissioner Theo. A. Sanford, and Assistant Commissioner J. B. Mansfield present. The invocation was given by Foster J. Sanders.

Ralph C. Dorsey moved, seconded by W. H. Crowder, that the reading of the minutes of the December 21st meeting be waived since the members of the Board received copies of these minutes. The motion was carried unanimously.

Ralph C. Dorsey moved, seconded by Foster J. Sanders, that the following regulations concerning the fees for district and regional basketball tournament officials be adopted: The district tournament official shall receive a fee of \$25.00 per game, the regional tournament official a fee of \$30.00 per game. The transportation allowance shall be 10 cents per mile for all necessary travel. In the event that it is necessary for the official to remain overnight at the tournament site, he shall be paid an additional \$20.00 per day for lodging and meals. The motion was carried unanimously.

Chairman Don Davis of the Football Playoffs Committee made a report for his Committee. He stated that a questionnaire concerning a possible change in the football regulations relative to determining the sites of semi-final games in the playoffs would be sent by the Committee to the principals of K.H.S.A.A. member schools involved, and that the Committee at the March meeting of the Board will make recommendations concerning plans for breaking Dickinson System ties and breaking ties in game scores.

There was a discussion of new proposals to be submitted by the Board at the forthcoming 1969 Delegate Assembly. Don R. Rawlings moved, seconded by James T. Dotson, that the following proposals be submitted to the 1969 Delegate Assembly:

"Proposal I—Add the following paragraph to By-Law 36: 'The Kentucky School for the Blind, in competition with similar schools in other states, may compete under the eligibility rules of the North Central Association of Schools for the Blind.'

"Proposal II—Amend By-Law 7-2 to read as follows: 'Any student using insulting language to another player or to an official in any interscholastic contest, or who has been ruled out of such a contest because of foul tactics, shall be disqualified from athletic competition until reinstated by the Commissioner. The name of the player shall be reported immediately to the Commissioner by the principal of the school which that player attends. When an official disqualifies a player, he shall report the disqualification to this principal or his representative. If the Commissioner finds upon investigation that the offense was sufficiently serious, the offender shall be permanently disqualified.'

"Proposal III—Amend By-Law 1-7-a to read as follows: 'If any school plays an ineligible player, when the facts were available and could have been known upon such investigation as a principal is expected to make in the case of each of his players, that school shall be suspended from the Association or otherwise penalized.'

"Proposal IV—In the last sentence of By-Law 8, omit 'softball' and 'bowling,' adding 'gymnastics,' 'wrestling,' and 'rifle marksmanship.'

"Proposal V—Amend the second paragraph of By-Law 29-3 to read as follows: 'The head coach in football, basketball and baseball shall attend one clinic in the sport involved.'

"Proposal VI—To the last clause of By-Law 29-4-b,

The Flying Dutchman

The year is 1949 and a kid, crippled by polio, has just won a wheelbarrow race in a playground track meet running on his hands; a week later the same lad pitched and won a softball game as he sat on the pitcher's mound because his paralyzed legs made it impossible for him to stand. That's the day the Flying Dutchman projects were born. The thought occurred that, if little Bobby Kirchdorfer could overcome such a great physical handicap to engage in sports, he could inspire others to do likewise—so it was that Bobby Kirchdorfer became Kentucky's first Game Guy of the year twenty years ago and hundreds of boys and girls since have followed this example and gone on to hold high positions in business, law, education and recreation.

In 1950 Oral Miller of Ashland, a blind boy, was our Game Guy. The last time I heard from Oral he was practicing law in Washington, D. C. This program interested Kentuckians and from every section of our state coaches, preachers, teachers and just about every other field got behind the Dutchman's movement to recognize achievements of the physically handicapped. Not all boys nominated could be the Game Guy of the year but every youngster became a winner of the lionheart award as soon as he joined the program.

The following letter from Dick Coop emphasizes just how much this Kentucky High School Athletic Association's program impressed him:

"Dear Mr. Vettiner:

"I am not certain if you will remember me or not, but I am certain you do remember my father, Paul Coop of Campbellsville. If you don't remember me, let me refresh your memory a bit. You sent me a Flying Dutchman Lionheart Award Lapel Pin when I was a sophomore at Campbellsville High School. Although I never on the "Game Guy of the Year Award," I shall always remember the effect that receiving the lapel pin had on my self concept. I have talked to other boys who received them, and they, too, echoed my feelings.

"While coaching at Glasgow High School in 1964-65, I recommended David Fant for the Game Guy Award, and when he received his lapel pin he was one of the happiest youngsters I have ever seen.

"I am presently an assistant professor of educational psychology at the University of North Carolina at Chapel Hill. I left Glasgow to finish my doctorate at Indiana University and after receiving my degree I came to UNC. I am wondering if you would send me any information you have on the Game Guy program you have going in Kentucky, so I could propose an adoption of a similar program here in North Carolina to Simon Terrell, the executive secretary of the North Carolina High School Athletic Association. I have not talked to him about this program yet because I wanted to have some material to present to him when I propose this. I also thought that we might even use the same name you have used, if you do not mind. I personally feel that this program should spread to all states in the Union. Any material you have on the past history of the winners of the Game Guy Award—their physical handicaps, etc.—would help.

"Let me close by saying that the more I study the psychology of the human organism, the more I understand the value of your Game Guy Award, both in terms of motivation and self concept principles.

Sincerely yours,
Richard H. Coop
Assistant Professor of
Educational Psychology"

Dick Coop's letter makes the year of 1969 for this Dutchman. Every piece of information relative to the Flying Dutchman's projects has been sent to Dick. Along with this material goes a Corn Cob Pipe of Honor Award for the unselfish service he is rendering.

Readers of this column may like to see the complete picture painted in the K.H.S.A.A. sports program during the 1949-69 period.

Besides the Game Guy Program for the physically handicapped there are the Abou Ben Adhem awards which are sent to schools and community organizations which promote friendship between communities and hospitality at high school games. Earl Driskell, Jr., one of Kentucky's outstanding basketball officials, makes a recommendation for an Abou Ben Adhem award as follows:

"Atherton High School should have an Abou Ben Adhem citation because its coach, Gene Minton, reflected credit on his school by sportsmanlike acceptance of a close decision the officials made in his Seneca game, which meant defeat for his team." Earl says that Gene Minton's gentlemanly actions caused good relations between the spectators and players. May his tribe increase! Earl closes by saying, "Thanks for a job you have done well for twenty-seven years as Dean of Kentucky's officials." Many such letters keep coming to the Dutchman and my cup is, indeed, running over.

Another of the Dutchman's projects, which he closes out during this 1968-1969 sports season, is his School for Basketball Officials held annually in Lexington, while still another are those annual clinic tours which have now become history for this guy. In all, your interpreter conducted 409 basketball clinics for Commissioner Ted Sanford. The last Flying Dutchman project being closed out in May is this column bearing the name more Kentuckians know him by than the one he was born with in Schnitzelburg—The Flying Dutchman.

There you are, Kentuckians—a lifetime of projects aimed at happiness for others and good will for everybody. Nobody was ever criticized in my columns—only praised. We always looked for the good in people and wrote about this. And, do you know who is happiest of all because of all these Flying Dutchman projects? Me.

BOARD MINUTES

(Continued from Page Three)

add 'or six baseball;' and to the last sentence of By-Law 29-4c add 'and/or twelve first team high school baseball games.'

"Proposal VII—In Article IX, Section 1, of the Constitution, change 'March 20' to 'March 1.'"

The motion concerning the proposals was carried unanimously.

Don Davis moved, seconded by James T. Dotson, that Basketball Rule I be amended by adding the following: "Special permission may be given by the Commissioner for the final district or regional tournament game to be played on Saturday afternoon." The motion was carried unanimously.

James T. Dotson moved, seconded by Don Davis, that the Commissioner be authorized to set up for 1969-70 a program for the registration and training of Wrestling officials. The motion was carried unanimously.

Don R. Rawlings moved, seconded by James T. Dotson, that all bills of the Association for the period beginning December 1, 1968, and ending December 31, 1968, be allowed. The motion was carried unanimously.

There being no further business, the meeting adjourned.

BASKETBALL QUESTIONS

(Continued from Page One)

be legal, must be set at a minimum distance of a normal step.

27. Play: While A1 is in a throwing motion for a field goal or for a free throw attempt, B1 pushes A2.

Ruling: A foul by B1 during a try by A1 does not cause the ball to become dead immediately.

28. Play: A1 is dribbling in his front court. B1 bats the ball so that it strikes the foot of A3 and then the ball rolls into the back court of team A, where A1 recovers it.

Ruling: Violation. The ball is awarded to team B at the nearest out of bounds spot. The bat by B1 does not terminate control by team A.

29. Play: A1 is charged with his fifth personal foul. Prior to completing the entry of A6, the replacement for A1, the coach of team A calls his team over to the side line to advise it.

Ruling: Legal. Team A must complete the substitution of the replacement within one minute, but until the substitution is completed, the coach may leave the bench and instruct his team at the side line. Team members may not leave the court. Officials will put the ball in play immediately after the replacement has entered the game, even if less than the minute has been consumed.

30. Play: A5 is personal fouled flagrantly by B1. After A5 has taken one free throw attempt awarded him, it is discovered A5 was disqualified earlier in the game.

Ruling: The first free throw attempt is over. If A5 made the goal, it counts. A5 is replaced and the second free throw attempt will be made by his substitute. Any member of team B may attempt the free throws resulting from the flagrant technical foul assessed A5. After all free throws have been tried, the ball is put in play by a jump at the center.

31. Play: A1 is inbounds when he passes toward a side line. The pass is: (a) simultaneously touched by A2 and B1, both of whom are on or outside a boundary; or (b) caught by B1, who is out of bounds.

Ruling: In (a), jump ball in the nearest circle between A2 and B1. In (b), the ball is awarded to team A at the spot out of bounds where B1 touched the pass of A1.

32. Play: A1 turns his back to his opponent and holds the ball through the plane of an out of bounds boundary. B1, while attempting to reach the ball, steps on or over the boundary and then touches the ball.

Ruling: B1 causes the ball to go out of bounds. The ball is awarded out of bounds to team A.

33. Play: A1 is in the game but is not recorded in the score book.

Ruling: If A1 leaves, there is no penalty. If he stays in the game, his name must be entered and cost him a technical. Any field goals he scores may be credited to the team. If he commits a foul, his name must be put in the book and a penalty will be assessed.

34. Play: A1 is awarded a bonus penalty. On the first attempt, both B1 and A2 are in the lane too soon and: (a) the ball goes through the basket; or (b) the ball does not go in.

Ruling: In both (a) and (b), the violation by A2 causes the ball to become dead; hence, no point can be scored. Neither a substitute throw nor a bonus throw is awarded. The ball is put in play by a jump between any two opponents at the free throw line.

35. Play: A1 throws at B's basket and then catches the rebound and dribbles.

Ruling: Double dribble. A cannot make a try at B's basket, and, therefore, A1 has not, by definition, given up control of the ball. Obviously, if A1 were confused and had intended to throw for a goal, not realizing it was the wrong basket, the violation would usually be disregarded.

36. Play: A1 receives the ball while standing in his free throw lane with his back toward his basket. After receiving the ball, he simultaneously starts to pivot and starts his arm movement, which will end in a try for goal. As he steps, he is pushed by B1, but A1 continues his pivot and the release of the ball for a successful goal.

Ruling: Basket counts, after which one free throw is awarded.

37. Play: A1 is driving in for a try when B1 intentionally pushes him in the back: (a) before A1 receives the ball; or (b) after A1 receives the ball and has started his try.

Ruling: (a) two free throws. The goal does not count if action continues and the ball goes in the basket. (b) two free throws and, in addition, the goal counts if successful.

38. Play: Players attempt to take positions along the free throw lane: (a) when the throw is one of a false double foul; (b) when there is to be a multiple throw with the first one for a personal and the last for a technical foul; or (c) when the multiple throw order is reversed.

Ruling: In (a) and (b), the official should order the players away from the lane. In (c), alley number one on each side of the free throw lane must be occupied during the second throw and other lane spaces may be occupied.

Comment: Alleys number one on each side of the free throw lane must be occupied during a free throw which is awarded for a personal foul, other than when a false double foul was involved (and by implication, a false multiple foul when the last foul is technical, or when the ball is to be dead after the last throw). It is not compulsory for players to occupy the other spaces along the free throw lane, although they may.

Major Activity of the 1969 Football Rules Committee

Atlanta, Georgia, January 9-10, 1969

Note: This is a brief summary of the more important modifications to football rules authorized by the National Alliance Rules Committee during its 1969 meeting.

CHECK-UP ON 1968 CODE: Questionnaires were mailed to coaches and officials through state association offices, the National Junior College Athletic Association and the National Association of Intercollegiate Athletics. 10,000 forms were distributed and in excess of 6,300 were returned and tabulated. The complete minutes contain a summary of the vote on each of the listed items and a tabulation of the significant comments which were requested on the back of the questionnaire. The returns indicate a very high degree of satisfaction with the changes which had been made for the 1968 season. Last season's provision for using soft, flexible pylons at the intersections of the side lines and goal lines, was approved by more than 95% of the respondents, as was the rule specifying that interrupted games shall be continued from the point of interruption when there were no state association standards covering such a situation. Prohibiting the use of mechanical visual aid equipment for coaching purposes any time during the game was endorsed by a margin of 8 to 1. 4,374 respondents favored elimination of the short free-kick, while 1,844 opposed the change. However, the provision for first touching of a free-kick before it had crossed the receiver's free-kick line or been touched there by a receiver, was approved by nearly a 9 to 1 margin. Item 6, prohibiting a receiver who signals for a fair catch from blocking until the kick is ended, received approval of 11 of 12 returns. The specification that a penalty for a foul committed during a live ball, is either automatically accepted or declined when it was followed by a foul by the opponents after the ball had become dead, was favored by 5,384 respondents compared to 559 voting "no." More than 87% favored the change which restricted all ineligible to the expanded neutral zone, until a pass which crossed the line of scrimmage was in flight. The 1968 revision providing a penalty for failure to properly wear equipment continuously, was also favored by a margin of approximately 8 to 1. Even though the action concerning the automatic acceptance or declination of penalties for a foul during live ball followed by a dead ball foul was overwhelmingly approved, the committee concluded the 1968 revision did not completely eliminate the inequities and for the 1969 season a revision was adopted which will eliminate those inequities.

Clipping continues to be a major problem. Slightly less than half of the respondents indicated it is a matter of concern. 2,949 indicated that the failure of officials to observe all of the action when calling clipping was a significant factor. This matter was called to the attention of both coaches and officials as a point of special emphasis for 1968. The next most prevalent problem, as indicated by the questionnaire results, concerned the coverage during passing situations. Slightly more than one-third of the men answering the questionnaire indicated dissatisfaction with such coverage. The next ranking problem was that of determining the eligible pass receivers in varied formations. Because of the greater number of forward passes from a variety of formations, in recent seasons, the defense has found it increasingly difficult to determine eligible pass receivers, particularly when there is shifting from the backfield to the line of scrimmage. Other items which were noted as problems included the movement by the quarterback immediately prior to the snap, and the contacting of the passer after the pass had been thrown.

No specific action was taken by the 1969 committee to affect these problem areas. Roughing the passer has been the subject of comment in the points of special emphasis as well as the subject of a teaching unit included in the annual football rules meeting folder.

COMMITTEE REPORTS: During the course of each football season, a number of suggestions for improving the National Alliance Code are submitted to the National Federation office. Each of these, along with recommendations from committee members and Parts II and III of the National Alliance Football Questionnaire, are assigned to one of the five standing subcommittees for consideration. Before any matter of rules revision may be brought before the National Alliance Football Rules Committee, it must have been considered in one of the subcommittee meetings and approved for presentation to the Committee-of-the-Whole or be included as an item on the questionnaire. Each subcommittee met prior to the first session of the Committee-of-the-Whole. Meetings were scheduled so that committee members were privileged to attend two different sessions. During the first general session, reports from the various standing subcommittees were presented to the Committee-of-the-Whole and provided a wealth of material upon which to base consideration during the 1969 meeting. A complete copy of each of the reports from the Equipment, Injury Data, Game Administration, Research and Statistical, and Safety Committees, are included in the complete minutes.

AUTHORIZED RULES REVISION FOR 1969:

1-2-7: The note following this article will be changed to state that the use of goals with a distance of 23'4" between the uprights above the crossbar is optional for the 1969 and 1970 seasons, and will be mandatory in 1971.

1-5-3d: A note will follow this article indicating that beginning with the 1971 season, the maximum length of football shoe cleats will be 1/2".

2-2-1: The definition was revised to provide that contact is required in blocking. The new definition will state that blocking is obstructing an opponent by contacting him with any part of the blocker's body.

2-4: The adoption expands the area in which blocking from the rear is legal. It consists of a rectangular area extending laterally 4 yards on either side of the spot of the snap and 3 yards behind each scrimmage line.

3-5-1; 3-5-3; and 3-5-4: These articles will be changed slightly to authorize a player or a substitute to request a time-out at the direction of a coach when the coach feels there is a possibility a rule may have been misinterpreted or misapplied. Following the request for time-out for this purpose, the officials will confer. The referee may then, if he elects, discuss the matter with the coach at the side line directly in front of the team box. The coach is not authorized to come on the field. The change will provide that if an official had erred, the mistake will be corrected and the time-out charged to the officials. However, if the coach's contention was wrong and there is no correction to make, the time-out will be charged to the team unless it has no time-outs remaining, in which case it will be penalized for delay of game. The request for consideration may be made only for those matters which involve the misapplication or the setting aside of a rule. The judgment of an official is not to be questioned. No request will be considered unless it is made before the ball is put in play following the down during which the questioned call occurred.

3-6-2: A slight reordering of the article is necessary to correlate it with the changes in 3-5. The present item (c) will be designated as (d) and a new item (c) will be inserted. The revision will provide that it is delay of game when a coach asks for a conference and there was no error, and his team had no time-outs

remaining.

3-7-1; 3-7-2: These articles have been revised slightly for purposes of clarification. Article 1 has been divided to form a new article 2 and article 2 has been changed to 3. A new article 4 will be added to provide that when a substitute or a replaced player is an excessive man and clearly not participating in a play, it is illegal substitution. (Another section under Rule 9 will provide that participation by excessive men constitutes a form of illegal participation and carries a 15-yard penalty.)

4-2-1: An editorial change in this article will specify that when a foul occurs immediately prior to a snap or free-kick, an official shall cause the ball to remain dead.

4-3-2: The article will be rewritten to establish the out-of-bounds spot when a player leaps from the field of play and lands out-of-bounds in advance of where he crossed the out-of-bounds line.

6-1-1: A sentence will be added to the article to permit the use of a punt as a free-kick following a safety.

7-4-3: The editorial committee was requested to review the present coverage relative to a player leaping to catch a backward pass or fumble and landing out-of-bounds.

7-5a: The classification of forward passes will be revised slightly to indicate that it is an illegal pass whenever a pass is made from a point which is beyond B's line of scrimmage. This point corresponds to the placement of the down marker and is the point of reference generally used by officials in determining whether a pass was thrown before the player crossed the line.

7-5-6: Items (a) and (b) will be rearranged and revised for clarity. There is a differentiation between pass interference and an ineligible illegally downfield. A new article (7-5-7) will be included restricting ineligible A players to the neutral zone until a pass which crosses the line is in flight. The penalty for both fouls remains the same.

8-3-1: A change in the article will specify that the try-for-point will be attempted from the scored upon team's 3 yardline.

8-3-3: A companion change to 8-3-1 provides that during a try-for-point, team A may score 2 points from what would ordinarily be a touchdown and 1 point for a field-goal or a safety by B.

8-3-4: The article will be expanded to provide that when there is a foul by B during a successful try, team A will have the choice of accepting the penalty and replaying the try from the 1/2 yardline (half the distance) or of accepting the result of the play. (The penalty for a foul by B during a successful try will continue to be administered on the succeeding kick-off.)

8-5-4: A sentence will be added to provide that a free-kick following a safety may be either a drop-kick, place-kick, or punt.

9-3h: The requirement that a player or his team must be warned before a foul for unsportsmanlike conduct may be assessed when a player fails to properly wear the required equipment continuously, will be deleted.

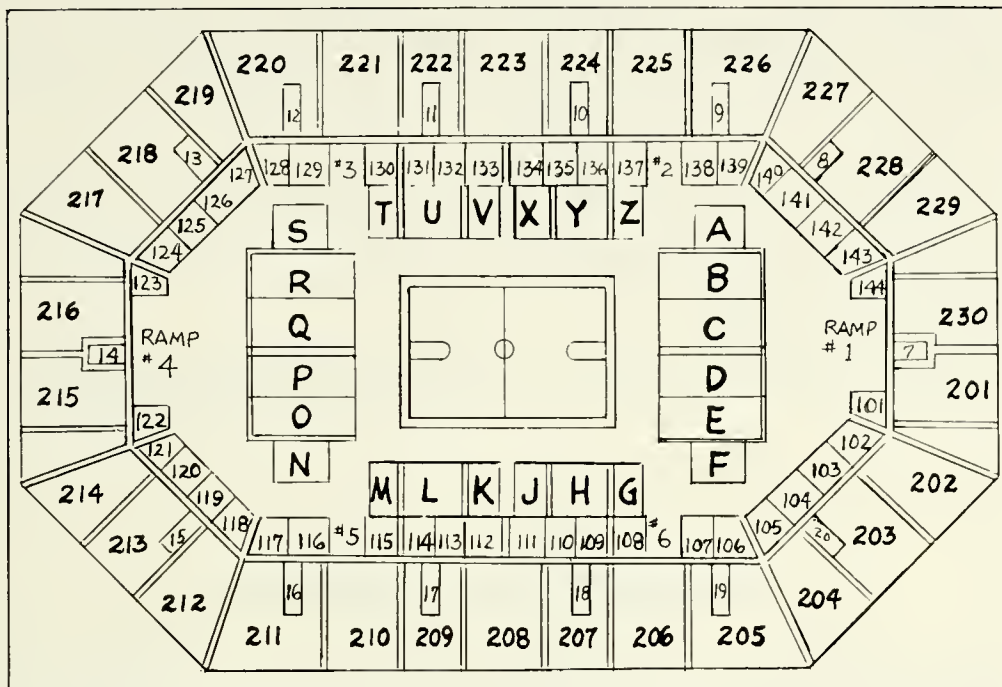

9-3i: The list of examples of unsportsmanlike conduct has been expanded to include a player intentionally kicking or throwing the ball from the playing field following a touchdown.

10-1-2: The article providing for automatic acceptance or declination of penalties has been deleted.

10-2-1: The administration of penalties when there are fouls by both teams (except those that are simultaneous dead ball fouls and live ball fouls before change of possession) will be in the order of occurrence and measured separately.

ENFORCEMENT DIAGRAM: The present enforcement diagrams will be replaced with revised diagrams and explanations. The new material will be designated as the "All But One" principle. The principle involved

Seating Chart of Freedom Hall

will not be disturbed. The new diagrams to be used in the 1969 edition of the Rules Book were included in the 1968 meeting folder and the editorial comment will be very similar to that which accompanied those diagrams.

SIGNALS: Two new signals were established. First, is a signal indicating first touching of a kick. It was recommended that the signal for this be tossing the cap to the spot of the first touching. The use of such a signal would be advantageous inasmuch as it would also designate the alternate spot from which the ball may be put in play. The second signal which was suggested was to use signal No. 15, that is, the referee patting the top of his head, to designate a man illegally downfield. This would be followed by a loss of down signal. Because the Officials Manual is published on the even numbered years, these two new signals will be included for the first time in the 1970 edition.

CASE BOOK SITUATION:

Interpretations for several listed situations were requested and authorized. These will be included in the 1969 edition of the Case Book. The following specific interpretations were considered:

1. **FOOTBALL SHOE:** The definition of a shoe is that it shall be made of a material which covers the foot (canvas, leather or plastic) attached to a firm sole of leather, rubber or composition material which may have cleats which comply with the rules, or which may be cleatless. Such a shoe offers participants protection and is the reason for the requirement in the National Alliance Code. Items which do not meet the requirement are ballet slippers, slipper socks, heavy socks with laces inserted, and tennis shoes cut so that protection is reduced.

2. **OUT-OF-BOUNDS:** Discussion of several situations in which a runner leaps from the field of play with the ball and aights out-of-bounds in advance of the spot where he crossed the side line, will be included. Plays 1 and 2 of the 1964 Early Season Questions—Installment

I were suggested.

3. **PARTICIPATION OF AN ILLEGAL SUBSTITUTE:** A Case Book situation will be developed to correlate rules 7-2-4 and 9-3e, to explain the differences between using a substitute to deceive and participaiton by an illegal substitute. It was the intention of the rules committee that both of these fouls should carry a 15-yard penalty because of the seriousness of the infractions.

POINTS OF SPECIAL EMPHASIS: Each year, the National Alliance Rules Committee specifies certain areas which are to be given special attention by all those responsible for teaching football rules. The 1969 committee was no exception. Four items have been designated to be placed in this category for this year.

1. **GORING AND SPEARING:** The committee directed the editorial committee to repeat, in principle, the material on goring and spearing but to use stronger language in emphasizing that these tactics should be eliminated from the game.

2. **INTENTIONAL GROUNDING:** Guidelines for assisting officials in determining when there is intentional grounding of a forward pass to save loss of yardage will be developed.

3. **PARTICIPATION BY AN ILLEGAL SUBSTITUTE:** When to penalize for participation by an excessive man, whether he is an incoming substitute or a player who has been substituted for, was a matter of considerable concern to the committee. The difference between an illegal substitution and participation by the substitute will be thoroughly explained in the points of emphasis.

4. **PASS INTERFERENCE:** The National Alliance penalty for both offensive and defensive pass interference is both logical and fair. Comments which illustrate and support the National Alliance Code will be included. Special emphasis will be given to the assessment of the penalty authorized when the interference is inten-

Elmer Rides Again

Elmer Kelley of Madisonville, poet laureate of the K.H.S.A.A., who has written poems for the last three state basketball tournaments, now presents his 1969 effort.

Ode to a King

Wait, Oh spring, 'tis not yet time
To melt a stream or send the sun
Across the land to change the clime,
We've points to make, fouls to call,
It's tourney time, in Freedom Hall.

Hold back the jonquil, still the sound
The Thrush would make within his throat
While snow is yet upon the ground.
We've but a while to crown the King,
As March retires in one last fling.

There's madness here, as tensions soar
To heights n'er dreamed within the fight
That stems the brink, and then some more.
A second may decide the fate,
Of ones in time, or those too late.

No matter how the die is cast
When final gun is sounded here
And one remains until the last;
We'll stand and join as thousands sing
Their praises to Kentucky's king!
