Fine Schedule Adopted For '95-96

Bylaw Change Effective June 1

After nearly a year of study, the Board of Control has instituted a schedule of fines in accordance with the findings of the Task Force on Interscholastic Athletics. As a result, and in accordance with the change in Bylaw 30, the KHSAA Commissioner may assess a monetary fine against an individual or member school for the following offenses:

A maximum of \$50 for

a - Late school information sheet (Form 5) or other required documents to association.

d - Late membership dues payment.

e - Late reporting of participation list for catastrophic insurance verification.

A maximum of \$100 for

a - Filming or videotaping of a contest by nonparticipating schools without approval of competing teams and/or tournament manager.

b - Failure to properly certify athletes with respect to age.

c - Removal of team from field or court prior to completion of game.

d - Failure to provide proper game administration personnel at contest site.

e - Coaches criticizing specific contest officials to media.

f - Use of nonregistered officials.

Grant Talbott, Chairman of the All-Sports Committee, was called for his report and made the following recommendations:

1) The officials registration fees for full-time college students be reduced to \$15.00/first sport and \$10.00/second sport. Fees for officials serving the Association for 25 years will be waived. Both items are to take effect beginning with the 1995-96 registration period. Bob Rogers seconded, motion passed.

The motion failed 6-5.

Ken Cox, Chairman of the Basketball Committee then gave the following report and asked that it be approved.

Stan Steidel made a motion that the Board send to the State Board the original Proposal to Bylaw 40, Girls Basketball Tournament, Girls' Fast Pitch Softball. Steidel made his initial proposal before the Board and now would like to change what was passed by the Delegate Assembly back to his original proposal. The two proposals are nearly the same other than the Delegate Assembly proposal -- requiring the hiring of a coach

first -- is in violation of the State Constitution. Based on this, he made a recommendation that the Board send to the State Board our approval of the following which was a change in the interpretation of Bylaw 40:

To qualify as having "sponsored" a sport, a school must be able to demonstrate the following:

1) If similar versions of a particular sport exist and there are differences in the scholarship opportunities at the NCAA level in that sport, a survey must be taken of the student population at reasonable times and places to determine the level of interest in the sport(s).

2) If said survey reveals sufficient interest to field the normal squad required for play in the particular sport and if any version of the sport is to be played, the school shall make facilities, staff and other allowances to properly field a team in the version of the sport for which the NCAA members offer scholarships.

Q/A - Are schools required to sponsor fast pitch softball if that school offers slow pitch? Yes. Schools are required to be able to demonstrate through the criteria in Bylaw 40 that all efforts have been made to "sponsor" the sport.

Q/A 2 - Can schools play slow pitch softball without playing fast? Yes, but only if school representatives can demonstrate that the requirements for "sponsoring" the sport have been met according to the bylaw and insufficient interest is obtained from the student population.

Rationale - This change would clarify the intent of the legislation which directed the State Board through the KHSAA to promulgate administrative regulations to enforce the law. This is also consistent with other "sponsoring" implications in similar policies of the KHSAA.

Tasso Harris seconded the motion which passed 9-5.

There being no further business to come before the Board, Ozz Jackson made a motion to adjourn. Ken Cox seconded the motion which passed. The meeting adjourned at 12:30 p.m.

Eligibility Hearings

MINUTES

The KHSAA Board of Control met in Lexington at the Hyatt Regency on Thursday, March 16, 1995, for the purpose of hearing eligibility appeals. These appeals were scheduled to be heard by the East Eligibility Committee on March 8; however, due to the weather conditions on that day and due to the fact that only five of the members were present, each appellant was given the opportunity to be heard at a later time before the entire Board. Mr. Frank Cardwell called the meeting to order at 9 a.m. All members of the Board were present with the exception of Ken Cox and Wendell Thomas. Others present were Commissioner Louis Stout, Asst. Following return to Open Session a motion was made to either grant or deny the appeal. A roll call vote was taken by the Secretary. The appellants were advised of the decision of the Board and Mr. Cardwell explained the Due Process Procedure in the event the appeal was denied. It was determined that nine (9) affirmative votes were needed to pass a motion or restore eligibility.

Following is the disposition of each appeal:

- 1) Brian Glass - Anderson County; Bill Beasley made a motion to table the appeal. Tom Bryant seconded the motion which passed unanimously.
- 2) Jason Penn - Corbin; Stan Steidel made a motion to deny the appeal. Bill Beasley seconded the motion which passed by 11-3 vote.

Basketball Group To Review 9th Region

MINUTES

January 19, 1995

Ken Cox called the meeting to order at approximately 8:05 p.m. on Wednesday, Jan. 19, 1995. He apologized for the late hour, but indicated prior obligations made it unavoidable. Those in attendance were Ken Cox, Cookie Henson, Bob Rogers, Ozz Jackson, Kathy Hopper, Larry Boucher, Ken Trivette and Louis Stout.

Mr. Cox indicated he had spoken with Louis Stout, Larry Boucher and the basketball coaches group and that several issues and concerns needed to be addressed by the Committee. Mr. Cox indicated he had asked Larry Boucher to formulate an agenda from which to begin committee discussion and that Mr. Boucher would be the staff liaison for the Committee. He asked Mr. Boucher to explain the handouts he had prepared as it relates to the basketball team alignment.

Mr. Boucher passed out a map of the state, broken down by basketball regions, with a listing of the teams playing in each region. He indicated it was possibly outdated, but was a place from which to begin discussions. He also passed out a listing of the team alignments taken from the 1994-95 KHSAA Handbook which he indicated could be used as a cross reference because it was a more up-to-date, accurate listing. He also informed the Committee that Heritage Academy will be added to the 9th Region teams beginning with play in the 1995-96 year.

Ken Trivette indicated corrections needed to be made in the map regarding teams listed in 10th Region. He mentioned that only 15 teams are now playing boys' basketball. Tollesboro has consolidated with Lewis County, Maysville is now a part of Mason County and Millersburg Military Institute is not playing this year, although they come and go with a team in any given year. Maysville's St. Patrick still has a team.

Mr. Cox said that the 9th Region is the only region which he has heard mention the need for a realignment of teams. He acknowledged that a basketball realignment issue is a very emotional one. He asked for input from those in attendance regarding anything they may have heard in their respective areas regarding a basketball realignment.

Mr. Trivette indicated there is a problem with 25 teams in the 9th Region, 23 teams in the 7th Region and 15 teams in nearby regions. Maybe a review should be made of nearby regions rather than a review of the entire state. He felt a greater concern on the part of coaches was three-team districts compared to some districts with seven teams. He feels balance should be the goal.

Kathy Hopper said that looking at the map did show some imbalances, but no one in the Louisville area had said anything to her about it. She indicated there is some fluctuation with participating teams in her area as well. She would want to get some input before forming an opinion.

Ozz Jackson indicated people were pretty well satisfied in 13th and 14th Regions.

Mr. Trivette felt that the 10th Region should be looked at when trying to solve the overflow problem from the 9th Region. This is in light of a possible further reduction in the number of 10th Region teams. Deming and Augusta High Schools are small and talk has been over the years that from year to year their existence is in question.

Bob Rogers stated that there are no problems in the western part of the state. The admittance of Fellowship Christian Academy into the 4th District eliminates three-team districts down his way. He is not interested in realigning the entire state,

...there is a problem with 25 teams in the 9th Region, 23 teams in the 7th Region and 15 teams in nearby regions. Maybe a review should be made of nearby regions rather than a review of the entire state.

but he is not opposed to looking at isolated problems.

Claudia Hicks mentioned that the 16th Region have heard rumors regarding Bath County wanting to come to the 16th Region, but have not heard about that for some time. The 16th Region might be able to absorb some overflow, but there has not been any controversy or questions lately.

Cookie Henson has not heard anyone complain, but would be willing to review her area if necessary.

Ken Cox said that he was not inclined to look at realigning the entire state, but that the 9th Region imbalance needs to be reviewed.

Mr. Cox asked Mr. Boucher to conduct a survey or provide some sort of communication to teams in the 9th and 10th Regions that the Basketball Committee is looking at some apparent imbalances in team alignments in these areas and see if there are any voluntary suggestions that they might have to correct the problem. Let them know that nothing is definite, but that if they might have any suggestions to provide the Committee they should do so.

A discussion occurred regarding the problems at the Boys' State Tournament over teams wanting to use a wide seam or narrow seam basketball in their game. We flipped a coin to determine which one to use and usually complaints were heard. It was decided that the KHSAA would get some basketballs from the Corporate Sponsors for basketballs and send some samples to the Kentucky Association of Basketball Coaches and them pass the basketballs around at their meeting and possibly a recommendation from them as to which ball to adopt - wide or narrow. Then we could possibly inform the member schools of which ball we will use in the tournament.

Mr. Cox opened up dialogue on 3-person officiating possibilities. Mr. Boucher passed out a listing he had developed on the pros and cons of 3-person officiating. It seems the primary objection to adopting this officiating style in the financial costs to the schools. One way to eliminate some of that costs might schedule boys' and girls' varsity doubleheaders and let the same three officials do both. Boys' and girls' JV games would be scheduled as doubleheaders on different nights and the same 3-person Crew would do both of those games. Mr. Trivette did not feel that the majority of current coaches would want to change the current boys' and girls' varsity/JV format. The JV programs are feeder programs to the varsity squad and this would hinder that tie-in. The Committee felt a possible shortage of officials, the overall lack of training, the uncertainty as to whether it actually proved the game was better officiated and, specifically, the financial impact would prohibit it from recommending a move in that direction at this time. If future consideration is warranted, then it might be best to experiment at the post season level. Further discussion on the issue was tabled.

A general discussion occurred about officials officiating both boy's and girls' games. Some discussion centered around some top quality officials who would not officiate girls' games or who did not because they felt it wouldn't require as much effort. Eventually, the Committee discussed the prime playing nights and the inequality with regard to which gender got to play on these nights. The Committee agreed that a draft letter should be prepared encouraging schools to consider scheduling boy/

KHSAA Names Molten Official Ball In Three Sports

Molten has been named the official ball of the KHSAA in the sports of basketball, soccer and volleyball. Commissioner Louis Stout signed the agreement which gives Molten official ball status for five years, beginning July 1, 1995 and extending through June 2000.

The contract requires the KHSAA to use Molten throughout postseason play in the three sports. In turn, Molten will supply the in-kind product and cash valued at \$200,000 over the life of the contract.

"Molten is very proud to be associated with the KHSAA," Michael Krieger, Eastern sales manager for Molten, said. "Our efforts will be to work with the Association for the betterment of high school athletics in Kentucky."

"Having Molten on board as a major corporate sponsor will improve our tournaments while providing this Association with funds needed to help both our schools and student-athletes," Stout said.

"Wilson will continue to be the official ball for football, softball and baseball. That five-year deal for in-kind products and cash will bring the KHSAA \$50,000.

Paintsville's Brugh Retires

Walter Brugh, the all-time winningest coach in Kentucky high school football history, called it quits April 17. Brugh spent 44 years as a football coach at Paintsville, the past 39 as the head man. He finishes his career with a 279-136-5 record. At age 68, he's also retiring as Paintsville's director of pupil personnel, a position he held since 1959.

Brugh guided the Tigers to two state runner-up finishes in 1979 and '85. But his biggest win came on Oct. 15, 1993 when he surpassed Bardstown's Garnis Martin to become the state's all-time winningest coach. Now with his retirement, North Hardin's Joe Jagers becomes the state's winningest active coach with 260 victories.

Johnston Elected To Board

Bourbon County athletic director Kathy Johnston was elected to a four-year term on the KHSAA's Board of Control beginning in July. Johnston will replace outgoing Board member Claudia Hicks of Rowan County and will hold one of four minority seats on the Board.

Two other current Board members, whose terms were to

expire this June, were re-elected for four more years. Frank Cardwell, the current president of the Board and principal of Franklin-Simpson, and Stan Steidel, athletic director and basketball coach at Dayton, will both continue to hold seats on the 16-member board.

The State Department of Education, which places four at-large members on the KHSAA's Board, will fill Tom Bryant's spot this summer. Bryant, the basketball coach at Centre College, was selected to serve a one-year term only.

Napier Joins Unique 300 Club

Randy Napier, the girls' fast pitch softball coach at M.C. Napier, won his 300th softball game in April to run his career record to 300-102. Napier, who also coached M.C. Napier to a girls' state basketball title in 1994 before resigning that position at the start of the 1994-95 season, has a 338-108 mark in girls' basketball. He'll return to the sidelines in basketball next season as the head man of the girls' program in both sports at new Perry Central.

Reed Resigns

Washington County football coach Jimmie Reed, a leader in promoting football in Kentucky, has resigned his coaching position at the school. Reed, who coached the Commanders for 17 years, left with a 113-78 record. He will remain at the school as athletic director and guidance counselor and will continue to serve as Executive Director of the Kentucky High School Coaches Association and game director of the Kentucky-Tennessee All-Star football game.

Reed, a former UK football player and whose son J.D. now plays for the Wildcats, guided Washington County to a regional title in 1979, three district crowns and eight playoff appearances. The Commanders finished 5-6 in 1994.

Brown, Winningest Girls' Basketball Coach, Quits

The winningest girls' basketball coach in the state of Kentucky has resigned. Bill Brown, who compiled a 445-115 record in 19 years as head man of Southern's girls' basketball team, quit in April. He guided the Lady Trojans to 14 district titles, 14 regional crowns and a 1988 state title. He also coached Miss Basketball Lisa Harrison that same year. The proposal could then be re-submitted for approval. Frank Welch seconded the motion which passed.

The Board then went into Executive Session to discuss a legal matter. Tasso Harris made a motion, seconded by Stan Steidel to return to Open Session.

Tasso Harris made a motion, seconded by Cookie Henson, that the Board declare an emergency on a proposal to amend Bylaw 40, as submitted by Mr. Stan Steidel, Dayton High School. The Board directed the Commissioner to deliver this proposal to Mr. Joe Kelly, State Board Chairman, on Monday, Jan. 23, for submission to the Feb. 8-9 meeting. The motion passed 9-2.

Teresa Isaac left the meeting.

Ms. DeVries submitted a Swimming realignment and requested approval of the changes as recommended by the Swimming Advisory Committee for the 1995-96 school year. Grant Talbott made a motion to approve the alignment as presented. Tasso Harris seconded the motion, which passed unanimously.

Commissioner Stout announced the appointment of a Hearing Officer, Judge George E. Barker, Lexington, to begin on April 1, 1995.

Mr. Stout advised the Board that the State Basketball Tournament dates for 1998 should be changed as follows: Girls - March 11 - 14; Boys - March 18 - 21 due to a conflict at one of the sites.

There being no further business, Cookie Henson moved for adjournment. The meeting adjourned at 12:15 p.m.

girl varsity doubleheaders more often in future years to address gender equality concerns as well as the concern over the number of nights our children are out attending events.

The committee discussed postseason tournament site rotation plans. It was mentioned that we pretty much have rotation plans for district play, but seems Committee members felt a regional rotation plan should also be in effect. Commissioner Stout has indicated he wants to pursue this concept if possible.

The Committee briefly discussed and was asked by Ken Trivette to give further thought to the following issues: (1) summer play for athletes and possible need for a dead/no play period during the summer (2) the need to revise the seat belt rule on coaches because of the rule change in the number of technical fouls now required to disqualify coaches (3) whether seeding for post season tournaments should be required or eliminated so that all districts and teams across the state are consistent.

The meeting was adjourned.

Without Officials, Sports Wouldn't Exist

by Dr. Thomas Tutko

The following article appeared in the April 1994 issue of the National Federation magazine.

No system can exist without a set of rules and regulations. Regardless of how we feel about them, believe in them or even think they are fair and equitable, rules and regulations are critical. They represent the foundation. All systems have groups to enforce these regulations to make the system work.

The sports world is a glaring example of this policy and the group designated to enforce the rules is the officials. Without officials, sports would fail to exist. The official's responsibility is to ensure that each individual and team gets and opportunity to perform their best within the rules and regulations.

We have reached a strange cross-road in sports where limits are tested in almost every direction. Testing limits can be exciting when we are thinking of performance records, or interesting when we are thinking about attendance records, but when we get to testing rules and regulations as enforced by officials, we have taken a step in a direction that sincerely needs to be questioned.

In the last several years, official bashing seems to be on the rise. Some coaches have developed a reputation for "getting on the officials" and even go so far as to draw in the crowd to join them. There are those coaches who try to manipulate officials psychologically, hoping to gain that slight advantage when it

comes to calling "close ones." There are even those who will attempt to create some form of intimidation in order to gain the advantage.

Trying to intimidate an official may have some advantages. Consciously or unconsciously, an official may give the intimidators a slight edge. Being an official is a strange activity. The only way officials know they have done a good job is to be ignored. A good game is one without a fuss. This runs contrary to what most of us call a rewarding job. On one level, officials may be far more dedicated to the sport than the fan, coach or even player. There are few rewards, minimal accolades, and the potential for great abuse. They have taken it upon themselves to be entrusted with the control of the game. They are to be saluted for assuming that responsibility.

For officials to be truly recognized, however, more needs to be done in the form of support. In Japan, baseball players bow to the umpire; in the United States we kick dirt on them. This is not to imply officials are always right, they never make mistakes or they are flawless.

Being human, we are all subject to make mistakes. Regular scrutiny by peer and inspection committees help to minimize these. Close inspection of most officials indicate the vast majority of the calls are in fact, correct. Only a few calls can be considered questionable.

Referee Dick Morris and umpire/son Corky Morris talk to the captains during the 1994 Class 4A state championship game.

Greater support needs to come in the form of more severe punishment for those who choose to threaten the game by discrediting the interpreter of the rules -- the official. Longer suspensions, stiffer penalties and more severe reprimands are in order so that the official can know he/she is supported.

On a more subtle level, coaches and athletes who bash officials are subjecting them to psychological abuse. To "get all over an official" is to say that person is either stupid, inept, biased or just plain cheating. This is perhaps the most humiliating part of being involved on this end of sports.

From a psychological standpoint, official bashing provides an interesting insight into the coaches. One way of diverting the blame for poor performance from the individual, team or coach is to blame the official. This phenomenon, called displacement, shifts the burden from actual source to someone else. Admittedly, the officials may make mistakes, but a chronic complainer is one who is not willing to assume responsibility.

Everyone has a memory or two about an official. The called third strike that was debated, the catch that was in bounds that everyone thought was out of bounds, or the interference call that you felt was just too close to make such an important decision -- are all memories that we can look back on and say "what if." What we might look back on instead is the person with the courage to take the game into his/her hands and temporarily stop the game in order for it to be played fairly. Instead of bashing the individual, we ought to take a few minutes to admire and respect someone with those special qualities.

We continually admire jocks and coaches; maybe it takes more to be an official.

Officials Re-registration

The Kentucky High School Athletic Association will mail out re-registration information to all officials this month. This registration period will run until June 30. Officials registering after that date will be subject to a late penalty.

Once again for 1995-96, the registration fee is \$25 for the first sport, \$15 for each additional sport. Softball officials will notice that both slow pitch and fast pitch softball are listed on the form. The sports are separate and will be treated likewise.

The KHSAA utilizes a deadline of June 30 so that a complete listing of all officials can be compiled, printed and distributed when the new school year begins. If re-registration occurs after June 30, a \$25 late fine will be assessed.

Persons wishing to register for a first time in a new sport must contact the KHSAA at (606) 299-5472 for the proper forms.

Did You Know...

- The KHSAA registers and trains nearly 3,000 officials each year?
- The KHSAA serves 284 member schools across Kentucky while also sanctioning out of state competition?
- That there are more than 40,000 student-athletes participating in high school sports in Kentucky?

Teams To Shoot Two On 10th Foul

New Free Throw Rule Highlights Changes For 1995-96 Basketball

KANSAS CITY -- Awarding two free throws for common fouls beginning with the 10th team foul in each half was among a number of rule changes approved by the National Federation Basketball Rules Committee March 26-27.

Beginning next season, the bonus is still in effect for common fouls starting with the seventh team foul. But starting with the 10th team foul, two free throws will be awarded.

"This places a greater penalty against teams that continuously foul at the end of the game and will hopefully discourage fouling that currently takes place during the last two or three minutes of many games," said Rick Wulkow, chairman of the National Federation Basketball Rules Committee and administrative assistant of the Iowa High School Athletic Association. "The new two free throws after the 10th foul was supported by two-thirds of the coaches, officials and state association personnel who responded to the National Federation questionnaire."

Another rule change adopted by the committee stipulates that bench personnel may not leave the confines of the bench during a fight. The committee established that one team technical foul is charged even if multiple violations occur. A technical foul is charged indirectly to the coach in this situation.

If an individual participates (actually fights), then he or she is also disqualified and individual two-shot penalties will be awarded.

"Bench personnel" includes everyone on the bench, including substitutes, statisticians, team managers and coaches. If any of those individuals leave the bench during a fight, it results in the disqualification of the offending individual. If the offending individual is a student, he or she must remain on the bench. If the offending individual is an adult, he or she must go to the locker room.

"The committee also defined the term 'fighting,'" said Dick Schindler, assistant director of the National Federation and editor of the high school basketball rules. "Fighting includes, but is not limited to: attempting to strike and opponent with arms, legs or feet; attempting to punch or kick an opponent, regardless if there is contact, or instigating a fight by committing an act that causes an opponent to retaliate by fighting. It can be a 'live ball' or 'dead ball' situation."

In other committee action, no free throw shall be attempted after time has expired at the end of the fourth quarter, or any extra period, unless the point(s) would affect the outcome of the game.

The committee also revised Rule 9-9 to state that it is not a violation if a defensive player, who jumped from the frontcourt, secures control of the ball while both feet are off the floor and he or she returns to the floor with one or both feet in the backcourt.

"This rule eliminates the 'over and back' call and rewards a good defensive play," Schindler said. "It is similar to the basic exceptions which exist for both teams on the 'jump ball' and 'throw-in' situations."

In an attempt to get intentional fouls called more consistently, the committee expanded the definition of "intentional foul" to read, "...the foul shall also be ruled intentional if, when playing the ball, a player causes excessive contact with an opponent."

Among other rules revisions made by the committee were:

- When play is resumed with a throw-in or free throw and three-tenths of a second or less remains on the clock, the player may not gain control of the ball and

try for a goal. In this situation, a tap toward his or her basket could score. However, this rule does not apply if the clock being used does not display time in tenth-of-second increments.

- The use of tobacco, or smokeless tobacco, by players or any bench personnel shall be a technical foul.

- Deleted the two-foot center circle and jumpers requirement.

- Deleted the requirement that officials signal the point value of a successful free throw or two-point field goal (the point value of a successful three-point field goal, however, shall be signaled by the official).

- The player's undershirt shall not have frayed or ragged edges.

- Beginning in the year 2000, a team squad list shall not have both numbers "0" and "00". This rule change was made since most computers can't differentiate between the two.

- Defined rebounding, obtaining and maintaining position.

- Playing time and the number of quarters for non-varsity games may be reduced by mutual consent of opposing coaches.

- In games played in six-minute quarters, an overtime period shall be three minutes in length. In that way, such a game would have the same ratio as a

(Continued, Next Page)

Warren East's Jamie Britt was hammered on this play by Marion County's Tina Spalding during the 1995 Girls' Sweet 16. New rules regarding foul shots will take effect next season.

Basketball Rules

game with eight-minute quarters and a four-minute overtime period.

• No player in a marked lane space shall fake to cause an opponent to violate.

"The major concerns of the committee in which no rules were changed have been expressed in the adoption of the points of emphasis for the 1995-96 season," Wulkow said. "The points of emphasis, which will be discussed at rules clinics prior to the season, will be: rough play, swinging arms and elbows, loose ball contact; objectionable, visible body markings and body decorations on players; and intentional fouls. Hopefully, such emphasis will call attention to these problem areas and reduce some of the committee's concerns.

Basketball is the second-most popular high school sport for boys with 530,068 participants -- and the most popular in terms of school sponsorship with 16,451 schools offering the sport -- according to the 1993-94 high school athletics participation survey. It is the No. 1 sport for girls in both categories, with 412,576 participants in 16,016 schools.
