## *Alcohol/other drug materials available*

# TARGET Resource Center in operation

Now in its third month of operation, the TARGET Resource Center is helping more and more schools and administrators deal with problems related to use and abuse of alcohol and other drugs by students in the nation's high schools.

Thanks to funding from Southwestern Bell Foundation, the TARGET toll-free telephone number (1-800-366-6667) went into effect September 1 to help schools and individuals obtain information on educational and professional materials available in the field of alcohol and other drug education and prevention.

Kathy Perry, coordinator of the TARGET Resource Center, has been receiving between 10 and 25 calls daily on the toll-free number, with the majority of calls coming from health education teachers at high schools who are seeking to help students in their respective schools.

"In addition to health education teachers, we have received calls from athletic directors and chemical-health coordinators," Perry said. "We have had a number of responses to the parent-communication network program. Some schools have had this program and are seeking to expand it; others have expressed interest in starting a new program in their school."

Perry said that the TARGET Resource Center is a national clearinghouse for education and prevention materials related to alcohol and other drugs. It was designed through the National Federation TARGET program so that the nation's high schools, which already are used to working with the National Federation, could obtain all necessary information on alcohol and other drug education and prevention by contacting one organization.

Printed materials such as brochures, posters, booklets and articles are available through the TARGET Resource Center, as well as information about the latest films and videotapes on alcohol and other drugs. These materials deal with alcohol, marijuana, cocaine, steroids, smokeless tobacco, amphetamines, barbiturates and many others.

"At this point, we are not in the business of rating outside alcohol and drug programs," Perry said. "Our goal is to provide information that we believe will help schools and students cope with alcohol and other drugs. We do not have a drug-abuse counselor on hand; however, we are equipped to suggest toll-free numbers that individuals can call in crisis situations."

In addition to providing education and prevention materials, the TARGET Resource Center maintains a speakers bureau, a list of alcohol/drug organizations and a list of individuals trained by TARGET who can lead workshops and seminars in high schools.

These speakers bureau is a collection of registered local, state and national speakers on alcohol and other drugs. Names of these individuals, as well as a directory of national and state alcohol/drug organizations, can be supplied by contacting the TARGET Resource Center.

Since May, TARGET has been providing leadership training for individuals at the Hazelden-Cork Sports Education facility in Minnesota. The purpose of the five-day workshops is to train participants to assist local schools in planning and implementing chemical-health programs through activities.

As of the September training session, more than 100 individuals have received training and are available to lead workshops. Names and locations of these individuals are available through the TARGET Resource Center.

Other information available through the TARGET Resource Center includes a file of adolescent/youth treatment facilities across the nation, a listing of high schools and junior highs involved in drug testing, a listing of chemical-health programs initiated or affiliated with state athletic/activity associations, and a collection of alcohol/drug education programs in kindergarten through 12th grade.

"We are still trying to improve the Resource Center in order to meet the needs of as many people as possible," Perry said. "If anyone is aware of a good alcohol/drug program or film, we encourage people to share that information with us so that we can share it with others."

One of the more popular resources available through the TARGET program is the "No Matter How You Say It... Say No" videotape.

Thus far, more than 4,000 requests have been received for this 11-minute videotape that was produced by the Department of Health and Human Services in conjunction with the National Basketball Association.

The video focuses on Detroit Pistons' all-star guard Isiah Thomas visiting with a small group of students and telling them how he has dealt with the pressures to use alcohol and drugs. Not only does the video discuss saying "No" to alcohol and other drugs, Thomas related ways that young people can say "No" to alcohol and other drugs and still be accepted by peers.

The half-inch videotape is available through the National Federation's TARGET program at a special rate of \$12, which includes shipping and handling.

Another resource available soon through TARGET will be the pamphlet, *A Pre-Season Meeting*. This publication focuses on the benefits and value of conducting a meeting of parents, students and coaches prior to the season in hopes of avoiding problems related to alcohol and other drugs. Steps for conducting the pre-season meeting are outlined in the publication.

The TARGET Resource Center and leadership training are two of the four components of the National Federation TARGET program.

TARGET also offers a complete alcohol and drug rehabilitation treatment insurance program, which is available to all schools at a group purchase price of \$1 per student. In addition, every high school is receiving four copies of the monthly publication, "On TARGET," which contains the latest information in the field of alcohol and other drug education and prevention.

For more information about any aspect of the TARGET program, contact Kathy Perry at 1-800-366-6667.

## Officers Elected for K.H.S.A.A. Board of Control

Frank Welch

Tom Buchanan

Frank Welch, Principal of Belfry High School in Belfry and Tom Buchanan, Superintendent of the Lyon County Schools have been elected by their fellow K.H.S.A.A. Board of Control members to serve as President and Vice-President, respectively, of the Association for the 1987-88 school year. The two were elected at the annual summer meeting of the Board of Control at Lake Barkley State Park in July.

Frank Welch has been associated with Belfry High School "just about as long as I can remember," he says. He began his career at Belfry 29 years ago as a classroom teacher. After eight years as a teacher, he was named Assistant Principal, a position he held for the next four years. The following year he was named Principal of the Pike County school, a position he has held for the last seventeen years. "I consider it a great honor to serve on the Board of Control, and an even higher honor to be chosen by my comrades on the Board as their President for the next year."

Welch is in his fourth year as a member of the Board of Control representing Regions 15 and 16 and has seen much change during his tenure. "One of our more positive moves has been to petition to include women on the Board of Control," he commented. "We have to realize that a vast portion of our participants, and more so today, even our fellow administrators, are female, and that portion of the populous needs to be represented on our Board." Welch was one of the initiators of the plan to include the female representatives and feels it will do nothing but improve the Association. "I feel the newly elected females, assuming the plan is approved by the court, will face the same adjustment problems as any other new Board member, and once the adjustment is made, they will make a significant contribution to the management of high school athletics."

Another significant event during Welch's tenure as a Board of Control member has been the creation of the Dawahares Kentucky High School Athletic Association High School Hall of Fame. "I am proud and privileged to be President at the time that the Hall of Fame is being formed. It is one of our most significant accomplishments in the history of the Association, and I am also very pleased that the fine people of the Dawahare family who have given so much to the young people, and to all people in Kentucky, have agreed to help financially with this

ambitious project," he commented.

An active observer and advocate of improved officiating in all sports, Welch said he is particularly pleased with recent progress in that area. "In my years on the Board, my fellow Board members and the Association staff have taken great strides to improve the officiating program, both in quantity and quality, and the new breed of official we are getting into the program now are superior in so many ways," he said. "I think this can be directly attributed to our increased emphasis on recruiting and the training of new officials in all sports."

Welch also commented on one other subject. "I think the school administrators, athletes, and the people of Kentucky sometimes fail to realize the bargain that they get in terms of the work of the K.H.S.A.A. staff," he said. "They are an efficient team of workers who accomplish more work with fewer people than any organization of which I am aware, and I know I appreciate that work and think everyone involved in the high school program should appreciate that contribution."

Welch, who received his B.A. from Pikeville College, his M.A. from Morehead, and his Rank I from Eastern Kentucky, is probably most proud however, when it comes to his family. "I have a lovely wife Geraldine who has stayed beside me for all these years, and two very fine daughters, Melody, a recent graduate of the University of Kentucky and currently an Assistant Librarian at Crawford Junior High in Lexington, and Claudine, a senior here at Belfry."

Tom Buchanan, now in his third year on the Board of Control, is no stranger the athletics or to administration. A graduate of Lone Oak High School, he began his career in Texas as a teacher and coach in basketball, football, baseball and track following his graduation and receipt of his B.A. and M.A. from Eastern New Mexico University. He moved on to a high school principalship in Illinois before returning to Kentucky as a teacher and coach in Carlisle and Ballard counties. He then returned to administration as a middle school principal in 1976 in Ballard county before taking the Lyon County superintendent position in 1980. Along the way, Buchanan received his Rank I certification in 1977 from Murray State.

Buchanan says that being on the Board of Control is not always an easy job. "Sometimes you get terribly torn between the things you would like to see done for your home area, and the things you know are the best for the state as a whole," he commented.

"One of my goals," Buchanan continued, "would be to see the Board of Control and the staff become an organization which anticipates the needs of our affiliates and makes changes accordingly, without making all of our changes as a result of reacting to the complaints and problems of our various constituencies."

Buchanan is married to the former Ruth Ann Copeland and they have one son, Todd, and a daughter, Mindy.

**K.H.S.A.A.  
 TRACK AND FIELD  
 COMMITTEE  
 MEETING**

The K.H.S.A.A. Track and Field Committee met at the Association office in Lexington on November 5, 1987. The meeting was called to order by Brigid L. DeVries, Assistant Commissioner at 1:30 p.m.

Members present were: Bro. Borgia, Charlie Ruter, Lyman Brown, Ralph McKinney, Jack Keller, Karen Vanover, Jean Wright and Bill Patton. Members absent were John Gettler, Joe Mahan and Ken Trivette.

Charlie Ruter distributed a Newsletter and reported on the Mason Dixon Games to be held on January 29 & 30 in Louisville at Broadbent Arena which is adjacent to Freedom Hall. The Mason Dixon Committee is coordinating efforts with the KICCCA to help secure more officials for the high school division.

Ms. DeVries then called on Jean Wright to report on the Blue Grass State Games held in August. Mr. Ruter and Mrs. Wright both advised committee members that officials were needed for both the Mason Dixon and Blue Grass State Games. Also, Mrs. Wright said that any suggestions or format changes for the Blue Grass Games would be welcome.

The first item on the Agenda was a discussion of the Regional and Sectional Track Meets and sites. It was noted that the wording on the Regional and Sectional Track Meet Information IV. should be changed to coincide with the Constitution & By-Laws as it relates to Contestant's injuries Bill Patton suggested that in championship meets with less than six teams participating, that the scoring 10-8-6-4-2-1

still be used. This procedure was approved but will not go into effect until the 1989 track season.

A discussion ensued with regard to the importance of the officials checking the weight specifications of each discus and shot put used in the regional and sectional meets. It was suggested that a regulation discus and shot put be provided by the meet managers in order to insure their proper weight.

**Dates for the 1988 meets are as follows:**

**Regional Meets: May 14, 1988**  
**Sectional Meets: May 21, 1988**  
**State Meet: May 28, 1988**

The next item for discussion was the State Track Meet. It was decided that the three-turn stagger be used in the 1600m relay and hopefully will eliminate bumping and pushing. Ms. DeVries asked Mr. Ruter to draw a diagram of the exchange zones and include a description of the exchange procedures. This new procedure will go into effect this year at the State Meet.

Ms. DeVries then discussed an expanded track clinic format being considered to get more officials registered as well as improve coaches' attendance. Three suggestions will be recommended to the All-Sports Committee of the Board of Control for consideration: 1) the clinics be expanded to six to cover a larger area of the state beginning with the 1988-89 school year; 2) the clinics be mandatory for coaches and officials; 3) area representatives of KICCCA provide additional instruction and makeup clinics in the regions they represent.

The committee reviewed the State Meet time schedule. Following a lengthy discussion regarding the placement of the 3200m run it was decided to leave the order of events as it is. The only change would be a rotation of boys and girls in the field events.

Two proposals were discussed at length regarding the alignment of schools into regions and sections effective this year. Some suggestions and revisions were made and both proposals will be submitted to the All-Sports Committee at the November Board of Control meeting.

**The 1988 clinic dates and tentative sites are as follows:**

- Thursday, February 25, 1988, 7:00 p.m., St. Xavier H.S. - Louisville.**
- Tuesday, March 29, 1988, 7:00 p.m., Daviess County H.S. - Owensboro.**
- Thursday, March 31, 1988, 7:00 p.m., Tates Creek H.S. - Lexington.**

The committee reemphasized that the following hurdle heights will be in effect this year. The girls 100m hurdles will be at 33 inches. The boys hurdle height for the 300m hurdles will be 36 inches.

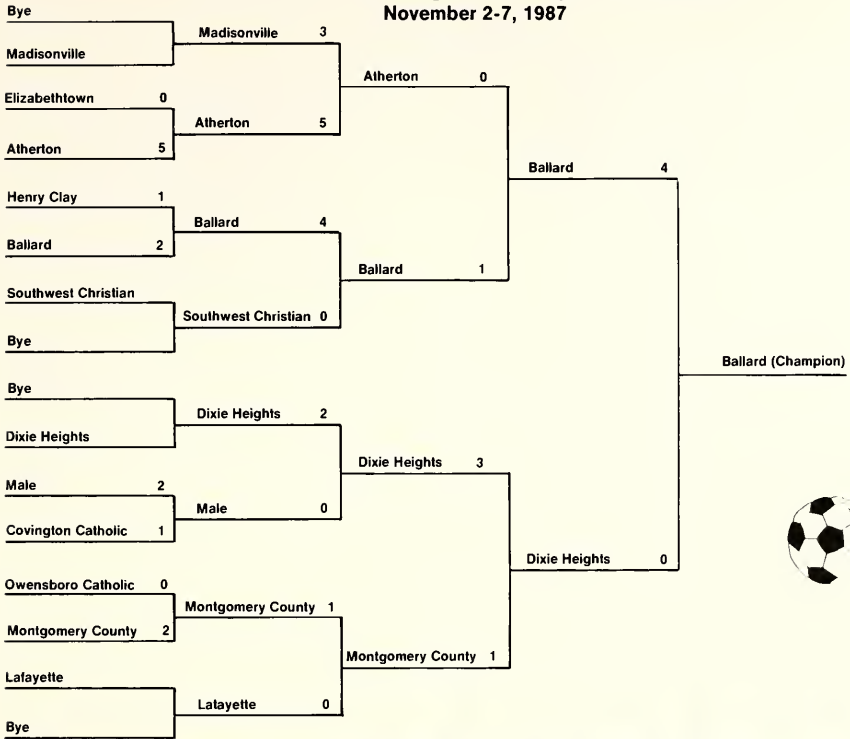

There being no further business, the meeting was adjourned.

**SPECIAL NOTES**

**PART II EXAMS FOR BASKETBALL AND WRESTLING — DECEMBER 7**

The Part II examination must be taken under supervision. It will be given by the local assigning secretary and/or the KHSAA Office in Lexington, or other sites as designated by the KHSAA. Any exception to the above must be cleared with the Commissioner.

### DANVILLE HIGH SCHOOL GIRLS' CLASS AA CHAMPION

**First Row: Tina Hunt, Katie Stamps, Debbie Finke, Lissa Sullivan. Second Row: Bethany Rogers, Sharon Woods, Coach E.G. Plummer, Susan Rankin, Teina Kavanaugh.**

**WRESTLING STATE TOURNAMENT CHANGED**

At its July meeting, the K.H.S.A.A. Board of Control eliminated the sectional wrestling meets. By taking this action, the Board moved the state championship finals in wrestling to February 19 and 20, 1987. Please make a note of this change in your records, and on your memorandum calendar.

**A.C.T. TEST DATES FOR 1987-88, and 1988-89**

With the implementation of the NCAA Minimum Eligibility Guidelines, it is important to keep up with the test dates for the American College Testing Assessment (ACT test). For 1987-88, the schedule is as follows:

| <u>Test Date</u> | <u>Regular Postmark Deadline</u> | <u>Late Deadline</u> |
|------------------|----------------------------------|----------------------|
| 12/12/87         | 11/13/87                         | 12/01/87             |
| 02/27/88         | 01/29/88                         | 02/16/88             |
| 04/16/88         | 03/18/88                         | 04/05/88             |
| 06/11/88         | 05/13/88                         | 05/31/88             |

**IMPORTANT DATES FOR 1987-88 \*\* PLEASE NOTE CORRECTIONS \*\***

The important dates list printed in the September issue of the Athlete contained incorrect dates for the finals in basketball and swimming. The dates printed below are correct, and we apologize for any problems this may have caused. The following are the starting dates for the K.H.S.A.A. sponsored events, along with the first day of practice.

| Sport        | First Practice Allowed | First Contest (Tentative) | Num. Games | State Finals |
|--------------|------------------------|---------------------------|------------|--------------|
| Wrestling    | Oct. 15                | Dec. 1                    | 4-23       | Feb. 20      |

These dates are as printed on the 1987-88 Memorandum Calendar, with the exception of the state wrestling meet which was changed by a decision of the Board of Control at its July, 1987 meeting.

**Congratulations to the first class of inductees into the Dawahares-Kentucky High School Athletic Association Hall of Fame. Special thanks to Dawahares for their fine sponsorship.**

**Cover photo - Dawahares family representatives with Earl Cox and Tom Mills of the K.H.S.A.A. staff along with Board of Control President Frank Welch. (Photo courtesy - Nick Nicholas, Cats Pause)**

**Ralph Beard** - First four sport letterman in Male High School history (football, basketball, baseball and track). Two time All-State and star of Male's 1945 state basketball champions. Also starred on Male's 1943 state baseball champions and was the state champion in the 860 yard run on Male's 1945 state championship track team. "I always tried to be the best"

**Ralph Carlisle** - Led Kavanaugh to two straight state tournament appearances in basketball. As Lafayette's coach for 16 years, he guided the Generals to three state championships, in 1950, 1953, and 1957, as well as the runner-up slot in 1949. He was All State pre-tourney in 1932 and All State Tournament in 1933. At Lafayette he was a two-time Coach of the Year and was Coach of the Decade for 1950-1959.

**L.J. "Butch" Charmoll** - He coached football and track at duPont Manual High School, winning state track championships in 1960 and 1962. He served three Commissioners as manager of the Boys' State Basketball Tournament, was instrumental in forming the Kentucky High School Coaches Association, and was the first games manager for the East-West football and basketball All-Star games.

**Blanton L. Collier** - Played football and basketball for Paris High School and later coached those sports plus baseball and track at Paris from 1928-1943. He was perhaps Kentucky's pre-eminent dual coach of football and basketball, but in later years was not for his innovative thinking and scholarly approach to football. His basketball teams won four regional championships.

**Morton Combs** - A winner as a player and a coach. He made the winning basket for Hazard against Male High in the 1932 state championship game. He also played football and baseball for Hazard. As a coach, his Carr Creek team won the 1956 state basketball championship. He coached the Kentucky All Stars against Indiana in 1964. Served the K.H.S.A.A. for eight years as a Board of Control member, and served as President for the 1967-68 school year. His philosophy, "No life ever grows great until it is focused, dedicated and disciplined."

**Ralph Dorsey** - High school athletics was a major and vital part of his life. An all-state tournament basketball player at Horse Cave where his 1933 and 1934 teams were unbeaten during the regular season. His '33 team lost in

the finals to Ashland. As a coach, he led Caverna to a third place state tournament finish in 1953. His 1962 Caverna baseball team won the state championship. An eight year Board of Control member, he was President in 1968-69 of both the Board of Control and the Kentucky High School Coaches Association.

**Gerl Grigsby** - When girls' basketball was resumed in 1975, she was largely responsible for gaining state-wide recognition for participants in the sport. Named first team All State at McDowell in 1975, 1976 and 1977, she was named captain of the 1977 All State team. Her 4,385 points for three years is the highest mark on record for boys or girls. She once scored 81 points in a single game. Kentucky's Miss Basketball in 1977, and the state's Sportswoman of the Year in 1978, she averaged 49.8 points per game in 1977.

**Cliff Hagan** - One of Kentucky's all-time great basketball players, Hagan led Owensboro to the 1949 state basketball championship. The Red Devils defeated Lafayette 65-47 in the final with Hagan breaking the single game scoring record by pouring in 41 points. His play in that game is still regarded by many as the finest all around performance in the history of the tournament. He broke all scoring records at Owensboro, averaging 27.5 points his last semester. Hagan was a three time first-team all state performer.

**Clem Smith Haskins** - Starred in basketball for Campbellsville Durham High School and Taylor County High. The quick, high-jumping sharp-shooter was named All-State and All-American and was named to represent Kentucky against the Indiana All Stars. He also played in the East West All Star game. Motto: "To achieve is to believe. Faith, confidence, and desire will allow you to achieve great things if you continue to believe in yourself.

**Bearnard L. "Peck" Hickman** - An all state tournament basketball player for Central City High School. As a coach at Valley High in Jefferson County, his Vikings dominated the region and his work at Valley catapulted him to the head coaching position at the University of Louisville.

**Stephanle Hightower** - This world class track star performed her feats for Stuart High School in Jefferson County. Twelve years after she graduated, she still holds three State Track Meet records, with her 10.8 time in the 100 yard dash, her 8.0 time in the 60 yard hurdles, and her 14.3 time in the 110 yard hurdles.

**Paul Hornung** - Truly a star in high school, Hornung was all state in football and basketball before pursuing his collegiate career at Notre Dame. Paul is generally regarded as one of, if not the, finest football players Kentucky has ever produced. He excelled as a runner, passer, punter and kicker for Coach Paulie Miller's Flaget Braves.

**Wallace "Wah Wah" Jones** - An All-State performer in football, baseball, and basketball, he also was a stellar performer in track and field. He led Coach Joe Gilly's Harlan Green Dragons to the 1944 State Basketball championship, and is generally known as one of the Commonwealth's all time great all-around athletes.

**William Lee Kean** - As a high school player, he excelled in basketball, football, tennis and track. At Louisville Central High School he coached football for 33 years, winning 225 games, losing but 45, and tying 12. During his 35 year tenure as head basketball coach, his Yellow Jackets won 856 games and lost only 83 while winning five state basketball championships in the Kentucky High School League, and four National Championships in the National Negro High School Tournament. He was a pioneer in the desegregation of athletics in Kentucky.

**Roy L. Kidd** - This outstanding football coach played in three consecutive state basketball tournaments for Corbin High. He also played football and baseball and was first team All-State in football. He was Kentucky's Coach of the Year in 1961 when his Richmond Madison High teams were ranked No. 1 in the state all season. His Madison teams were 54-10-1, had a 27-game winning streak and shut out 14 consecutive opponents.

**Frank "Dr. Lit" Litkenhous** - This gentlest of men has been cursed and discussed more than perhaps any other human in Kentucky because of his ratings of high school football and basketball teams. A pioneer in the mathematical rating systems, for 40 years, Litkenhous' work has appeared each Tuesday in the Courier Journal. In 1948 he was vilified and cursed as he ranked little Brewers High Number 1 in the state. That same little Brewers team went undefeated and captured the state championship. The people he didn't convince with his Brewers rating were swayed when he correctly picked tiny Cuba to win the title in 1952.

**Garnis Martin** - Kentucky's winningest high school football coach, Garnis Martin has coached teams that have won 269 games, lost 105, and tied 7. He captained both the football and basketball teams at Wheelwright High School and was named the school's outstanding athlete in 1940. His first year at Wayland produced only a 1-7 record before taking his job at Bardstown 36 years ago. At Bardstown, he has coached two Class A and one Class AA state football championship teams, two Class A state championship track teams, and coached two different editions of the basketball team to the state tournament.

**May T. Meagher** - Swimming for Sacred Heart Academy in Louisville, "Madam Butterfly" showed early signs of her future world class and Olympic swimming greatness as she led the Valkyries to state swimming championships in each of her years at the school. Her 51.772 mark in the 1981 100 yard butterfly still stands as a state records.

**Letcher Norton** - He played basketball for Clark County High School in 1930-31 and followed this with a 14 year tenure as basketball coach at the Winchester school. He also coached at Trapp High School in Clark County and at Charleston, Indiana. His overall record was 603 and 140. He coached the Clark County Cardinals to the state championship in 1951 following a runner-up finish in the state tournament in 1950. He was a three time Kentucky basketball coach of the year, and his teams once won 39 consecutive games between 1950-51 and 1951-52. His motto: "To have a winning tradition, I firmly believe in discipline, pride and a love for the sport."

**Joe W. Ohr** - He played basketball and baseball in the days when coaches sometimes played or in one case where the barber closed his shop and joined in the game. Ohr

coached basketball, football, baseball and golf at Irvine High with his basketball teams recording 401 wins against 265 losses. He took his 1948 basketball team as well as his 1948 baseball team to the state high school tournaments. He served for 27 years as secretary-treasurer of the Kentucky High School Coaches Association a position which "gave me the opportunity to meet and work with the finest people in the world."

**Homer Rice** - Football was his coaching game, but he was an outstanding baseball and basketball player in addition to being a sprint champion in track in field and an All-State quarterback at Highlands High School in Fort Thomas. He first gained acclaim as a coach for Highlands, where he had seven undefeated seasons and finished with an 11 year record of 101 wins, 9 losses, and 7 ties at the school, including victories in his last 50 games.

**S.T. Roach** - For Bate High in Danville, Roach was an all conference performer in football, and All-State forward-guard in basketball, and a successful distance runner in track. As head basketball coach at Bate, he compiled a record of 98-24 before beginning a highly successful career at Lexington Dunbar where his teams won 512 while losing only 143 from 1943 to 1965. His Dunbar teams captured six regional championship trophies during his final eight years at the school.

**Ted Sanford** - A name synonymous with high school athletics in Kentucky for many years, Ted was the first Commissioner of the K.H.S.A.A. After serving the Association as its Secretary-Treasurer from 1937-1947, he was hired as the Commissioner and served in that post until his retirement in 1972. He coached four sports at Fulton and Murray High Schools before becoming an administrator. He played baseball for Fulton High School.

**J.W. "Spolder" Thurman** - One of Kentucky's truly great all-around athletes, Thurman was an all-state tailback for Benham High in Harlan County. He is also commonly credited with starting the basketball tradition at Clay County High School, a tradition which reached its zenith when one of his players, Bobby Keith, coached the Tigers to the 1987 State Basketball Championship.

**John Bill Trivette** - Trivette played basketball and baseball for Pikeville College Academy from 1932-1935 and gained recognition for his outstanding work as basketball coach at Pikeville High for 16 years. One of the innovators in the game, Trivette is commonly referred to as an inventor of the full court zone press. Trivette had said repeatedly that his success in coaching "can be directly attributed to the quality of the young people that I had the opportunity to coach." His Pikeville teams won 427 games and lost 126 between 1944 and 1960. He was Kentucky's coach of the year in 1957 when his team had a record of 32-4 and finished third in the State Tournament.

**Russell Williamson** - This soft spoken man coached basketball at fabled Inez High School from 1929-1948. During this time, Inez won the regional title eight times, including a string of seven titles in eight years, and won the state title in 1941. In 1940, Inez placed four of his players on the All-State Tournament team. He served the K.H.S.A.A. as president from 1955-1960 and was on the Board of Control for eight years. He said that "dedication, discipline and teamwork have enabled small schools from small towns in Kentucky to achieve great success."

---

## K.H.S.A.A. COACHING BOX (Experimental for the 1987-88 Basketball Season)

The basketball committee has approved the following amendment to the National Federation Rules for all games played in Kentucky. The change is effective immediately. All schools, coaches, superintendents and officials are being notified as well as being sent a sample of play interpretations.

PART I - Definition. This would become Section 14 of Basketball Rule 1, under definitions. Section 13 would be amended to change "... recommended that the ..." to "... required that the ...".

SECTION 14 The "coaching box" shall be defined as an area outside the playing court on the side of the court which the scorers/timers table and team benches are located. This area shall be bounded by the mid-court line (28' line) and the corresponding end-line for length boundaries, and the sideline and the team bench for the width boundary. The optimum width shall be three feet (3'), but in cases of limited space, may be reduced to the distance from the sideline to the team bench.

All bench areas must be located on the side of the court, and may not extend past the mid-court line (28' line).

Each box shall be clearly marked with two-inch wide lines, one extending from the mid-court (28') line, and the other from the end-line. The line may be painted, or may be marked with tape, but must be clearly visible. If painted, the line shall be of contrasting color to the side and end lines.

For permissible actions within the confines of the "coaching box", see Rule 10, Section 5, as amended for use by the Kentucky High School Athletic Association for the 1987-88 season.

PART II - Delete existing basketball playing Rule 10, Section 5.

Replace Rule 10-5 with the following --

SECTION 5 The Head Coach may stand to give instructions to his/her players but must remain within the confines of the coaching box at all times while the clock is running or is stopped except to:

ART 1 ... confer with personnel at the scorer's table to request a time-out for a correctable error, as in 2-10, or to prevent or rectify a timing or scoring mistake or an alternating possession mistake;

ART 2 ... attend an injured player, when beckoned onto the court by an official;

ART 3 The Head Coach, when standing, or kneeling in the designated coaching box, shall not have dialogue with the official(s);

ART 4 All other non-player bench personnel shall remain seated on the bench except during a time-out or to spontaneously react to an outstanding play by a member of the team.

ART 5 The Head Coach shall replace a disqualified or injured player within 30 seconds when a substitute is available.

PENALTY: (All articles) Technical Foul, 2 free throws and possession of the basketball. In articles 1-4, the foul is charged to the offender and to the head coach. In Article 5, the foul is charged to the head coach. If flagrant, the offender shall go to the team's locker room, or leave the building.

NOTE: The third technical foul on any coach is considered flagrant.a

## 1987-88 NATIONAL FEDERATION WRESTLING RULE INTERPRETATIONS PART I

**SITUATION #1:** Is it permissible for a referee to wear red and green armbands without having the approval of the state association office?

**RULING:** Starting with the 1987-88 wrestling season, it is permissible for officials to wear red and green armbands. Starting with the 1988-89 season, this rule will become mandatory for all officials. (3-1-1)

**SITUATION #2:** Is the growth allowance in effect for the 1987-88 wrestling season?

**RULING:** The growth allowance will be in effect for the 1987-88 wrestling season if the twelve weight classes are in use. If a state shifts to the new 13 weight classes, the growth allowance should be deleted. (4-4-4 & 4-4-1)

**SITUATION #3:** For a regular season tournament, what is the length of the weigh-in period and when should it be conducted?

**RULING:** The weigh-in period is one hour in length and it shall be conducted a maximum of two hours and a minimum of one hour prior to the start of the first session each day. (4-5-3)

**SITUATION #4:** A school has a dual meet on Tuesday, a dual meet on Wednesday and a dual meet on Thursday, what are the allowable weights for an individual at 145 pounds for the three consecutive days of competition?

**RULING:** On Tuesday, you would need to weigh-in at scratch weight at 145 pounds, on Wednesday you would be allowed a one-pound allowance making your weight 146 pounds and on Thursday you would be allowed an additional pound which means you could weigh-in at 147 pounds.

**COMMENT:** There is a one-pound allowance granted for each consecutive day of competition. The only requirement for this allowance is that you must notify your opponent a minimum of 48 hours in advance of the contest. (4-5-4)

**SITUATION #5:** Wrestler A injures B during a scoring situation and the referee has started his count. At that time, Wrestler B indicates that he is injured and the referee stops the match. How many points would be awarded to Wrestler A?

**RULING:** If injury occurs after near fall criteria has been met the offensive wrestler will receive a three-point near fall.

**COMMENT:** If injury occurs just prior to meeting near fall criteria you would award a two-point near fall, if injury occurs after near fall criteria is met, you would award a three-point near fall. You do not fall under the criteria if you do not have to hold it for two seconds to earn the three-point near fall. (5-2-4g)

**SITUATION #6:** Wrestler A sustains injury to his shoulder and asks for time-out from the referee. The referee grants time-out and, as soon as the contestant goes to the corner of the mat, his coach begins offering instructions to his wrestler.

**RULING:** The injured contestant shall not receive any coaching during injury time-out. When the referee observes this, he shall penalize the coach for unsportsmanlike conduct and deduct one team point.

**COMMENT:** The no-coaching rule is in effect during the injury timeout. The coach and wrestler can only discuss the injury and/or the physical condition of the contestant. When the timeout is over and while the wrestler is returning to the center of the mat and the coach is returning to the bench, there can be coaching. (8-2-1)

**SITUATION #7:** At the conclusion of the regular match the score is tied 4-4 and an overtime is declared. During the one-minute rest period, Wrestler A removes his shoulder straps and penalizes B for the release for unsportsmanlike conduct. One team point is deducted. At the conclusion of the overtime match, the score is 5-5. Who would be declared the winner of the match?

**RULING:** If Wrestler B has not been penalized for unsportsmanlike conduct he would be declared the winner of the contest. In looking at criterion #1, Wrestler B would be the loser of the contest because of the unsportsmanlike call against him for removing shoulder straps that occurred following the regular match and prior to the conclusion of the overtime. Any unsportsmanlike act that occurs following the regular match and prior to the conclusion of wrestling in the overtime period shall be counted under criterion #1. (5-4-1, 8-1-2 & 3, 10-4-4)

**SITUATION #8:** In tournament competition the match ends in a tie and as the wrestler are returning to the center of the mat, Wrestler A shoves Wrestler B and Wrestler B slips and falls. The referee calls Wrestler A with unsportsmanlike conduct. Wrestler B is injured because of the shove. Would he be allowed recovery time?

**RULING:** The unsportsmanlike conduct occurs after the end of wrestling, therefore, would not receive any recovery time. Wrestler B would have one minute between the regular match and the overtime to be ready to wrestle. If he could not wrestle at the start of the overtime, he would lose the match by default. (8-2-2)

**SITUATION #9:** In both semi-final matches of the 112-pound weight class we have contestants that are injured due to an illegal hold where the wrestlers are not able to continue their matches. Following the two semi-final matches both individuals are checked by a doctor and they are both told they cannot wrestle in the finals of the tournament. How would we have the placement of these two contestants and how many team points would these two individuals earn?

**RULING:** In this situation there would be no first place finisher, therefore, neither team would receive points for first place. The points these two individuals would contribute to their teams would be the points they earned for a second place finish. (9-2-2)

**SITUATION #10:** With approximately 25 seconds gone into the period the offensive wrestler is warned for stalling and the referee does not stop the match. At the conclusion of the third period the coach goes to the scorer's table indicating there has been an error and asks that it be corrected. Would it be necessary to wrestle the last one minute and 35 seconds?

**RULING:** This would be considered as bad time because wrestling was allowed to continue following a violation when the match should have been stopped. It would be necessary to wrestle one minute and 35 seconds. (6-6-1)

**SITUATION #11:** Wrestling ends with the score of the match Wrestler A-10 and Wrestler B-4. At that time, Wrestler A hits Wrestler B and is charged with flagrant misconduct. This takes place after wrestling and prior to the wrestlers leaving the mat. How would this match be scored?

**RULING:** If this occurs in a dual meet there would be no winner and Wrestler A's team would have one team point deducted. If this would happen in a tournament there would be a one team point deduction from Team A and there would be no winner of the match, Wrestler A would be removed from the tournament and could not advance or place in the tournament. He would however, receive the points he had earned prior to this incident. (8-1-5)

**SITUATION #12:** Wrestler A is in the top position and Wrestler B sits out. During this situation the official signals locked hands. Wrestler B cannot complete the switch and Wrestler A cradles B and the official drops to the mat and begins to count the near fall. Wrestler B's coach notes the time as 30 seconds remaining and, as the period ends, the official awards a one-point penalty and a three-point near fall to Wrestler A. During the time-out that follows, Wrestler B's coach asks the official why Wrestler A received a three-point near fall and a penalty point when he had signaled locked hands. The official said that he was not trying to signal locked hands but that he had meant to signal an illegal hold. Would this be considered as bad time and how should this be scored?

**RULING:** The official has obviously made an error in the signal that he has given but this would have no effect on the score of the contest. This would not be considered as bad time and all points would stand. (6-6-3)

**SITUATION #13:** The referee is restarting the match following an out-of-bounds situation and, as he is starting the match, Wrestler A commits a false start. The timer starts the clock and two seconds expire before he turns the clock off. The coach of Wrestler B goes to the scorer's table requesting that two seconds be put back on the clock because this would be bad time.

**RULING:** This would be considered as bad time and the two second correction would need to be made by the referee. (6-6-1)

**SITUATION #14:** At the beginning of the third period the wrong wrestler is given the choice of position. Prior to this error being detected Wrestler A is injured and it is necessary that he takes one and one-half minutes of injury time. Following his injury time-out, it is discovered that the wrong wrestler was given the choice of position and the referee rules that the entire third period is a bad time. How would this effect the injury time taken by Wrestler A?

**RULING:** When the referee rules that bad time existed during the third period everything would be deleted relating to the match score. This would also cancel the injury time used by Wrestler A. All injury time that he had used during the third period would be placed back at his disposal. (6-6-1)

**SITUATION #15:** When a contestant is called for unsportsmanlike conduct how do we determine if the penalty should be a match point or a team point?

**RULING:** If the unsportsmanlike call occurs from the start of the first period until the conclusion of wrestling by either a fall, technical fall or the conclusion of the third period, you would have a match point. If the unsportsmanlike conduct call occurs prior to the start of the match or after the conclusion of wrestling, it would be a team point. If it occurs following wrestling at the end of the third period, and prior to the start of the overtime match in tournament competition, it would be considered a team point. If it occurs between the first and second period of the regular match it would be considered as a match point. (8-1-2, 8-1-3)

**SITUATION #16:** Wrestler A has been warned, penalized twice and is finally disqualified when he continues to stall. How shall the referee handle this situation? In a tournament may the wrestler continue wrestling if he is eligible to compete in the consolation bracket?

**RULING:** When the match is stopped the referee checks with the scorer's table to determine that a disqualification is in order. If it is he then raises the hand of Wrestler B who is declared the winner. For Wrestler A this would be the same as any other type of loss and he would be qualified for the consolation bracket (Penalty Chart)

## 1987-88 NATIONAL FEDERATION BASKETBALL RULE INTERPRETATIONS PART I

**SITUATION #1:** It is A's turn for an alternating possession throw-in. A1 is handed the ball, but before the throw-in is made, A2 commits a violation for excessively swinging arms and elbows without making contact.

**RULING:** Team A has lost the ball because of the violation and it is awarded to Team B for a throw-in. Team A has also lost its opportunity to make an alternating possession throw-in. The arrow is reversed and Team B will have the next throw-in opportunity under the alternating procedure. (6-3-4, 9-10)

**SITUATION #2:** A1 dribbles the ball from backcourt to frontcourt. During the dribble, the ball suddenly squirts away from A1 and bounces 20 to 25 feet away. No player from either team touches the ball as A1 races to it and continues the dribble.

**RULING:** Legal action. The dribble did not end when the ball squirted away and A1 was entitled to either continue the dribble or end it. (4-12)

**SITUATION #3:** Following a time-out by Team B, A1 is given the ball for the first of 2 free throws even though Team B is still huddling at the bench and the first marked spaces on each side of the lane are not occupied. A1's first attempt is successful. The administering official then hands the ball to A1 for the 2nd attempt. Team B is still at the sideline. The official again gives the signal which indicates a violation by Team B if the attempt is missed. A1 misses the 2nd free throw attempt.

**RULING:** The violation will be signalled and A1 will be given a substitute attempt. Team B will be assessed a technical foul if they delay further by not occupying the first marked spaces on each side of the lane before the ball becomes alive for the substitute throw. (2-12-5, 9-1 Pen, 2b)

**SITUATION #4:** The proper signals have all been given and A1 is ready to attempt the 2nd of 2 free throws. The first free throw had been made prior to Team B calling a time-out. Team B players are still at their bench when the signals are given. A1 is awarded the ball and makes the shot.

**RULING:** The administering official will now place the ball on the floor and begin the 5-second throw-in count on Team B. If Team B does not make the throw-in within the specified time, a violation will result. (9-3-3)

**COMMENT:** Each time-out or intermission between the 1st and 2nd quarters, and between the 3rd and 4th quarters, is a separate situation under the procedure and there is no carry-over from one to the other.

**SITUATION #5:** Following a time-out, the ball is handed to A1 for a throw-in even though Team B is not ready to play. Team B is still in conference at the sideline. The substitutes are off the bench and the coaches are huddled around the seated players. A1 completes the throw-in and A2 scores an uncontested goal. Should Team B be charged with a technical foul(s) for substitutes and coaches being off the bench?

**RULING:** No. The procedure takes precedence and no penalty is invoked for the other sideline infractions. The uncontested goal by A is their only "penalty." The ball will be placed on the floor for a throw-in by Team B following the goal by A. Team B will have to respond and complete the throw-in before the 5-second count is reached. (10-4, 5)

**SITUATION #6:** Team A coaches and substitutes are all standing during a free throw by A1. The infraction is detected by the officials. How many technical fouls are assessed?

**RULING:** In a situation where similar multiple infractions occur at the same time, it is not the intent of the rules to penalize each individual infraction as a separate technical foul. One technical foul is charged to Team A and it is also charged to the head coach in this situation. (10-4-1g, 10-5)

**SITUATION #7:** On the jump to start the game, the tapped ball is simultaneously caught by A1 and B1. Since the alternating procedure has not been determined, what happens next?

**RULING:** A jump ball will be administered at the center jump circle between A1 and B1. The team that does not gain control will start the alternating possession procedure. (6-2, 6-3-3a)

**SITUATION #8:** A1 scores with just a few seconds remaining in the 4th quarter. The goal makes the score A-54, B-55. A2 bats the ball under the bleachers as it comes through the net.

**RULING:** A2 is charged with a technical foul. (10-3-8b)

**SITUATION #9:** Following a goal, A1 passes the ball along the end line towards A1 who is also out-of-bounds. B1 reaches through the plane of the line and deflects the ball away.

**RULING:** A technical foul is charged to B1. (10-3-8a)

**SITUATION #10:** After the administering official has handed the ball to free thrower A1 (a) A2 moves to a position inside the free throw line extended; or (b) B1 breaks the plane of the 3-point line.

**RULING:** In (a) it is a violation which causes an immediate dead ball. Unless A1 has a 2nd attempt, the ball is awarded to B at the free throw line extended. In (b) the delayed violation by B1 is signalled by the official and a substitute throw is awarded if A1's attempt is unsuccessful. (0-1-8 Pen, 1, 2)

**SITUATION #11:** A1 attempts a field goal from behind the 3-point line. The ball is legally touched by B1 who is in: (a) the 3-point area, or (b) the 2-point area. The ball continues in flight and goes through A's basket.

**RULING:** In both (a) and (b) 3 points are scored as it was a 3-point attempt by A1 originally.

**COMMENTS:** If a 3-point attempt is not above ring level and does not have a legitimate chance of entering the basket when it is touched, it is a 2-point goal and not 3 points if it subsequently goes in the basket.

**SITUATION #12:** A1 has one foot on the 3-point line and the other foot completely behind the line. A1 clearly lifts the foot which is contacting the line and then jumps off the foot which is behind the line. While in the air, A1 releases the ball on a try for goal. The ball goes directly through A's basket.

**RULING:** Three points are scored. When A1, prior to jumping, lifted the foot from the line, he or she was then located behind the line. (4-23)

**SITUATION #13:** A technical foul is charged to the coach of Team A. Just prior to the ball being handed to the free thrower, A1 requests a time-out. Should it be granted?

**RULING:** Yes. There is no rule-based reason not to (5-8-3)

**SITUATION #14:** A1 is successful on a free throw with only seconds remaining in the 4th quarter. The free throw puts Team A ahead by one point. Three substitutes of Team A leap to their feet and come onto the court to congratulate A1 just before time expires.

**RULING:** The substitutes are actually violating two provisions of the rules by not being seated and for entering the court. However, only one team technical foul is assessed and it is also charged to the head coach. When a multiple infraction like this occurs, only one technical foul is charged. (10-4)

**SITUATION #15:** Team A has only five players and no remaining time-outs when A1 is injured late in the 4th quarter. After 45 seconds the coach determines that A1 could continue to play. Must A1 be removed in order to avoid an excess time-out or must A1 remain in the game as no substitutes are available?

**RULING:** If A1 remains in the game a technical foul for an excess time-out will be charged. No penalty is assessed if A1 withdraws and then reenters at the first substitution opportunity. (5-8-2a, 5-9)

**SITUATION #16:** A1 has one foot touching the 3-point line and the other behind it as he or she jumps to try for goal. A1 fades back during the try and lands well away from the line after releasing the ball. The trail official has primary responsibility and correctly gives no signal during the try. However, the lead official gives the successful 3-point signal when the ball goes in the basket. The scorer records 3 points.

**RULING:** The error was made in erroneously counting a 3-point goal. The error is correctable under the provision of Rule 2-10. In this situation the trail official or the coach of Team B would likely be the one who would recognize an error was made. If the coach recognizes it, he or she should go to the table immediately and ask for a time-out to discuss the situation with the officials. The scorer would signal the officials at the first opportunity. The error is discussed and correction is made within the limits of the rule. The game will then continue from the point of interruption. The time-out for Team B would be cancelled. Whenever an error occurs in counting or canceling a 3-point goal, the procedure and limits of the correctable error are in effect. (2-10)

**SITUATION #17:** Team A calls time prior to a free throw attempt by A1. Team A is still in the huddle after the administering official has given final instructions and has placed the ball on the floor at the line. A1 requests another time-out.

**RULING:** Grant the time-out even though it is obvious it was called to prevent a violation. In this situation Team A may be granted a time-out but Team B could not after the ball was placed at A1's disposal. (5-8-3)

**SITUATION #18:** A1 passes the ball from behind the 3-point line towards A1 who is near the basket. A2 is not looking and the pass hits his or her shoulders and ricochets above the ring and then through A's basket.

**RULING:** A 2-point field goal is scored. Even though the pass started from behind the line, only 2 points are scored as it was not a 3-point try originally. (5-2-1)

**SITUATION #19:** A1 appears to be driving for an easy basket when B1 catches up and intentionally fouls A1 before the try. Immediately after the foul A1 and B1 begin fighting. A number of substitutes and coaches from each team run into the court but do not get involved beyond milling about.

**RULING:** A flagrant technical foul is charged to both A1 and B1 and they are both disqualified. The substitute for A1 will attempt the 2 free throws for the intentional personal foul by B1. Both teams then get 4 free throws for the technical fouls on A1 and B1 and for the coaches and substitutes coming onto the court. This technical is charged to each of the head coaches. The free throws for the technical fouls may be attempted by any player(s). Following the last free throw the ball will be put in play by an alternating possession throw-in. (6-3-3g, 8-7, 10-4-2)
