Board Meeting continued from Page 1.

Commissioner Mills distributed material for the National Federation Annual Meeting to be held in Wesley Chapel, Florida from June 24-29, 1989.

The next item on the Agenda was a letter from the Kentucky Girls Sports Association requesting that the schools be surveyed to determine if there is sufficient interest to sanction girls' soccer. Commissioner Mills reminded the Board that a 25% participation of all member schools is required to sanction a sport. Ken Tippett made a motion, seconded by David Points, that the Commissioner send the survey to the schools. The motion passed by a vote of 10-1.

Commissioner Mills then discussed with Board members a request he had received from Principal Thomas Walters, Jessamine County, requesting that the boys basketball team be permitted to participate in a cultural exchange program with Ecuador. Mr. Walters was concerned about loss of eligibility if the team were allowed to participate. Tony Olinger

made a motion, seconded by Ken Tippett, that Jessamine County be approved to participate in this program with Ecuador. The motion passed unanimously.

Following a discussion regarding the jurisdiction over junior high and elementary students participation on high school teams, it was the feeling of the Board that the Committee on High School Athletic Concerns (a joint committee of members of the State Board of Education and the Kentucky High School Athletic Association) be reconvened to address this item.

Commissioner Mills presented to the Board proposals submitted from Magoffin County relative to the distribution of funds from district basketball tournaments. Following a lengthy discussion of these proposals, it was the opinion of the Board members that the present rules and regulations governing basketball tournament distribution of finances is proper and equitable in that it allows the participating schools, by majority vote, to adopt any plan which they desire for the distribution of receipts.

Exec. Asst. Wise discussed with Board members Rule 10, Sec. 5, Bench Decorum. Tony Olinger made a motion that the K.H.S.A.A. Board of Control adopt the proposed National Federation Coaching Box rule for the 1989-90 school year. Ken Tippett seconded the motion which passed unanimously. The rule reads as follows: 10-5 -- Coach(es) must remain seated on the bench at all times while the clock is running or stopped except: Art. 1. . . . The head coach may be off the bench in front of his or her seat within the confines of the designated coaches box to give instructions to his or her players and/or substitutes. Coaching Box - The coaching box shall be outlined outside the side of the court in which the scorers' and timers' tables and team benches are located. The area shall be bounded by a line 28' from the end line, the sideline, and a line 22' from the end line. These lines shall be three feet in length located off the court and be two inches wide and be of a color contrasting with the boundary lines.

Following a discussion of the Reorganization of the K.H.S.A.A. Officials Division Proposal which was mailed to all superintendents and principals for their input following the January meeting of the Board, Marvin Moore made a motion, seconded by Huston DeHaven, that the proposal be adopted as submitted. The motion carried unanimously.

The next meeting is scheduled for 1:00 p.m. on Thursday, April 20, 1989, at the Association Office in Lexington. Any appeals hearing will be heard at 9:00 a.m. on Friday, April 21. An Executive Committee meeting is scheduled for 10:30 a.m., Thursday, April 20.

Following a discussion of future boys and girls basketball tournament sites, Ken Tippett made a motion that the sites for 1992 and 1993 be made prior to July of 1990. Charlie Miller seconded the motion which passed unanimously.

There being no further business, the meeting was adjourned.

REMINDER TO SCHOOLS CONCERNING LIMITATION OF SEASONS

All schools are reminded of the Limitation of Seasons Rules, K.H.S.A.A. By-Law 27, as it applies to competition after the conclusion of the regular season. ALL SPORTS are affected by this rule, which states that following the teams' last regular season match, there shall be no further practice or play as a team for the remainder of the school year, with the exception of the K.H.S.A.A. tournament. Please be sure your coaches are aware of this important rule, and that they are not involved in coaching the team in an outside league, or other competition. For the high school coach, be they the Head Coach or an assistant coach, to coach members of the high school team in a league outside of the school's legal regular season competition, regardless of the type of league, would be a violation of the rules governing the Limitation of Seasons.

OFFICIALS INVITED TO ATTEND MEDICAL SYMPOSIUMS

The members of the KMA Committee on School Health, Physical Education and the Medical Aspects of Sports would like to invite all high school sports officials to attend the Sports Medicine Symposiums at no cost for registration. The committee feels it is very important to work with the sports officials for rendering the best care to high school athletes. ATTENDANCE AT THE SYMPOSIUMS IS NOT A REQUIREMENT FOR OFFICIALS. However, considering KMA's generous offer, officials who have the time and are available to go to a symposium should consider doing so. The complete schedule is listed elsewhere in this month's issue of the "Athlete".

CORRECTION CONCERNING SOFTBALL SIZE

The February issue of the "Athlete" contained the minutes of the January Board of Control meeting and stated that the softball size for 1989 would be the eleven inch softball. This is incorrect. For the 1989 State Softball tournament, the twelve ball will continue to be used, with the eleven inch ball becoming the tournament ball in 1990. We apologize for any inconvenience this may have caused.

SCHEDULE OF MEDICAL SYMPOSIUMS

The following is the revised schedule of the Medical Symposiums required by the State Department of Education for all Head Coaches in K.H.S.A.A. sanctioned sports. The dates which are underlined are those that have changed dates, or additional sites since the last issue of the Athlete, and since the time the letter was mailed to member schools. A letter has been sent to all schools informing them of this important change approved by the State Board of Education. This new regulation requires bi-annual attendance at one of the approved Medical Symposiums. THESE SEMINARS HAVE NOTHING TO DO WITH THE CPR REQUIREMENT. THEY ARE A COMPLETELY SEPARATE REQUIREMENT. Beginning this year, bi-annual attendance is required for all Head Coaches in K.H.S.A.A. member schools in sports sanctioned by the Association. If you attended a seminar in 1988, you do not need to attend a 1989 symposium. The schedule for this year is as follows --

- April 22 - University of Louisville (502)637-3636, Dr. Raymond Shea, Suite 150, Audobon Medical Plaza, 40217
- May 20 - Surgical Center, Elizabethtown (502)737-5200, George Hosfield, Surgical Center, 708 Westpost Road, 42701

1989 NATIONAL FEDERATION TRACK & FIELD RULE INTERPRETATIONS PART II

PUBLICATION CORRECTIONS

SITUATION #12: At the finish line, in addition to judges and timers, one official assigned as an inspector to observe infractions that might occur at the finish line or immediately following the race. Following a close finish in the 100 meter dash, the second place finisher is observed by one of the timers who claims he heard the competitor use a swear word and informs the competitor that he is disqualified. This action is not witnessed by the official charged with observing this type of an action. After hearing both reports, the referee rules there will be no disqualification. An appeal is made to the games committee, the ruling is reversed and A1 is disqualified.

RULING: If the games committee was, in fact, set up as the final jury of appeals, and if the appeal was made by a coach of one of the opposing runners, the referee would have to accept the decision. However, it is highly unusual for a timer or finish line judge to be concerned with the personal conduct of the place winners, unless it is so flagrant that it is obvious to anyone in the area that a violation has occurred. In this case, it should have been evident to the official in charge of supervising the finish. In no case can anyone but the referee make the determination to disqualify unless it is action by the jury of appeals. (3-4-1; 3-4-5)

COMMENT: With the exception of the referee, officials should limit their action to those areas specifically placed under their jurisdiction.

SITUATION #13: Prior to the beginning of the meet, the referee notices that several of the competitors on Team A, both male and female, are wearing shorts typically referred to as "bicycle shorts" or "thigh huggers", without the traditional track uniform shorts over them. When the referee notifies the coach of Team A that the uniforms do not meet rule requirements, the coach protests to the jury of appeals.

RULING: The protest will be denied. This type of apparel is no more a substitute for a track uniform than it would be acceptable as a basketball or a baseball uniform. (4-3-1; 1989 Points of Special Emphasis)

SITUATION #14: Following a close finish in the 100 meter dash, several coaches in the vicinity of the finish line demand to see a copy of the finish line accurate photo.

RULING: Only the finish line evaluator, head finish judge and referee have access to the finish line photo, unless there is a formal appeal and the jury of appeals chooses to share it with the coach in question. (3-7-7b)

SITUATION #15: In the 800 meter run, the announced starting procedure is that all competitors will take a position within one step of the starting line and on the command, "Runners Set", will step up to the line. A1 reports to the clerk of course with starting blocks and is told they will not be permitted. The coach of Team A protests.

RULING: The protest will be honored, unless there are some unusual circumstances, such as a large field of competitors, an alley start, etc. in which there literally would not be room for a starting block. The starter would have to accommodate A1's wish. In this case, the starting procedure announced would have to be modified with everyone taking a position at the line. The starter will use one preliminary command, i.e., "Runners Set", (5-4-1)

COMMENT: The starting procedure referred to above is recommended for us "when all runners start from a standing start".

SITUATION #16: A1 reports to the boy's shot put with the two middle fingers on his putting hand taped tightly together and with the tape beginning between the first and second knuckle of the thumb and circling the base of the thumb and the wrist. The judge rules that the taping of the thumb is illegal and the coach of Team A protests, stating that there is no connecting tape between the fingers and the palm, back of the hand and wrist.

RULING: The protest shall be denied. The thumb is considered one of the fingers and there can be no connecting tape between the thumb and the palm or back of the hand, or between the thumb and the wrist. (6-4-7)

SITUATION #17: At the county track and field championships, the games committee announces that all competitors must compete in all events in which they are entered. Failure to do so means that they are ineligible to compete in any events beyond the ones they have scratched. Team A's 4 x 1600 meter relay has only four runners listed on the entry form. A1 and A2 report, but A3 and A4 fail to report when the event is called.

RULING: While the rules are silent on any reference to what is sometimes referred to as an "honest effort" rule, it is not unusual for meet management to adopt something like this part of their terms and conditions. If this were the case, A1 and A2 would not be disqualified from further competition, while A3 and A4 would

SITUATION #18: At the start of the girl's 100 meter high hurdles, A1 wishes to use a standing start. Meet management has provided starting blocks for all competitors, but A1 (a) wishes to use her own starting block with a special adapter for a standing start, or (b) has an adapter that will fit on the starting blocks furnished by meet management, or (c) whereas her blocks do not fit the holes on the all-weather track that have been prescribed for the standard starting block, she requests the use of a teammate or attendant to support the blocks to keep them from slipping.

RULING: In (a) and (b), this will be permitted, provided the blocks can be used without any modification to the track. In (c), this will be at the discretion of meet management. (5-4-2)

COMMENT: Starting blocks are provided for all competitors and if one or more wish to use a block that accommodates a different type of starting technique, such as a standing start or a semi-crouch, the burden of responsibility on having a block available that does not require any modifications of the track is on that of the athlete.

SITUATION #19: In the shot put, A1 who is very heavy set, reports to the event wearing sweat pants and a jersey that appears to be a football practice jersey. The coach explains the school does not have a jersey and shorts that would fit A1, and the sweat pants and jersey A1 is wearing are school-owned and issued. The shot put judge permits A1 to compete, but following the competition, an opposing coach enters a protest, claiming the competitor did not comply with Rule 4-3-3 or 4-5-7.

RULING: The protest should be denied. (4-3-1, 4-3-3; 4-3-5; S.R. 4.3.1F)

SITUATION #20: During the second lap of the 1600 meter run at the district track meet, A2 is leading when B2 steps on the leader's heel, causing both runners to fall to the track. They get back on their feet and finish the race. Team A finished in fifth place, and out of contention for a qualifying spot in the state final. The referee disqualifies Team B. Following the meet, the coach of Team A protests that B's interference prevented his team from qualifying for the state meet and feels the team should be allowed to participate in the state final meet.

RULING: There is no rule support to honor this protest. The only way Team A could have qualified would have been for the referee to order a rerun of the race. Because the violation occurred in the middle of the second lap of a qualifying heat, there was no way the referee could have equitably rectified Team A's misfortune without penalizing the other teams running in the same heat. (See guidelines for rerunning a race on page 12 in case book.)

SITUATION #21: In the finals of the 200 meter dash, A2 is heavily favored to tie or break the existing state record of 20.9. Immediately after the start, one of the three timers assigned to first place announces that he "failed to catch the smoke" and disqualifies himself. The other two timers record A1's winning effort at 20.8 and 21.0 respectively. The winning time is announced at 21.0. A1's coach protests that his runner should have been at least credited with typing the record at 20.9.

RULING: When only two watches record the winning effort, the slower time must be used. (3-8-3)

SITUATION #22: In the 4 x 200 meter relay, members of the competing teams report to the starting line for final instructions. All competitors are wearing their warm-ups and following instructions, some team members are sent to the first and third exchange zones across the track. When the contestants are instructed to remove their warm-ups in preparation for the race, it is observed that members of Team B are not wearing identical uniforms.

RULING: Team B will not be permitted to start the race because team members are not in their proper uniform. The race will not be delayed in order to permit the team to comply with the rules. (4-3-4)

SITUATION #23: Pole vaulter A1 fails his first attempt at 14' 9" and passes his second and third attempts. When the bar is moved to 15', A2 fails his first try, but clears the bar on the second attempt at that height. B1, who successfully cleared 14' 9", cleared 15' on his third try at that height. A1 is declared the winner on the basis of fewest trials at the height at which the tie occurs, but B1's coach protests that A1 also had two consecutive failed tries prior to his clearing the bar at 15'.

RULING: The protest shall be denied. Rules specifically state that the first tie-breaker will be "the lowest number of trials for the height at which the tie occurs" and A1 should not be penalized for his strategy in passing after his first failed attempt at the lower height. (7-4-25a)

1989 NATIONAL FEDERATION BASEBALL RULE INTERPRETATIONS PART II

CORRECTIONS:

Rule Book

1989 Baseball Rules Interpretations Part I, Situation #9 - Revise ruling to read B2 is out and R1 is returned to first base. 7-3-5

Case Book

Case Book Play 7-3-5c, page 36 - Revise ruling to read Batter is out and R1 is returned to first base

SITUATION #24: With (a) two strikes or (b) one strike on B2 and less than two outs, R1 attempts to steal second. B2 swings and misses, but as F2 attempts to throw to second, B2 interferes with the throw, even though R1 would have easily stolen the base.

RULING: In (a) and (b), B2 would be declared out for interference and R1 would return to first base. 7-3-5

SITUATION #25: F1, in the set position, before coming set, steps backward off the pitcher's plate before separating his hands. Is this legal?

RULING: Yes. Until the pitcher separates his hands as he begins to deliver a pitch, he may step backward off the pitcher's plate without penalty. 6-1-3

SITUATION #26: While taking his stretch, F1 comes set with his leg in the air. Is this legal?

RULING: No. Both feet must be on the ground before F1 comes to a complete and discernible stop. 6-4-4, 6-1-3

SITUATION #27: Is a portable pitcher's mound legal?

RULING: No. 1-1-8

SITUATION #28: With the score tied, two outs, runners R1 on 3rd and R2 on 2nd in the last half of the 7th inning, the batter hits a long, high fly ball to left field which appears to be a home run. R1 advances and touches the plate, R2 has touched 3rd base and B5 has touched 1st base when the wind holds up the ball causing it to hit the outfield fence, rebounding into the field of play. R2 had deliberately removed his helmet before reaching 3rd base and prior to R1 having reached the plate. Believing the ball is going over the fence, the umpire does not declare R2 out until after the ball hits the fence. Does the run count since R1 had touched the plate at the time the out is declared, or is the out retroactive to the time the helmet was removed?

RULING: The run does not count since R2 removed his batting helmet which is the third out 8-4-1-j, 9-1-1-d

SITUATION #29: Team A has one player on the bench who has not been in the game when the right fielder gets injured. Team A's coach states he desires to play with only eight players rather than insert this player into the line-up. Legal?

RULING: No. If substitutes are available they shall be inserted. 4-4-1-f

SITUATION #30: R1 is on second base when B3 doubles to right field. As R1 rounds third base, he (a) collides with the coach; (b) slaps hands with the coach in celebration; (c) slips and falls, after which the coach puts out a hand and helps him to his feet. Is the runner out?

RULING: In (a) if the coach is in the coaching box there would be no penalty. In (b) there is no penalty. In (c) the runner would be declared out. 3-2-2-a

SITUATION #31: A pitch eludes the catcher and lodges behind the catcher's chest protector. R1 was attempting to steal 2nd base on the pitch, and continues to 3rd base when the catcher has trouble getting the ball from behind his protector. Is this a legal advance?

RULING: The ball remains alive and runners may advance at their own risk. 8-3-3

SITUATION #32: The coach of Team A has been restricted to the dugout because of an argument with the plate umpire. In the next inning he calls his pitcher to the dugout for a defensive conference. Is this legal?

RULING: Yes. The coach of Team A is restricted to the dugout. However, he may coach from the dugout. 3-3-1 Penalty

SITUATION #33: The coach of Team A has all of his players in the game and has no legal substitutes. F3 argues a play and is ejected. Team A continues with eight players. At the end of the next inning another player, who was in school detention, arrives. May he (a) enter as the ninth player or (b) replace one of the remaining eight players?

RULING: In (a) this would be illegal. Once a team has only eight players, it cannot return to nine. In (b) he may enter for one of the remaining eight players and Team A could continue playing short. 4-4-1

SITUATION #34: There is an opening in the outfield fence the 410 foot mark. During the pregame conference the home team coach announces that any batted ball going through the opening is a ground rule triple. The visiting coach objects to this ruling. How is this settled?

RULING: The plate umpire states that any ball going through the opening will be a ground rule double. The rule book does not allow for a three base award in this instance. 8-3-3-

SITUATION #35: B2 enters the batter's box with a ceramic bat, which is illegal, and takes one pitch. May B1 be ruled out even though he has not attempted to hit a pitch?

RULING: Yes. B1 is to be called out because he entered the batter's box with an illegal bat. 7-4-a

SITUATION #36: Team A has been charged with three defensive conferences. The coach of Team A calls time out and goes to the mound to talk with F1. The coach (a) leaves the mound without removing F1, or (b) brings S10 with him to the mound to replace F1. May F1 return as a pitcher?

RULING: No in (a). The coach did not replace F1 until told by the umpire. In (b) since the coach removed F1 on his own, a defensive conference was not charged. 3-4-1

SITUATION #37: In the first game of a tournament, Team A loses to Team B, 5-4. In the first inning of the next game, the visiting team scores four runs before the coach of the team on defense takes a charged conference to visit with his pitcher. The pitcher complains to his coach that he feels that the pitcher's plate is too far back. The coach informs the umpire-in-chief that the pitching distance could be in error. When measured, the umpire-in-chief agrees. Does Team A from the first game have grounds for a protest and should the home team of the second game be allowed to bat against the opposing pitcher at the incorrect distance?

RULING: If the pitching distance is incorrect or bases are not at the proper distance, when detected the error should be correct immediately. In the first game, Team A would not be allowed to protest. In the second game, the error would be corrected and the game resumed. The visiting team's pitcher would not have to pitch to the home team at the incorrect distance. 1-4-2

SITUATION #38: With R1 on first base, F1 turns his shoulder toward first base while (a) straddling the pitcher's plate or (b) after engaging the pitcher's plate.

RULING: Legal in (a). Balk in (b). Once F1 engages the pitcher's plate, he cannot turn his shoulders toward first base, unless he follows through with a throw. 6-1-1

SITUATION #39: Having had three defensive charged conferences, in the sixth inning, the coach goes to the mound to visit with his pitcher, who has walked two consecutive batters. Is this a charged conference?

RULING: A conference would not be charged if the coach replaces his pitcher. The pitcher being replaced would be allowed to return to pitch. 3-4-1 Note

SITUATION #40: Having had three charged conferences, the coach of the defensive team asks for time to visit with the catcher for an opinion as to whether the pitcher was starting to tire. The umpire informs the coach that he has taken a fourth charged conference, and therefore, his pitcher must be removed as pitcher for the duration of the game. The coach tells the umpire that he intended to replace his pitcher, but wanted the catcher's opinion first.

RULING: If, after talking with the catcher, the coach replaces his pitcher, the pitcher may return to pitch. However, if the coach does not replace his pitcher and starts to return to the bench or dugout, the umpire shall inform the coach that he has had a fourth charged conference, which results in the removal of his pitcher, as pitcher, for the duration of the game. 3-4-1 Note, Penalty

SITUATION #41: Having had two charged conferences, the coach of the defensive team asks for time to talk to his catcher. When the conversation has concluded, the coach hustles over to talk with F5 before leaving the field. How many conferences should the coach be charged?

RULING: Only one charged conference would be assessed. There is no limit to the number of defensive players a coach can have a conference with. However, the umpire will determine what is a reasonable amount of time for the charged conference. 3-4-1

SITUATION #42: In the seventh inning, with the score tied, bases loaded, and two outs, the coach of the defensive team calls "time" for a conference. Upon being granted "time," the coach advances toward the catcher to have a conference with him, while the assistant coach runs over to talk to F3. Is this considered one conference, two separate conferences, or should the assistant coach be permitted to have a conference?

RULING: This is considered one charged conference. When the coach's charged conference is completed, the assistant coach must terminate his meeting with F3. If the assistant coach delays the game by not being ready, he could be assessed a charged conference. 3-4-1

SITUATION #43: B1 hits ground ball that rolls along third base line and touches both outside and inside the line. The ball bounces directly over third or touches third. It alights on foul or fair ground.

RULING: Fair ball. 2-8-1

SITUATION #44: What is the time of the pitch for the (a) windup or (b) set position?

RULING: The time of the pitch occurs in (a) when the pitcher commits himself to deliver to the batter, i.e., when he starts his wind-up or pumping action. In (b), it is when the pitcher continues his delivery after separating his hands with the ball in front of his body prior to delivering the pitch. 2-10-1
