## *From the President's Office*

### To Member Schools And Officials:

As you plan for your 1942-43 athletic program you naturally anticipate problems of transportation. Tires and gasoline will not be available for trips as usual. There must be a reduction in team travel as there will be in spectator travel. With this in mind the Board of Control is urging schools and officials to co-operate in the proposals of the Central States Group of the National Federation.

1. Reduce your team travel by at least one-third of the average for the past three years.
2. Reduce travel speed to 40 miles per hour or less.
3. Urge parents, students, and fans to patronize home games rather than the games away. (Reduce spectator travel.)
4. Immediately begin to revise your schedules to conform to this reduced mileage.

Naturally, the revision of schedules will bring about cancellation of contracts. If any member school anticipates the impossibility of carrying out the provisions of a signed contract due to the lack of transportation facilities the principal should immediately contact the proper officials of the other school concerned and try to get a mutual agreement to cancel the game and the contract. The provisions of the KHSAA contracts do not provide for any release due to lack of transportation. Now is the time to settle all such controversies—do not wait till the week or the day preceding the game.

Officials are urged to exercise care and judgment in accepting contracts for games. They should not contract for games where transportation is not likely to be available.

Conferences having regulations prohibiting the use of HOME OFFICIALS will do well to consider the waiving of this requirement during the present crisis when officials will be so very difficult to get. To carry on our athletic program this year we shall have to use discretion and common sense and practice tolerance and good sportsmanship to a greater extent than has been our custom.

In the interest of National Defense during the present war emergency, the Board of Control desires to place before the member schools for their consideration the following statements:

1. A program of vigorous, competitive athletics is essential and desirable to the successful prosecution of the war.
2. Our interscholastic athletic program is one of the best means of developing physical fitness, competitive spirit, and morale.
3. Every effort not in conflict with Federal Restrictions should be put forth to maintain an interscholastic program in our schools.
4. Careful planning is necessary if we are to carry on in the face of present difficulties.
5. Wherever and whenever it becomes necessary to curtail the interscholastic athletic program greater emphasis should be placed on intramural athletics so that there may be larger and greater participation in the athletic program.

### A War Time Sports Program For Kentucky High Schools

Slowly, but none the less surely, the people of the United States are beginning to realize that we are engaged in total war. School officials responsible for programs of interscholastic sports are being criticised by government circles for their failure to offer constructive suggestions concerning the extent to which competitive sports may be conducted in keeping with government regulations as to the use of tires and gasoline. The following quotation is taken from a statement made by a ranking Washington official, "There has been not a single statement or effort on the part of high school athletic people to co-operate with the government in the war emergency. There have been no proposals to save rubber, gasoline or anything else; only efforts to get tires and gas and to look out for local interests."

If such criticism is justified, and seemingly it is, Kentuckians should be among the first to align themselves squarely behind the government program regardless of the consequences to high school athletics during the emergency. Of course we are reminded that vital materials including steel, rubber, and gasoline are being squandered even in high places for purposes that have no connection with the war effort, but that doesn't excuse the same practices by high school officials on whom rest the responsibilities of the athletic program.

### Suggestions For A Curtailed Athletic Program In Kentucky

1. Cancellation by mutual consent of all contracts involving long trips.
2. Elimination of track, baseball, tennis and golf tournaments for the duration.
3. Doubling the number of basketball districts enabling teams and spectators to attend nearby tournaments.
4. Elimination of tournament programs lasting several nights.
5. Establishing four semi-final state tournaments, possibly at Murray, Bowling Green, Richmond and Morehead.
6. Establishing a four team state tournament at Lexington or Louisville.
7. Employment of officials whose travel will be reduced to a minimum.
8. Emphasis on intramural sports increasing the number who participate.

AUGUST, 1942

Vol. V, No. 1

Published monthly, except June and July, by the Kentucky High School Athletic Association. Office of Publication, Henderson, Ky. (Second Class Permit Pending)

Editor.....W. B. OWEN Horse Cave, Kentucky

BOARD OF CONTROL

President.....Russell E. Bridges, Fort Thomas Vice-President.....W. B. Owen, Horse Cave Secretary-Treasurer.....Theo. A. Sanford, Henderson Directors—John A. Dotson, Benham; J. Matt Sparkman, Benton; Chris Purdom, Lancaster. Subscription Rates . . . \$1.00 Per Year.

FOOTBALL CLINICS

Clinics for the training of football officials will be held again this year by the K. H. S. A. A. Dates of the clinics will probably be late in August or early in September. The name of the clinic director and the sites to be used for the meetings will be announced at an early date.

1942-43 MEMBERSHIP

The secretary requests schools not to send in membership dues until the regular statement form has been received, and that principals fill out these forms in full, the information called for being necessary for complete and accurate records of the association. The Board of Control has made a few changes in districts. The 1942-43 booklet should be consulted for the correct number of district and region.

From the Secretary's Office

CHANGES IN RULES

Several changes were made in the K. H. S. A. A. Constitution, By-Laws, and Tournament Rules at the spring meeting of the association. These changes were given in the May issue of the magazine, and will also appear in the new booklet. The Board of Control asks every school official to make it a point of honor to know and carry out the rules. Requests for interpretations of the rules should be made to President Russell E. Bridges, Ft. Thomas, Kentucky.

IMPORTANT CHANGES

A maximum of twenty basketball games shall be played by a member school after December 31st and prior to the district tournament.

If competing schools are unable to agree upon officials, the President of the K. H. S. A. A. shall assign officials on the appeal of the home school and the cost of employing these officials shall be borne equally by the competing schools.

Rules and Regulations governing track meets of the K. H. S. A. A. have been adopted and printed in the booklet.

An additional Director was added to the Board of Control, terms of all officers changed to two years each, with the provision that the four Directors are not eligible to succeed themselves.

Drawings for the regional tournament are to be so arranged that the two representative from a district will be placed in opposite brackets.

REGISTRATION OF OFFICIALS

Fees for registered officials will again be \$2.00 in each sport. Application cards for registration and additional information concerning the clinics and rules examinations will be mailed to previously registered football officials within a few days. New officials who wish to become registered should write to the secretary's office in order that their names may be placed on the mailing list for this information. Fees should be accompanied by application cards filled out in full.

REPORT OF AUDIT

Kentucky High School Athletic Association

Louisville, Ky. July 25, 1942.

Mr. Theodore A. Sanford, Secretary & Treasurer Kentucky High School Athletic Association, Henderson, Kentucky

Dear Sir:

Pursuant to instructions received, we have made an audit of the books and records of the

KENTUCKY HIGH SCHOOL ATHLETIC ASSOCIATION

for the period of one year beginning July 1, 1941 and ended June 30, 1942. In addition we have prepared and attached hereto statements of the Receipts and Disbursements, which in our opinion reflect the true financial condition of the Association as of June 30, 1942.

The Cash Funds on hand and Postal Savings Accounts were found to be correct and verified by letter from your depositories.

We found the records presented us for purpose of audit to be in agreement and in good condition.

Respectfully submitted,

JOHNSON-FOWLER & COMPANY

By O. L. FOWLER

### Minutes Of Central States Conference

On July 20, executive officers from six central states met at Chicago to discuss problems created by rationing limitations. The following were present: ILLINOIS: C. W. Whitten, Albert Willis; IOWA: Lyle Quinn; KENTUCKY: Russell Bridges; MICHIGAN: C. E. Forsythe, Julian W. Smith; MISSOURI: Carl Burris; WISCONSIN: P. F. Neverman; AT LARGE: H. V. Porter.

C. W. Whitten was chosen presiding officer and H. V. Porter secretary.

P. F. Neverman reported on conferences with representatives of the oil and tire manufacturers and with several congressmen. He expressed the opinion that the state high school associations should make definite proposals to the federal authorities in connection with ways in which the high school activity departments can co-operate with the federal efforts to conserve materials essential to war activity.

Mr. Burris outlined a study which had been made in Missouri. Reports from 299 Missouri high schools indicated that school bus travel for athletic and similar activity purposes averaged 1,020 miles per school per year. This is 1-28 of the total miles traveled in transporting students to and from school. While this is a proportionately small amount of travel, the school administrators indicated that they might be able to reduce the mileage for athletic purposes by approximately one-third if necessary and still maintain a limited interscholastic program.

Reports from all of the other represented states were received and the Secretary outlined the conditions in states which were not represented at this conference. Some of the Eastern and Southern states are greatly handicapped through the gas rationing program which is now in effect and which does not permit the schools an allowance great enough to permit the transporting of teams by private car.

After thorough discussion, it was moved by Mr.

Poor  
1  
1  
1

Quinn, seconded by Mr. Neverman and unanimously voted that the efforts of the state association officers be directed toward a campaign to insure a team travel speed of not to exceed 40 miles per hour and that all member schools be enlisted in this campaign.

It was moved by Mr. Burris, seconded by Mr. Forsythe and unanimously voted to support a campaign to reduce team travel mileage by at least one-third of the average travel for the past three years. In order to bring this about, the attention of member schools is to be directed to the need for a careful study of school and conference schedules and an appeal, if necessary, to state boards of control for modification of schedules for which contracts have already been drawn and which involve an amount of travel which is not in accordance with the one-third reduction proposal.

It was moved by Mr. Willis, seconded by Mr. Bridges and unanimously voted to appeal to all member schools to assist the smaller high schools and schools in thinly populated areas to work out a schedule with minimum mileage. It may be possible for larger high schools to develop additional teams for the specific purpose of supplying competition for the smaller schools.

It was moved by Mr. Forsythe, seconded by Mr. Bridges and unanimously voted that the state high school associations make every effort to modify their 1942-43 program of state sponsored interscholastic tournaments and meets, athletic or otherwise, so that the total mileage to be traveled by teams and spectators will be reduced by at least one-third of the average mileage required for the past three years.

The group voted approval of a statement along these lines which will be submitted to the United States Department of Education and through them to the proper rationing authorities.

It also voted to call the attention of state boards of control to the desirability of urging spectators to center more of their attention on attendance at home games rather than on travel to distant contests.

The travel problems of athletic officials was discussed. It was felt that no specific action is feasible at this time but it was the general feeling that state boards of control should be rather liberal in acting upon officials' contract cases to prevent hardship on an official who can find no adequate means of transportation and provided the school is notified early enough to make proper adjustment.

Questions relative to the state championship series of tournaments and meets were discussed. Among the states represented, it appears that unless there is some radical change in conditions, there is no reason why

most of these should not be continued with modifications to conform to the proposed travel reduction. Some of the modifications in tournament plans which have been adopted or are being considered are as follows.

Missouri is eliminating state championship competition by classes. All schools will compete in one class and there will be only one state champion. This will reduce travel mileage since it was necessary for schools to travel great distances when the larger schools did not compete with the smaller.

Wisconsin has eliminated state championships in some of the minor sports where the number of interested schools was so small that considerable travel was necessary. Also, the tournament plan was revised last year in such a way that a comparatively few of the schools survive the early tournaments and consequently travel has been reduced.

Iowa will condense the state final tournament series into three weeks instead of the customary four. The first round tournaments will eliminate all but 64 teams. There will be no class competition in any of the tournaments.

In Michigan, where it has been customary to hold final tournaments for four classes and also in upper and lower peninsula groups, consideration is being given to a proposal to eliminate some of the classes and there is also a possibility that the final games will be played in several centers so that only two or four teams will be brought to the championship center.

Illinois will eliminate some of the championship contests in minor sports and in some of the speech and music activities. Consideration is also being given to a plan to reduce the number of teams which will be passed along to the later tournaments.

Kentucky is considering a referendum on a plan to increase the number of first-round tournaments and to then eliminate the practice of permitting the runner-up in the first tournaments to advance. Such a plan would probably reduce the amount of travel for spectators. There is also the possibility that four sub-state tournaments may be organized so that only four teams will travel to the state final center.

The Secretary was instructed to acquaint the remaining state associations and the proper federal authorities of the action of the conference and the desire of the represented state associations to co-operate in every way in the conservation of materials which are needed in the war effort while at the same time retaining the essentials of interscholastic activities.

Signed: H. V. Porter, Secretary.

# State High School Baseball Tournament

Lexington, Kentucky

JUNE 5-6, 1942

Since state baseball tournaments were established by the Association a decided increase in interest has developed; the class of baseball has improved steadily although the number of teams participating has not increased to the extent expected. The championship teams of Newport, 1940 and 1941, and St. Xavier, 1942, were strong enough to make a favorable showing in organized baseball. With such teams in the state meet financial support should have been considerably greater.

Due to the material loss involved in conducting the baseball tournaments and to the inadvisability of encouraging travel with its attendant consumption of rubber and gasoline, it may become necessary to discontinue the tournament for the duration. If such a condition becomes imperative, certainly it is hoped

that baseball tournaments can be resumed as an integral part of the association's program as quickly as possible after the termination of the emergency. High school baseball along with so-called minor sports may become casualties of war, but we are convinced that school men directly interested in such sports will not complain if discontinuation will help the war program in the least. In fact, we might well accept the possibility of eliminating all interscholastic sports if we are unable to dispose of the Nazis and Japs in comparatively short order.

Certainly school authorities and athletic leaders of Kentucky will be willing to abandon any part or all of the athletic program for the duration if they become convinced that such a program impairs the war effort in any conceivable fashion.

As school days arrive this year administrators, teachers and students alike are painfully confused by the uncertainties that the future holds for them due to calamitous conditions imposed on the entire world through ruthless and barbarian attacks by Nazi, Fascist and Jap hordes, exponents of a "New Order." At no previous time in the world's history has such a catastrophe engulfed so many peace-loving and civilized people to whom war means only useless destruction and attending misery.

However, the schools of Kentucky and America accept the challenge thrust upon them and are ready to make the necessary readjustments and sacrifices necessary to insure the continued existence of a "way of life" entirely foreign to the savage practices involved in the imposition of a "new order." Even children of elementary school age realize that conditions at this time are subject to rapid change, that homes may be disrupted, and that even their security is

threatened. It becomes the duty and obligation of teachers to cultivate to a greater degree than ever before the thirst for liberty and a God-fearing attitude in the minds of our young people.

School programs and curricula should become sufficiently elastic to take advantage of every opportunity to support the war effort. If it can be shown that any course or activity is advantageous to a free people in time of war, that should be sufficient evidence that credit be allowed. In fact, students and teachers alike will be called upon for contributions of service far beyond the ordinary, making quibbling over credit to be granted more or less a foolish consideration.

The athletic program very likely will undergo material changes in keeping with the demands of the times. Schedules may become a far cry from the usual ones; competition may be strenuously restricted. But emphasis should be placed on doing whatever is necessary, whatever will do the greater good in the supreme effort.

In spite of uncertainties and possible restrictions, we know that the schools of Kentucky and of every state, will do a good job the coming year and that we shall be on our way to Berlin and Tokyo both figuratively and actually before the last school bell rings in the Spring of '43.

# K. H. S. A. A. PROTECTION FUND

## Rates and Benefits for 1942-'43

### COST OF PROTECTION

The cost of protection for each athlete registered under the accident benefit plan is nominal, being only \$1.00 per player in football and 25c per player in each other sport. The football fee includes coverage for spring practice. Every participant deserves this protection and every school should avail itself of such reasonable insurance.

### SCHEDULE OF BENEFITS

FRACTURES—		Tibia or fibula .....	60.00
Fractured skull (operative case)..	\$100.00	Tarsal or metatarsal.....	25.00
Upper jawbone (maxilla).....	25.00	Toes — one.....	7.50
Lower jawbone (mandible).....	35.00	Multiple on one foot.....	15.00
Broken nose .....	10.00	INJURIES—	
Shoulder (clavicle).....	25.00	Loss of sight of one eye	
(scapula).....	25.00	(permanent) .....	150.00
Broken rib or ribs.....	5.00	DISLOCATIONS—	
Vertebral process (non-operative)..	10.00	Any valid dislocation injury will	
Vertebrae open (surgical treatment)	50.00	keep the participant out of practice	
Pelvis .....	75.00	and competition for a period of at least 15 days.	
ARM FRACTURES—		Knee .....	15.00
Humerus .....	50.00	Shoulder .....	12.50
Radius or ulna.....	35.00	Elbow .....	7.50
Both radius and ulna.....	50.00	Wrist .....	7.50
Broken elbow (including humerus,		Ankle .....	10.00
radius and ulna) .....	75.00	DENTAL SCHEDULE—	
Wrist carpal or metacarpal bones..	15.00	One chipped tooth.....	2.00
Finger — one.....	7.50	Broken facing .....	3.00
Multiple on one hand.....	15.00	Replacing knocked out filling.....	3.00
LEG FRACTURES—		One broken tooth.....	10.00
Femur .....	75.00	Loss of one tooth.....	10.00
Tibia or fibula .....	40.00	Maximum fee for one dental injury	25.00
Tibia and fibula.....	60.00

## SUTCLIFFE'S ATHLETIC GOODS CATALOG

Our college and high school catalog with wholesale prices will be mailed about September 1st. If you should not receive your copy by Sept. 5, let us know and we will mail one promptly.

### OUR KENTUCKY SALESMEN

This year again our 3 school representatives will be in your territory as usual. MONNE FARRELL in CENTRAL KY.—HARRY BLACKBURN in EASTERN KY.—GEORGE WILSON in WESTERN KY. Should you need to see one of them on football equipment before they get around to you, just drop us a line and we will hurry them along.

### SCHOOL ATHLETIC MERCHANDISE

You have probably wondered if you can get all you need. Our answer now is yes. We have a big inventory and have every reason to believe that we can take care of all your needs promptly.

### DON'T CURTAIL YOUR ATHLETIC PROGRAM!

Keep your boys in the best physical condition possible. No nation can be successful in war while its functions are frustrated by a people not physically fit to man capably all arms of the service—at home and on the fighting front. So play, America! Keep strong! Keep healthy! As far as war needs permit we will keep you supplied with equipment necessary to sports.
