APRIL, 1941

\$1.00 Per Year.

From the President's Office

The annual meeting of our State Association will begin at 2:30 o'clock the afternoon of April 17th in the Y. M. C. A. in Louisville. There is submitted in this issue of the Athlete a list of the proposals which have been made for the consideration of the delegate assembly at that time. It is expected that the delegates will study these proposals, ascertain the group opinion of the schools which they represent, and then be prepared to act for the best interests of the Association.

The dinner meeting of the Association will be held in the ballroom of the Henry Clay Hotel which is only a block or two from the afternoon meeting place. A program is being arranged and will be announced in the daily papers as soon as we have received acceptance from the guest speaker. The dinner has been an annual affair since the Association was organized. It has always been well attended. We hope this year's dinner meeting will be the best we have ever had, both from the standpoint of program and attendance. Make your plans now to be present. Since the dinner will begin promptly at 6 o'clock, we expect to adjourn by 8:15.

After twelve years of service extending over half the entire history of the State Association, I have determined not to seek or accept reelection to the presidency. This decision has been urged upon me for a number years by a consideration of my own self interest, but each year around election time I have let the memory of pleasant associations overrule my judgment. I leave the office without any regrets except the natural one which proceeds from my reluctance to give up the close association with the members of the Board of Control and with the superintendents, principals and coaches throughout the state.

I am grateful to the Association for its having honored me year after year by reelection without opposition. I nurture the hope that when my work is viewed in perspective it may be a source of satisfaction, perhaps of pride, both to myself and to our member schools.

I shall continue to be interested in the fine work which the Association is doing and, in advance of his election, pledge to my successor and to the members of the Board my loyalty and support.

From the Secretary's Office

REPORTS PAST DUE

School's Report on Basketball Officials.
1940 Football Participation List.
1940-41 Basketball Participation List.
Official's Report on Schools (Football and Basketball).

To Members of the Kentucky High School Athletic Association

As provided in Section 1 of Article X of the Constitution, the following proposals for changes in the Constitution, By-Laws and Tournament Rules, to be acted upon at the coming annual meeting, are hereby submitted to all members of the K. H. S. A. A. for their information. No amendments other than those submitted in the secretary's April letter may be considered at the annual meeting, except by a two-thirds vote of the delegates.

PROPOSALS

I. The Board of Control recommends that By-Law I be amended by adding the following section to be designated as Section 2 of this By-Law: "No graded school pupil enrolled in any grade below the ninth, either in graded or junior high school, shall be eligible for more than one year in each grade."

II. The Board of Control recommends that the following sentence be added to Section 1 of By-Law XIII: "The certificate of eligibility for a graded school pupil must show the grade in which he is enrolled."

III. The Board of Control recommends that the following paragraph be added to Section 3 of By-Law XXVIII: "After an official has received the certified rating, he shall continue to receive this rating each year, provided that he attends the regular K. H. S. A. A. Rules-Interpretation Meeting for that year."

IV. Coach W. J. Foster proposes that the last part of Tournament Rule 1 be amended to read: "and a state tournament on the third Friday and Saturday of March at a place to be selected by the Board of Control."

V. Coach P. M. Payne proposes that the last phrase of Tournament Rule 1 be amended to read: "and a state tournament on the third week-end in March at a location deemed best suited by the Board of Control. The Board of Control shall be guided by hotel facilities, gymnasium facilities and possible patronage."

VI. Coach G. L. Burns proposes that Tournament Rule 1 be amended to read as follows: "The Board of Control of the Kentucky High School Athletic Association shall directly, or through its secretary arrange for a boys' district basketball tournament in every district of the state where possible, on the first Friday and Saturday of March in each year; and a regional tournament in each region on the second Friday and Saturday of March; and a State Tournament on the third Friday and Saturday of March at a site to be selected each year by the Board of Control."

VII. Coach G. L. Burns proposes that Tournament Rule 1 be amended to read: "The Board of Control of the Kentucky High School Athletic Association shall directly or through its secretary arrange for a boy's district basketball tournament in every district of the state where possible, on the first Friday and Saturday of March in each year! and a regional tournament in each region on the second

STATEMENT

Of the ownership, management, etc., required by the Acts of Congress of August 24, 1912, and March 3, 1933, of The Kentucky High School Athlete, published monthly except June and July at Carrollton, Kentucky, for October 1, 1940.

Owner and Publisher, The Kentucky High School Athletic Association, Carrollton, Kentucky; Editor, Russell E. Bridges, Fort Thomas, Kentucky; Business Manager, Theo. A. Sanford, Carrollton, Kentucky.

Known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities—None.

(Signed) Theo. A. Sanford, Business Manager.

Sworn to and subscribed before me this fourth day of November, 1940.

(Seal) Luther Fothergill
Notary Public, Carroll County, Kentucky.

My commission expires June 20, 1942.

The Kentucky Coaches Association wishes to offer the following suggestions to the Kentucky High School Athletic Association:

(1) The 1942 state basketball tournament to sell reserved seats only, seats to sell for 75c and \$1.00. No standing room to be sold at any session. On Sunday morning following the regional tournaments a hundred tickets for each of the three sessions on Thursday be mailed to the sixteen winners, the unsold tickets of those sent to the winners to be returned to the tournament manager on Wednesday night, 6 P. M., in order that he may have time to place them on sale in Lexington. One thousand reserved seat tickets for Friday afternoon's session to be placed on sale Friday morning, one thousand Friday night tickets to be put on sale Friday afternoon, one thousand Saturday afternoon tickets to be put on sale Saturday morning, and one thousand to be placed on sale Saturday afternoon for the Saturday night session. By such arrangement the followers of the sixteen teams coming to Lexington on Thursday will have an opportunity to buy tickets for the Friday and Saturday sessions.

(2) We would like for the Board of Control of the Kentucky High School Athletic Association to consider having their representative to the Rules Committee Meeting hold the football clinics. We believe from his contact with men at the Rules Committee Meeting that he will be better prepared than any other who has not attended such meeting. Why should not the state as a whole have some opportunity to derive some benefit of the representative's experience on the Rules Committee?

(3) We should also like for the Board of Control to consider sending the party holding the basketball clinic to the annual meeting of the Basketball Rules Committee.

—A. L. LASSITER, President,
Kentucky High School Coaches Assn.

PREPARE OUR YOUTH FOR LIFE'S EMERGENCIES

(From Long Beach, California)

During this period of national defense, while our country is preparing to meet the present emergency, it is our duty as health, physical education and recreation men to prepare the youth of this country for any emergency that might arise. While the wheels of industry are rolling out our defense materials, we must build up the health and bodies as well as the morale of our young men. In order to accomplish this, we must have a well rounded program that will appeal to the youth who ordinarily does not participate in athletic activities.

This is a timely opportunity for us to demonstrate the real value of health education, both in our school systems and on our playgrounds. While industry is building munitions, battleships, airplanes and guns to help this great cause of democracy, let us not fall by the wayside but step up our own efficiency in producing better men. One of our great educators once said, "If I wanted to disrupt or undermine a nation I would start my propaganda on the playgrounds or in the classrooms of our schools." Let us see to it that through our own institutions and organizations there is nothing essential left undone in the development of wholesome and virile physical activity programs which will appeal to our youth to a degree that no time is left for the consideration of things which tend to demoralize or weaken our young men or create attitudes that are unpatriotic or un-American.

—California Interscholastic Federation Bulletin.

FIGHTER AND QUITTER

Fate called a quitter from the crowd
And barred his pathway to success;
At each new blow he wailed aloud
And faltered in the strife and stress;
An step by step Fate dragged him low
The easier each passing day,
And yet he struck no counterblow
Or ever upward fought his way.
And at the end he cursed the Fate
That swept him to such wretched state.

Fate picked a fighter from the throng
And barred his pathway to the goal
At each new blow with purpose strong,
He fought with ever braver soul;
And step by step he fought Fate back
The easier each passing day,
And soon, before the staunch attack,
Fate fled in terror from his way.
And at the end he blessed Fate's whim
That helped to make a man of him.

—Grantland Rice.

One reason we don't like the man who pretends to know more than we do is because he is so often able to prove it.

FROM THE SECRETARY'S OFFICE

(Continued from page one)

Friday and Saturday of March; and a State Tournament at the Armory in Louisville on the third Friday and Saturday of March."

VIII. Coach W. J. Foster proposes that the words "and runners-up" be eliminated in the second paragraph of Tournament Rule 7.

IX. Coach Case Thomasson proposes a new By-Law, to be known as By-Law XXXIV, to read as follows: "There shall be no practice in football from December 1st to the closing day of school. There shall be no practice in basketball from the time the school is eliminated in the district, regional or state basketball tournament to the closing day of school.

No equipment shall be issued except balls; furthermore, there shall be no instruction, nor shall there be any coach in charge of any group of boys using a ball. This eliminates signal drill, instruction in passing, foot work and kicking as well as any other form of practice under any kind of supervision.

Any subterfuge or sharp practice shall be construed as violation of the rule. Member schools who are violators of this out of season practice regulation shall be suspended from the K. H. S. A. A. for a period of one year.

In interpreting this rule the Board of Control shall be the sole judge as to what constitutes unseasonable practice."

X. Principal Wm. A. Cook proposes the following change in By-Law VIII: That in the first line after the word "have", omit the words "the week preceding, and".

XI. Principal Clarence Evans proposes that By-Law X be amended by inserting at the end of the first sentence the following: "When an official disqualifies a player, he shall report the name of the player to the principal of the home team school."

XII. Principal George T. Taylor proposes the following amendment to By-Law I: That the sentence which reads "No student who has been enrolled in high school (grades 9, 10, 11, 12) eight semesters shall thereafter be eligible." be changed to read, "No student who has been enrolled in high school (grades 9, 10, 11, 12) eight semesters shall thereafter be eligible, unless a boy who enters high school for the first time at the beginning of the second semester and who does not play basketball during that semester, may consider his four seasons of basketball opportunity as beginning with the next school year."

XIII. Coach Joe E. Johnson submits the following proposal: That the K. H. S. A. A. shall require all home schools to hire two officials for all basketball games, and that these officials shall receive a maximum fee of \$6.00 each."

XIV. Coach P. M. Payne proposes that the following be added to the last paragraph of Tournament Rule 4: "No official may be used in the district, regional or state tournaments to whom a participating school objects."

XV. Superintendent Will G. Logan proposes that By-Law II be amended to read: "All contestants will become ineligible on their twentieth birthday, except in case a student becomes twenty-one after the season begins he shall be eligible for that sport throughout that season with the following constituting seasons: football season, September through January 6th; basketball season, Thanksgiving through March 31st; baseball season, April 1st through June 30th."

XVI. Coach E. D. Jones proposes that Section I of Article VII be amended to read: "The annual meeting of the Association shall be an open assembly. Each member in good standing shall have one vote to be cast by the superintendent or principal or some instructor designated in writing by the superintendent or principal."

STATE BASKETBALL TOURNAMENT

The K. H. S. A. A. has just held another successful State Basketball Tournament. 18,873 people paid their way to the tournament for the privilege of seeing their favorite teams play. Passes to principals, coaches, players, newspapermen, and ushers increased the total by approximately 5,000 for the seven sessions. This was by far the largest attendance in the history of the tournament.

Although a few late tournament bills are still coming in, it appears at this date that the association will have a net profit from the tournament of slightly more than \$10,000.00. The largest profit realized previously was in 1939 when the amount was \$6,666.44. Total receipts, including profits on concessions, were more than \$15,000.00 this year. A complete report of the receipts and disbursements will be made at a later date.

TRACK

The State Track Meet, under the direction of Athletic Director Bernard Shively of the University of Kentucky, will be held in Lexington on May 16-17. The eight regional meets will be held throughout Kentucky on May 10. Mr. Shively will be assisted by the following men, who will conduct meets at the sites mentioned:

Preston Holland—Region 1, Murray.
Archie Riehl—Region 2, Henderson.
W. L. Terry—Region 3, Bowling Green.
Brad Jones—Region 4, Louisville.
John Schaar—Region 5, Bellevue.
John Heber—Region 6, Lexington.
Walter Grabuck—Region 7, Pineville.
Ernie Chattin—Region 8, Ashland.

Attention is called to the fact that 1½¢ mileage to and from the state meet and local entertainment, not to exceed \$6.00, are now allowed to each boy who finishes first or second in any event in the regional track meet.

BASEBALL

The Board of Control has authorized the secretary to manage for the second time a state high school baseball tournament and to set up the necessary regional tournaments leading to the state meet. Principals of schools which definitely plan to have baseball teams this spring will please write to the secretary and suggest suitable tournament sites. Tentative plans call for the dividing of the state into eight regions. The state meet will probably be held late in May or early in June. Most state high schools will have closed by this time, but the Board of Control has ruled that any boy who is eligible on the last day of school may play in the regional and state baseball tournaments. State tournament receipts will be prorated to the teams which advance to the final tournament, to defray a part of the expenses of the trip. The participating teams can definitely depend upon receiving local entertainment at the state meet.

GOLF

The State High School Golf Tournament will be sponsored by the Male High School of Louisville, with Athletic Director Frank White in charge. The exact date of the meet has not been determined. This will be announced at a later date. The state association will provide suitable trophies.

NOTICE TO OFFICIALS

Registered officials planning to attend the dinner meeting of the K. H. S. A. A., which is to be held at the Henry Clay Hotel on Thursday evening, April 17, at 6:30, will please make reservations with the secretary at once. Price of the meal \$1.00.

District Delegates to Annual Meeting - 1941 -

District Representative	Alternate
1. Esco Gunter, Central	Ira E. Simmons, Barlow

Schools' Ratings of Football Officials - 1940

Failure of a few member schools playing football to file reports with the secretary has caused several registered officials to receive no ratings for the 1940 season.

POINT OF VIEW

Kentucky plays Notre Dame in Louisville, Kentucky acting as host school holds the Southeastern tournament in Louisville. It is presumed that these athletic events were held there because of the inability of the University to properly care for the crowds and also for financial reasons. It seems out of order for Lexington fans to object to the largest athletic event in the state being moved for the same reasons which were o.k. in the case of the University. Isn't it possible that if the state board were given the authority to hold the finals as some place other than Lexington, that it would hasten the day when the University had a field house?

The basketball teams that reach the finals these days regardless of the size of their student body or the community which supports them are well coached. A good example of this was illustrated in the quarter finals when a team behind ten points at the half and looking bad came back with an altered defense and all but won the game, and lost only because of two easy crisp shots which were missed in the last minutes. There were other examples of expert handling in every round.

—W. J. Foster, Coach Newport H. S.

* * * * *

I should like to take this opportunity to express to you that I think the Board of Control has done a wonderful job with high school athletics in Kentucky.

"I wish to take this opportunity to express my appreciation to the coaches for the privilege of having worked in the state tournament. I assure them that it was a pleasure. As a whole, I feel that the coaches and players should be commended for the remarkable sportsmanship shown when the 'chips were down.' The teams showed that they were well drilled in fundamentals and their own team's system."

As a suggestion I believe it would be nice to have the home teams scorers and timers to attend the clinics in the future. It would result in more uniform working conditions from the scorer's table.

—Barney E. Wilson.

* * * * *

The Kentucky High School Basketball Tournament of 1941, in my opinion was the finest basketball classic ever played in the long years of the State Basketball Tournament. Summing up every aspect, all teams displayed fine sportsmanship, team work and individual play showed superior coaching, the officiating was the highest type of any tournament, the actions of the spectators showed satisfaction. This all proves the hard work and efforts of our Kentucky High School Athletic Association, in working hand in hand with the coaches and school men, to give Kentucky a basketball spectacle equal to any state.

—Monne Farrell, The Sutcliffe Co.

* * * * *

The past basketball season in Western Kentucky saw more good teams and better attendance at games than ever before. There were in my opinion better teams in the state tournament than in many years. Our greatest handicap is that so many of our tournaments, including the state tournament, must be held in gymnasiums that do not have sufficient seating capacity. Rule interpretations are more uniform throughout the state but still vary some in different sections.

—Preston Holland, Coach Murray H. S.

I have attended the State Basketball Tournament for the last twelve years. I have enjoyed every one of them even though I have had to stand a portion of each session. I believe the financial status of the Kentucky High School Athletic Association is such that no standing room between the timers, scorers, etc., on one side of the Gym, the reserved seat section on the other side, and the bleachers should be sold. I, as one school principal, would be glad to pay the full \$5.00 dues or more each year to the association if I knew that I would be able to sit and enjoy the games. Furthermore, I believe this would be a nice gesture in favor of the many women that come to witness these games each year. This is not a criticism of those who have managed the tournaments, but rather a point that might be considered in future years.

—R. C. Hinsdale, Principal Simon Kenton H. S.

* * * * *

I don't think I have ever seen finer teams in the State tournament, well coached and clean. The sportsmanship was wonderful.

We are getting so many fine letters and telegrams from all over the country that it gives one renewed faith in the athletics of our country. Everybody seems to have joined in to make it one of the greatest occasions possible for us.

Work is progressing nicely on our new gym and we hope to have it ready by the time the basketball season opens. We will probably have more boys out for basketball next year than ever before.

I would like to take this occasion to thank every body for the courtesies extended us during the State tournament.

—Russell Williamson, Coach
Inez, Kentucky State Champions.

* * * * *

Tournament officials and all concerned should be highly commended for the efficient manner in which the tournament was managed. Officiating was of a very high order; unwieldy crowds were good natured and well handled; "smoke abatement" problem improved, and the splendid type of basketball was most entertaining.

—Thos. E. McDonough, Director Athletics.

—Rome Rankin,

Eastern Kentucky State Teachers College.

* * * * *

The 1941 Kentucky State High School Basketball Tournament was the best I have ever witnessed from every point of view. Outstanding in my mind was the fine spirit of good sportsmanship of players, coaches and fans. From the official's viewpoint it was most enjoyable and I considered it a pleasure and a privilege to work with such a splendid group.

—Edgar McNabb, Bellevue, Ky.

* * * * *

All good material things must end and the 1940-41 basketball season is no exception. So, with the passing of the 1941 Kentucky High School basketball tournament and the crowning of Coach Williams' Inez "Indians" as champions of the state, ends another of Kentucky's great basketball wars.

Five hundred and thirty-seven teams, representing every nook of the Commonwealth, composed of five thousand three hundred seventy of Kentucky's finest boys, entered tournament competition with at least some hope of attaining the honor that Inez now holds.

No doubt you saw the champions play and no doubt you received the same impression as I, regarding the play of the true champions that the Inez

"Indians" really are. I was impressed with the remarkable nearness to the no-contact game to which the champions seemed to adhere, the few personal fouls they committed during the course of a game. Coaches, officials and fans saw in the play of the Inez team an outstanding illustration of the no-contact game that the game of basketball is meant to be.

Let us congratulate every coach in the state for a sincere effort to give to the high school boys of Kentucky the training that brings out the highest qualities of an athlete and congratulations to Coach Williamson and the Inez basketball team upon the outstanding demonstration of cooperation, technique, condition, sportsmanship, and the no-contact game as it should be played.

—Lyman Penn, Coach Lloyd H. S., Erlanger.

* * * * *

Is Basketball Fulfilling A Worthy Purpose?

Physical development, among many others, is one of the goals of the game. Most of these goals may pass inspection, however, one might question the proper attainment of the former under the present rules.

The game, it seems, has been "speeded up" for the benefit of the spectators at the expense of the participants. One has room to fear that lasting harmful results of some organic nature might result in many cases under the stress and strain of the game in its present form.

When any doubt exists, the participants rather than the spectators should be given first consideration when evaluating the results of any sport.

—G. K. Gregory, Prin. Dixie Heights H. S.

* * * * *

Basketball has not only maintained the strides that it has made in recent years here in the State of Kentucky, but it has added tremendously to what has already been accomplished. I believe that the teams this year in the State tournament were better coached and better drilled in all fundamentals than the teams have been in the past. I believe that mention should be made of the defensive work of the teams this year. Always in the past our teams have been well drilled offensively. This was also true this year, but the defensive ability of the teams excelled that of former years. The boys not only showed that they were able to take care of a man individually but they shifted nicely all screening plays and also floated to pick up loose men. The spectators' interest in this year's tournament was greater than in years past and I think that all officials of the State Association should be sincerely congratulated by all those who had an opportunity of watching the tournament. Athletics in the State of Kentucky as they are being handled by our State Association are in the best hands that they could possibly be in. Congratulations to all members of this Association.

—A. F. Rupp, Basketball Coach, U. of K.

* * * * *

I had two things impress me this year at the State tourney.

First—It was quite obvious again this year that the K. H. S. State Tournament has outgrown the present University of Kentucky gymnasium. Many people would not attend the sessions because of the crowded conditions. Practically everybody in the bleachers was forced to stand during the games due to the fact that all available space between the playing floor and the bleachers was sold to spectators causing those in the lower seats to stand to see over those before mentioned "standing spectators", resulting in those having seats behind doing likewise on up to the top row. No doubt Lexington is the city for the tournament, but when is the University of

Kentucky to get the "politically promised field house" for which there is such a dire need?

Second—Should consolation games be abolished in the interest of the boys and the sport? Is there any consolation in playing in a "defeatist" game? The players are not in the proper frame of mind to play in such a game. After their defeat in the semi-finals with the resultant "let-down" feeling they care little about playing for third place. Most of the players consider it drudgery and the result may be a demonstration of poor sportsmanship. I favor the abolition of consolation games although it may mean less receipts the final night. The boys should come first.

—W. H. Grabruck, Ath. Dir. and Coach, Pineville High School.

* * * * *

My opinion is that the past basketball season was characterized by improved quality of play all over the state and enthusiastic attendance.

The first round of the state tournament lacked the customary "dark horse" upset finishes, but the semi-finals and final provided deluxe competition with "photo" finishes. Outstanding features of state tournament play were—display of excellent coaching and mental poise of the teams under pressure.

—Bruce Daniel, Shelbyville Public Schools.

* * * * *

One of the most touching scenes, to me, during the State Basketball Tournament was: During a time-out period each team gathered in its respective huddle. Four boys of one team began to talk to each other all at the same time, while the remaining one bowed his head and clasping his hands began to pray.

I wonder if it is possible to measure the value of the game of basketball? There are so many angles to the game for consideration that it is an almost impossibility. Consider the physical aspect as to resistance, capacity, training and muscular skills; the emotional aspect as to the different reactions to the various situations and the variations pertaining to each individual boy; the social values gained by the associations of the teammates, opposing players, cheerleaders, school men, brothers, sisters, mothers, fathers and sweethearts.

Those who wish to criticize our High School Athletic Program, let them consider the lessons that are taught and learned during the playing of one basketball game. It is not merely a test of the skills taught by the coach to his players, but more. Could it be the sum total of all teachings and a manifestation of reactions that are inherent within each player? Basketball is not merely a game to prepare for life . . . it is Life!

—Buford Clark.

* * * * *

Since I have been a participant in the Kentucky State Basketball Tournament Finals for the past several years it is becoming increasingly obvious to me and other coaches that some accommodations must be made to handle the crowds witnessing the tournament games. With the most successful tournament in K. H. S. A. A. history just completed the need for a new fieldhouse is more pressing than ever.

It is my hope, along with that of others, that the urgency of this need will move the powers that be toward doing something about it.

—Bob Schumann, St. Xavier H. S.

* * * * *

Being an alumnus of the University of Kentucky, a native of nearby Richmond, and fully cognizant of the history of the State High School basketball tournament, and the desirability from many angles, sentimental and practical, of holding the tourney in Lexington has failed to suppress a growing conviction in my mind that the K. H. S. A. A. should take the

meet the Louisville, build a gymnasium of its own in Lexington, or thus automatically stifle the development of a game which is growing by leaps and bounds.

Many more converts to this thrilling sport could be gained annually by providing a more spacious and commodious site for the championship struggle. On all sides one hears this thought expressed. Hardly any one wants to move the tourney from Lexington; but every one wants to provide quarters which can meet the need, and the present quarters very definitely are not meeting this need.

The epitome of basketball perfection, scholastically speaking, is represented by Indiana quintets; therefore, the question annually arises as to how the Kentucky champions compare with the best in Hoosierdom. Having had an opportunity to watch the Madison Cubs (runners-up in the Indiana State tourney) during the season and the Inez magicians both during the season and in the state meet, I am convinced that the Kentucky champs could hold their own with the best of them.

—T. K. Stone, Principal Carrollton H. S.

NATIONAL FEDERATION MEETING

EXCERPTS FROM THE MINUTES OF THE EXECUTIVE COMMITTEE MEETINGS,
Saturday Night, February 22; Sunday Morning, February 23; Monday Afternoon, February 24

NOTE: In all cases where definite action was taken, a unanimous vote followed a motion regularly made and seconded.

The committee heard the Secretary's report on activities at the national office since the opening of an independent office on September 1, 1940. Office space includes two rooms, a reception room and a large storage vault on the tenth floor of what is known as the "Chicago Tribune Building" at the corner of Madison and Dearborn Streets in Chicago. This is one block from the corner which is considered the center of the Chicago loop. Compared with other space, the rental of \$60.00 per month is considered very reasonable. The offices are properly equipped with the necessary furniture, files and business machines. Facts relative to some of the activities are in the report on the Monday morning session.

The Secretary outlined some of the problems in connection with the **National Federation publications**. The number of such publications which were distributed during the past year exceeded 100,000. This represents a healthy growth in distribution but it is felt that this number can be still greatly increased with proper cooperation by the state associations.

The committee heard reports of the entire **athletic equipment testing and approval program**. They approved the actions of the Equipment Committee for the fiscal year. Such actions include:

- (a) The granting of National Federation approval to three basketballs marketed by the Rawlings Manufacturing Company of St. Louis. These three balls include two top grade balls which are marketed under the trade numbers VI VMS. These balls will have a school price of approximately ten and twelve dollars. The third ball will be marketed under the stock number V2. This ball may be stamped "Approved Intramural" and will have a school price next year of approximately eight dollars.
- (b) The committee also added its approval to one additional basketball which will be produced next year by each of the major manufacturers and which will have a school price of approximately eight dollars. Such balls have been thoroughly tested both in the testing machines and in practical use among laboratory high schools. The tests indicate that while these balls are not as durable as the top grade balls and not as good an investment as the top grade balls, they are entirely satisfactory for a limited length of time and for situations where the purchaser is interested only in first costs. Such balls must be stamped "Approved Intramural" or "N. F. O." to distinguish them from top grade balls.

(c) Further actions of the Equipment Committee which were approved by the Executive Committee were:

- (1) The refusal to permit the use of the National Federation approval stamp on any ball which is autographed by an individual, and
- (2) The decision to approve certain tested footballs of the molded type. Such molded footballs were legalized by the National Interscholastic Football Committee at their last meeting and will be available for use during the 1941 football season.

In connection with this national testing and approval program, certain schools in each of the states are being designated as national laboratory schools. Such schools have been assisting with the practical tests and in the collection of statistical material. The practice will be continued and extended with the full approval of the Executive Committee.

Still another item in connection with the approval program deals with the possibility of standardizing the method of attaching the new type basket to the fan shaped backboard. The Executive Committee authorized the Secretary to use every effort in an attempt to bring about such standardization and to cooperate with board and basket manufacturers to this end.

The Committee concurs in the opinion of the National Interscholastic Football Committee **relative to the rule modifications for six-man football**. In brief, this is to the effect that the best interests of both the eleven-man and the six-man game and of the high school athletic departments will be served by keeping the six-man modifications in the official interscholastic guide. This makes it unnecessary for officials, coaches or players to purchase separate rule books for regulation football and six-man football. Such policy also facilitates the making of rules and will prevent the football fundamentals from varying too widely in games played by different numbers of players. The proper way to make rules modifications which may be desirable from year to year is through the regular interscholastic machinery which has been set up by the high schools and which makes the interscholastic football rules possible. A sub-committee of the National Committee is made up of men who have specialized in the game as played by any number of men from six to eleven. No good purpose would be served by attempting to set up an entirely separate committee to make the rules for the modified game any more than there would be purpose served in setting up a separate committee to make rules for seven-man baseball or three-man basketball.

(Continued in next issue of The Athlete)

Interscholastic Football Publications

The Official Interscholastic Football Rules Books and Football Play Situations Books will be available during April. The new editions contain interesting and valuable material. The supplementary sections have been constantly improved from year to year and the current edition is no exception. Both books have attractively designed covers and the size is such as to make them convenient for use by coaches, officials and players. Copies ought to be in every high school library.

These books, which are illustrated in the accompanying cut, may be secured by member schools and registered officials through the state high school office, or they may be secured from established sporting goods dealers. The books are based on the action of the 1941 meeting of the National Interscholastic Football Committee. The rules and interpretations are official for all high school games played in this state and in three-fourths of all high school contests in the nation.

WELCOME, MICHIGAN! Michigan high schools will play under the Interscholastic Football Rules this season. Michigan is one of the few states that delayed adoption of these rules. During the past several years they have made gradual adoption of a number of the provisions which are to be found in the interscholastic rules but did not use the code as the basis for their rules study. During February a referendum vote was taken. Both principals and coaches voted on the question of whether the interscholastic football rules should be adopted. The vote indicated a three to one sentiment in favor of adoption and, as a result, the Michigan Council has announced that these rules will be official for the 1941 season.

Careful plans are being made for a comprehensive series of interpretation meetings to aid the transition from collegiate to interscholastic rules. This is being done in the usual thorough manner in which the Michigan group approaches problems of this kind.

OHIO RULES ACTIVITIES: Ohio is already planning a comprehensive series of basketball meetings for next fall. They are planning on full use of all of the National Federation basketball publications and their leading basketball men will be called to an all-day meeting where a uniform program for succeeding local meetings will be planned. It is possible that a similar program will be used for football. To date, the state has adopted most of the important provisions of the interscholastic football rules but has not adopted the code in toto, although the northeastern section of the state, including the high schools of Cleveland, have been using the entire code for several years. A decision relative to formal adoption of the entire code is expected in the near future. Adoption of the code by West Virginia and Michigan removes almost the last obstacle to adoption by Ohio.

The thirty states which have already formally adopted the interscholastic rules are hoping to have the full cooperation of Ohio for the 1941 season or, at least, by 1942. The Ohio Board of Control is favorably inclined toward adoption and the high school principals have expressed overwhelming approval of the interscholastic code. Some of the local groups of football officials have opposed adoption.

MARYLAND: A number of the high schools in Maryland are now using the interscholastic football rules. Edwin Semler of Hagerstown High School has become an advisory member of the rules committee. Formal action in connection with the use of the interscholastic rules by all of the schools will be taken some time during the year.

MISSISSIPPI: The question of adoption of the Interscholastic Football Code will be discussed at the Spring meeting of the association. The state is almost surrounded by those which play under Interscholastic Rules. A majority of the executive committee favors adoption.
