Football fans absent again

They came by the thousands in September, lured by discount tickets and the desire to be part of an all-time Hanger Field experience—permanent lights. They came on a cool day in October—old grads and young students alike—eager for another Homecoming showdown against the dreaded Hilltoppers.

The following weekend, they stayed away in droves, barely filling the stadium on Columbus Day weekend for an important conference battle.

They added only a thousand Saturday as the Hanger Field gates were opened for the final time of the regular season.

The story of what happened began as a banner season for attendance at university football games. But then began to turn as Cola fans deserted, never to return.

A large group that always showed up to support the Colonels during the battles of the previous seasons had never seen such a disappointing performance from their team. The university is currently experiencing a decline in attendance at football games, with over 16,000 fans per game, which is no better than mediocre for a regional state university which is no better than mediocre for a regional state university.

Money is the bottom line, and the university is currently facing financial difficulties. The university is currently facing financial difficulties. Those who neglect to secure tickets and the desire to be part of the action will help make that loophole smaller and more difficult to bypass any security devices installed.

A small blind woman seemed to be getting her hands through a somewhat life threatening type of party. A huge snake was dropped around her shoulders like an acrobatic act. The snake was not expected to do any harm, but it was definitely attention-grabbing.

The fear, however, began when she started chanting some sort of crowd with the intimidating aura surrounding her. Sound fun? She obviously thought it did.

The irony of it all was I walked into the room and the snake turned its head to my face. "I thought you were getting away with it," I said. "But I didn't get as much as I expected."

The other one disarmingly replied, "You caught a glimpse of her. But I didn't get as close as I expected."

If you don't mind being duped profusely, try into a residence hall. And there are many more cases of illegal entry never reported.

Some sign-ups of students will no doubt find a way to bypass any security device imbedding their path. But greater security measures need to be made smaller and more difficult to either through, and it will help many students sleep better at night.

Students must be made to feel secure and absent again to do the same in their homes. Anything less is unacceptable.

Party animal finds niche at Missouri bash

Cave-er escapes to great indoors

The reactions I get are mixed, some swear on their grandmother's grave that there is a problem. Among the cans and bottles he discovered in the cave was a marvelous network of tunnels that could open up any time into a car and make tracks for the ravens and an evening of raucous partying.

Once my friends and I find our special spot, we place the candle in little nooks along the wall, start the times and kick back and relax. We talk about all the memories we have made, share our secrets and experience with the rush of the music. Sometimes we sit in total darkness and listen to the noises that surround us. One of my friends claims he has a spiritual experience since special rooms of the cave. He thinks he may have listened to the silence a little too long.

When I make a new friend I try to take him or her out to the caves. The reactions I get are mixed, some swear on their grandmother's grave that there isn't much that can be done about it.

One day, I think I may find out what drugs are a problem. After all, I have the same thoughts.

Police Beat

The following reports were filed with the university's Division of Public Safety:

Oct. 23:
Robert A. Jones, Commonwealth Hall, reported the theft of personal checks from his girlfriend while it was parked in the Burnam Lot.

William Cox, Degree Hall, reported damage to his vehicle while it was parked in the Commonwealth Lot.

Tricia Rae Sheffield, Cone Hall, reported the theft of cash, a bank card and two rings while it was parked in the Commonwealth Lot.

Oct. 24:
Larry Hobbs, Degree Hall, reported damage to the tire of his vehicle while parked in the Commonwealth Lot.

Oct. 25:
Neveta A. Robbins, Sullivan Hall, reported that eggs had been smashed on her vehicle while it was parked in the FrischelLot.

Terry L. Price, Commonwealth Hall, reported damage to his vehicle while it was parked in the Commonwealth Lot.

Oct. 26:
Mae Goss, Cone Hall night supervisor, reported the fire alarms sounding. The Richmond Fire Department responded and determined a steam leak had activated the alarm. The leak was repaired.

Dana Kier, Brockton, reported that eggs had been thrown at her car.

Michael Goss, Commonwealth Hall, reported the theft of a headlight and damage to his vehicle while it was parked in the Commonwealth Lot.

Deborah Clementa, Brockton, reported the theft of a license plate from her vehicle while it was parked on campus.

Danny R. Lave, Jr., Foote Hall, reported the theft of $800 from his room.

The alarm was reset.

Deana Culver, Burnam Hall, reported the fire alarm sounding.

The Richmond Fire Department responded and determined a steam leak had activated the alarm. Physical Plant workers were already on the scene prior to the alarm.

Oct. 27:
Gregory Osmansky, Reese Hall, reported the theft of five pairs of blue jeans from his room.

Alice Milton, Degree Hall night supervisor, reported the fire alarm sounding. The Richmond Fire Department responded and found no smoke or fire. The alarm was reset.

Oct. 28:
District Court Deed:
A charge of $800 burglary against Patrick J. Simpson, Keene Hall, was dismissed. Simpson was fined $25 and court costs of $75.50. The charge of alcohol intoxication was dismissed.

Simpson was involved in an unrelated incident in Burnam Hall. On Oct. 24, when two males were arrested on charges of rape.

Simpson was not involved in an unrelated incident in Burnam Hall. On Oct. 24, when two males were arrested on charges of rape.

Elevator problem addressed by school

The following reports were filed with the university's Division of Public Safety:

Pearl White, Burnam Hall, reported damage to his vehicle while it was parked in the Bumam Lot.

Tim Giles, Palmer Hall, reported the theft of his bicycle from the Palmer Hall bicycle rack.

Deborah Clementa, Brockton, reported the theft of his driver's door mirror of his vehicle while it was parked in the Commonwealth Lot.

Oct. 28:
Mae Goss, Cone Hall night supervisor, reported the fire alarms sounding. The Richmond Fire Department responded and determined a steam leak had activated the alarm. The leak was repaired.

Dana Kier, Brockton, reported the theft of trash from her room.

Oct. 29:
Deborah Clementa, Brockton, reported that eggs had been smashed on her vehicle while it was parked in the Commonwealth Lot.

Oct. 30:
Mary McDonald, Cone Hall supervisor, reported the fire alarms sounding.

Deborah Clementa, Brockton, reported that eggs had been smashed on her vehicle while it was parked in the Commonwealth Lot.

Michael Goss, Commonwealth Hall, reported the theft of a headlight and damage to his vehicle while it was parked in the Commonwealth Lot.

Deborah Clementa, Brockton, reported the theft of a license plate from her vehicle while it was parked on campus.

The Richmond Fire Department responded and determined a steam leak had activated the alarm. Physical Plant workers were already on the scene prior to the alarm.

Oct. 24:
Ronald A. Griffin and Michael A. Bultker, Commonwealth Hall, were arrested on charges of alcohol intoxication.

Bruce A. McLeavy, Spring Lake, N.C., was arrested on charges of driving under the influence of alcohol.

The university will be concentrating on three areas in the elevator system - the door closing mechanisms, the control panel located in the elevator system and the contact point thus the elevator equipment that is not visible.

She said parts for the elevators have been ordered, and once they arrive, repairs on the elevators will begin.

Other classes include honors science, special topics and an honors thesis project and seminar.

The honors program committee, composed of 11 administration and faculty members, also designed the program to allow courses to count toward each college's degree, from any college or department.

Participants would receive an honors scholar diploma upon completion of their undergraduate studies. They must have a cumulative GPA of 3.0. The program requires an undergraduate degree from the university.

According to Ernie, the program will have a $12,000 operating budget.

This budget will be used to sup- port educational supplies, operating and recruiting expenses, and ex-

Dirty laundry provides topic for Richmond school

By Tam Winnman
Staff writer

Are you a procrastinating student who likes to leave your dirty washing until the last minute? Well, you can stop putting off the laundry and learn how to do it efficiently and effectively through the University of Richmond's College of Laundry and Linen Management.

The course is offered twice a year, in fall and spring, and is designed to teach college students how to manage a laundry business. The course is open to anyone, regardless of their major, and is taught by Charles Hartman, the director of the College of Laundry and Linen Management.

Hartman said the course is designed to provide practical knowledge and skills for those interested in the laundry industry. The course covers topics such as equipment operation, laundry management, and the economics of the laundry business.

The College of Laundry and Linen Management was founded in 1939 in Philadelphia, according to Professor Hartman, and is part of the University of Richmond's College of Business.

The course is open to anyone, regardless of their major, and is taught by Charles Hartman, the director of the College of Laundry and Linen Management.

Tutors learn by helping others

By Lisa Borders
Activities editor

While many students have a hard time budgeting their time and keeping up with their studies, some have dedicated themselves to helping others with their studies through several of the university’s tutoring services.

The English department offers tutoring in such learning skills as writing and composition.

"And the extra money is nice," she said. "But they do need to have a sense of humor and must have patience when dealing with a student who is having difficulty with a subject."

Joan Hopkins, an academic advisor, said the students must have a 3.0 cumulative GPA and 3.5 in their major. They should be friendly, caring and able to communicate well.

Another tutoring service is offered by the Student Support Services.

"We have a professional type mentality. I expect them, and they respect me," said Williams. "Their experience is greatly beneficial from their experience as tutors."

"It helps me stay on top of my studies." she said. "The one-on-one experience they get will help them after they graduate," Williams added.

She said the students get a lot of responsibility that will also be beneficial to them.

Now that you've gotten into Eastern Kentucky, IBM can help you get more out of it.

The road to graduation is paved with term papers, lab reports, cramming, all-nighters and, of course, exams.

To ease that journey and awaken your professors’ entrepreneurial spirit, we suggest the newest member of the IBM Personal System/2 family: the Model 25 Collegiate.

It’s a high-powered personal computer with advanced graphics capabilities, designed to fit on your desk without adding to the clutter. And it comes with a green screen 600 KB memory, two 3.5” diskette drives and an add-on package every student can appreciate—a big discount.

plus Microsoft Windows 1.04, Weite, Paint, Cardfile, IBM DOS 3.3 and a mouse...in color.

Now that you've gotten into Eastern Kentucky, IBM can help you get more out of it.
Hungry anyone?

University to hold Greek leadership conference

By Tom Wiesman
Staff writer

The university will be hosting the 1987 Greek Leadership Conference this weekend, Nov. 6 and 7. This is second year in a row, according to David Nuss, co-director of Greek Leadership Development.

The theme for this year's conference is "Who says you can't have second year in a row, according to Nuss.

"It's important for each of them to get to spend time with me, alone, and when they're both gone, I get time to myself where I don't have to be Mom," she said.

Workman also said the program is great for the students as well.

"It helps the students relate to people outside the academic community, which will be very important after they get out of school," she added. Humber said more students are filling out applications to become involved in the organization.

She and Workman said a big goal, a six-page application must be filled out and turned in. She is encouraging the individual's hobbies, interests, so a child with similar characteristics can be matched.

Students donate time

By Lisa Hanley
Assistant editor

For those students who have a hard time leaving loved ones behind when coming to college, or for those who just want a change of pace outside the academic class, there is an organization on campus that may be enlightening.

University Pals, a division of Student Senate, is a big brother/big sister type of organization that is set up to find big pals for little pals.

According to co-chairman Kristi Humber, there are 10 little pals and 16 big pals this fall. The big pals are children of university students, ranging in age from ages 5 to 15.

Humber, a junior elementary education major, said the group and their little pals meet once a month, and big pals meet with their young friends once a week for a couple of hours on an individual basis.

She added as a group they have performed the little pals various holidays such as Halloween and Valentine's Day.

"Being a big pal makes you feel better about yourself," Humber said. "It makes you realize that a child needs someone to look up to.

"I feel like her older sister, and I love a lot from her, too," she said.

Estes, an elementary education major, said her little pal loves to play school, which helps her to learn more about children and their feelings.

She added she and her little pal, 1st grade, have a lot in common interests, so a child with similar hobbies, according to Nuss.

The topics for the conference included leadership, AIDS and sexual transmitted diseases, time management and public relations.

"It realized that although we all are different, they all stand for the same purpose and have the same ideas," Massman said.

"I think it's a good program especially for the kids," Estes added.

Besides benefiting the children, the program also is helpful to the parents.

Brenda Workman, a student and mother of two daughters, said, "It's really a wonderful thing for everyone involved.

Workman said she wanted her children to be a part of the program so they would have someone to give them extra special attention.

She added both her daughters love their big pals and always look forward to seeing them again.

"I think it gives them a different viewpoint of student life, which will help them see what I go through. It gives them a different perspective and hopefully a better understanding of college," she said.

Workman added that since her two daughters are usually gone at different times, the program gives her extra time to spend with each of them.

"It's important for each of them to get to spend time with me, alone, and when they're both gone, I get time to myself where I don't have to be Mom," she said.

Humber also said the program is great for the students as well.

"It helps the students relate to people outside the academic community, which will be very important after they get out of school," she added.

Humber said more students are filling out applications to become involved in the organization.

She and Workman said a big goal, a six-page application must be filled out and turned in. She is encouraging the individual's hobbies, interests, so a child with similar characteristics can be matched.

Students donate time

By Lisa Hanley
Assistant editor

For those students who have a hard time leaving loved ones behind when coming to college, or for those who just want a change of pace outside the academic class, there is an organization on campus that may be enlightening.

University Pals, a division of Student Senate, is a big brother/big sister type of organization that is set up to find big pals for little pals.

According to co-chairman Kristi Humber, there are 10 little pals and 16 big pals this fall. The big pals are children of university students, ranging in age from ages 5 to 15.

Humber, a junior elementary education major, said the group and their little pals meet once a month, and big pals meet with their young friends once a week for a couple of hours on an individual basis.

She added as a group they have performed the little pals various holidays such as Halloween and Valentine's Day.

Madrigal revives 'ye olde' holiday spirit

By Jennifer Feldman

The Madrigal Feast, which will be held Dec. 5, can accommodate up to 250 people each night. According to Greenlee, who has been doing this all along, "I haven't been doing this all along?" he said.

Amahl is somewhat of a miscellaneous boy, according to Roberts, and tries to steal some of the authenticity of traditional madrigal songs, writes for several words, parts and songs without musical accompaniment, are reminiscent of the 15th and 16th centuries Christmas celebrations. According to Greenlee, much attention is given to recreate the authenticity of traditional madrigal dinners.

"It will be beautifully decorated. We use only candles because that's the way it would have been in the 16th century," Greenlee said.

In addition to the traditional decorations, Greenlee said the work put into the dinner was extremely detailed to make it memorable. The costumes for 13 madrigal singers and servers are rented from New York. A three-trumpet blast will announce the beginning for each course of the eight-course meal.

In fact, Greenlee said, the only part of the night that will not be authentic will be the dinner.

"We're more into a delectable meal. If we served what they ate it would be haired potatoes," Greenlee said. "We're more into a delectable meal. If we served what they ate it would be haired potatoes," Greenlee said.

According to Greenlee, much attention is given to recreate the authenticity of traditional madrigal meals.

On their way, they stop to rest at the home of the father, his parents welcome him back with open arms. On their way, they stop to rest at the home of the father, his parents welcome him back with open arms.

The play features Donnie Henrickson as the son and Chris Simonsen as the father. Gay Lynn Hays as the mother will be played by Lori Wallace. The three kings will be played by David Aiken, Will direct the university's program. In addition, he is providing the original costumes, sets and props for the program.

"The Prodigal Son" follows the biblical story of a son leaving home to seek his fortune only to find the world not as easy as it had once seemed. Upon returning home, his parents welcome him back with open arms.

As the holiday season slowly comes into focus, birds and ladles and madrigal singers are busy gearing up for the 14th annual Madrigal Feast at Model Laboratory School. The three kings will be played by David Aiken, Will direct the university's program. In addition, he is providing the original costumes, sets and props for the program.

The play was originally composed for a Christmas program for the network. According to Roberts, the play has been televised on various stations every holiday season since that first showing. "We've been doing this all along?" he said.

As an indication of the quality of the performances, the madrigal singers enrolled in a class at the beginning of the year for the sole purpose of singing at the dinner. Practices have been held weekly, and the students' grades depend on how well they sing.

After the dinner, the singers deliver a concert with a more serious tone, telling the Christmas story, which includes dancing and more singing.

Tickets for the Madrigal Feast are on sale now, and according to Greenlee, who has been overseeing the dinner since 1972, they are snatched up quickly.

"If the tickets are sold out in the first week, there will be people in line to buy them in 3 kts.," she said.

"For some people, it's a ritual. They try to come every year," she said.

Greenlee said he would like to see more students attend the Madrigal Feast, but many are discouraged by the price.

"When I hear that, I say, 'Hold on a minute. A pizza and a six pack is $12.50.'" Greenlee said.

He said he encouraged students to attend the dinner just once. "Once they go, they'll never, Why haven't I been doing this all along," he said.

**Art auction funds music awards**

By Kenneth Holloway

Staff writer

The university’s music department is sponsoring an art show and auction to raise money for the Music Scholarship Fund.

"I have a feeling this will feature the art work of Shirley Lawrence," Roberts aid.

She is a student at the university to study the music theory. Lawrence is not sure what pain troubles, a woman in the Washington D.C. area, is also going to attend.

Lawrence said she wanted to come to the campus and find the present of the landscape instead of just looking at it from the window in her painting classes. She tries to paint.

She has never seen what paintings Lawrence is going to present. She has heard so many of her student’s paintings and her watercolor paintings. Lawrence has painted more than 30 portraits, a man and woman in the Washington D.C. area, including her husband, Fred Ward.

According to Roberts, prices of the paintings range from $25 to more than $600. Lawrence has put on one-woman art shows in Oklahoma, Georgia, Virginia, and Washington, D.C. She has also been selected to be a member of the Portrait Club of New York. The Art League of Alexandria and The Art Students League.

"I just called her up and asked if she would help us raise money for the music department, and she said yes." Roberts said.

Lawrence is allowing her by contributing more than 100 of her paintings and prices to be auctioned at the fund-raiser. The highlight of the auction will be the autographs Lawrence and some of the university’s landmark buildings.

Cleveland Browns introduce ‘kitchen’ to NFL

**By Alyssa Noland**

Fans in Cleveland and national football television audiences were treated to a ‘kitchen’ Sunday afternoon when tailback Elroy Harris ran it from two yards out. It was the fourth touchdown of the day for Harris, who was the star of the action in the Browns’ 50-7 victory over Austin Peay College at Richland Bowl.

The Colonels scored again on a 20-yard field goal by Campbell with 4:07 remaining to up the score to 29-0.

Women defend title, men 'run like animals'  
By Brent Blaser

For the women it was a return to a winning tradition.

For the men it was also a return to an old tradition.

But whatever the case, the university's cross country teams made them look like they've won each of the last six years.

The university women was important after Murray's Keith Abell and Collier. "I thought it was sort of interesting," Erdmann said.

For more than four miles of the race, Mundin was locked in a duel with Murray's Keith Abell and Collier. "I didn't know much about the competition," Mundin said. "My teammate said I could win."

For more than four miles of the race, Mundin was locked in a duel with Murray's Keith Abell and Collier. "I had a bad third mile," he said. "After the third mile, I knew I had to compete."

Bill Hoffman, who finished sixth, said he wasn't concerned about Murray beating the Colonels. "We're Western. They were supposed to improve, but they didn't," Hoffman said. "We ran like animals."

Ron Wofford said his fourth place finish was the best he's ever had in the OVC championships. "This was my best one that I was parking," Wofford said. "I knew I was going to run well. This was my last year."

Snow storms to win

By Alspa Holand

Brent Blaser

In her final race at Arlington Golf Links, senior cross country runner Christine Snow had decided she would win this year's Ohio Valley Championship for herself and her teammates.

"We know we were going to win," Snow said.

And they did. Placing five runners in the top 10 and beating Murray State University by 13 points in the final standings. She said she told herself, "This is my last year. I've got to go out in style.

She said she was not going to let anyone beat her, and she didn't Saturday, posting a time of 17:14, seven seconds ahead of teammate Lisa Malloy, who finished second.

"I knew when Chris runs well, then I'm going to run well, too," Malloy said. "I felt like I gave it the best effort I could."

Allison Etchison, who won the race as a freshman in 1993, finished fifth followed by Teresa Cleas and Eva Pickles in the next two positions.

University cross country coach Rick Erdmann said he feared Murray State University could take away the title more than at any time in the past.

Murray second in zone as both the Colonels and Racers ran away from the eight field.

"They're a lot better than we made them look," Erdmann said of Murray, which had beaten two Southeastern Conference schools in the Ole Miss Invitational last weekend.

The Racers had five runners in the top three, but left short. Erdmann said the fast start by the university women was important, positions.

"I was concerned about just making the team. It's twining field," Snow said.

She currently holds school records in the 1500-meter and mile runs. Erdmann said Snow's training runs have been well, but her marathoning sessions have not been as well as he hopes.

The 5:00 a.m. marathoning sessions are held for the team twice a week with the purpose of building the women's aerobic endurance.

"I hate the marathoning sessions," Snow said. "I guess it's the fact that they are at 6:00 in the morning and because I had to do them all summer, I'm burned out on them."

"I had a bad third mile," he said. "After the third mile, I knew I had to compete."

Bill Hoffman, who finished sixth, said he wasn't concerned about Murray beating the Colonels. "We're Western. They were supposed to improve, but they didn't," Hoffman said. "We ran like animals."

Ron Wofford said his fourth place finish was the best he's ever had in the OVC championships. "This was my best one that I was parking," Wofford said. "I knew I was going to run well. This was my last year."

"Starting my sophomore year, I didn't think I'd ever get into my running form this freshman year," said Snow. 21, a general dietetics major over at two miles."

Christine Snow runs with less than a mile to go.

Snow felt that having the meet on the university's "home court" would be an advantage that would give her, and the team, extra incentive.

"Having people cheer for you and running on a familiar course helps to motivate," Snow said.

After graduation, she said she may have to do some interludes to become a registered dietitian. But this will not stop her from doing what she's been doing.

"I plan to keep on running and competing. I want to see how far I can go," Snow said. "My career may be put on the back burner."

Stricken with a stress fracture of her right leg in the summer, posting a time of 17:14, finished second this year, "I didn't think I'd ever get into my running form this freshman year," said Snow. 21, a general dietetics major over at two miles."

"I had a bad third mile," he said. "After the third mile, I knew I had to compete."

Bill Hoffman, who finished sixth, said he wasn't concerned about Murray beating the Colonels. "We're Western. They were supposed to improve, but they didn't," Hoffman said. "We ran like animals."

Maroons win scrambles

Progress staff report

The university men's and women's basketball teams made their first public appearances Saturday evening in Alumni Coliseum.

In the men's intrasquad scrambles, the Maroons beat the Greyhounds 87-83 as some players saw action for both teams.

University basketball coach Max Good said he plans another intrasquad scrimmage that will go and open to the public Thursday night at 7:30 in Alumni Coliseum.

In the women's intrasquad scrambles, the Maroons win 86-77 as some players saw action for both teams.

University basketball coach Max Good said he plans another intrasquad scrimmage that will go and open to the public Thursday night at 7:30 in Alumni Coliseum.

"I thought it was sort of interesting," Erdmann said. "If they hadn't won, it would have looked kind of stupid."

Maroons win scrambles

Progress staff report

The university men's and women's basketball teams made their first public appearances Saturday evening in Alumni Coliseum.

In the men's intrasquad scrambles, the Maroons beat the Greyhounds 87-83 as some players saw action for both teams.

Spikers down Eagles

By Brent Risner
Sports editor

The writing was on the wall for all to see.

A green banner was hung in Weaver Gym Friday night outside of Convocation Ohio Valley Conference Win.

"We made a concerted effort to get up," said university volleyball coach Geri Polvino regarding the new sign.

Friday night, the Colonels met Morehead State University, the team that brought that conference winning streak to a screeching halt about a month ago.

In the second OVC Northern Division tournament of the year, the Colonels put a measure of revenge on the table by toppling Youngstown State University to force a tie with Morehead for the division title.

After the loss to the Colonels, Morehead's volleyball coach, Jim McCollin said he felt his team had the inside track on the title because his team had needed fewer games to beat common conference opponents like Austin Peay State University.

"He's right about them winning the conference," said university volleyball coach Gen Polvino regarding the Morehead coach's estimation.

"We made a concerted effort to duplicate what the Eagles had done. " said university women's tennis coach Sandra Martin.

That second round game is set for 7:00 p.m. Friday night.

While the Colonels lost the final game to Morehead State, the team was able to complete fairly well the last couple of games behind the efforts of Kelly Ward.

"They started calling us names across the net, and that really made me mad. I got fired up," said Simmons, who had 12 successful kills in the match. "When we meet them again, I think we'd have the advantage because viciously scared them tonight."

Patty Kantz sets with Kelly Ward watching her.

In the fourth and final game, the Eagles led 4-1 before the Colonels scored seven straight points on the serve of Kelly Ward.

The teams then were later tied at 11, 13 and 14.

A block of an Eagle spike and an ace serve by Ward put the game in the Colonels win column.

"You never play Eastern and want to win," McCollin said. "You play Eastern and want to win."

The estimated 11,800 fans who attended Saturday's football game with Austin Peay State University probably saw their last home game of the year even if the Colonels make it to the playoffs.

It seems the students have passed judgment on the sport this year and in years past.

By Kansas, the university hosted a playoff game on Thanksgiving weekend in 1984 against Middle Tennessee State University. Only 4,500 fans showed up to support Hanger Field at a cost table place at home with family and friends.

According to university Athletic Director Daniel Combs, our school estimated, or bid, it would receive $71,300 from the game. The university grossed only $29,302.

So, what you really need to do is just overestimated a little in your own estimation.

In the eyes of the National College Athletic Association, it made us look bad because they were expecting more revenue than they actually got from the game, according to Combs.

"We do have a legitimate shot of winning it," added "We have to get down to games more games," Polvino said. "I don't think it should get down to games where you're determining the champion."

OVC Commissioner Jim Delaney ruled in Polvino's favor, declaring the two teams co-champions.

While the Colonels still have two games left they must win to be considered.

"We just put in the notice that we were interested in bidding," Combs said. "We do have a legitimate shot of winning it if the university is awarded a playoff game."

"Like Combs, I believe wins and losses, not money, should determine who gets to host the games and who doesn't."

But if money must be a consideration, I believe the I-AA Football Committee should investigate these bids being made by some schools who don't have a money's chance of making the money.

The school making the highest but most realistic bid should get the game, instead of the one just hoping someone will let them cut.

The university would really be in a no-man's land if it thinks more than 10,000 people will pay $8 to see a playoff game at Hanger Field.

Other schools may be very premature since the Colonels still have two games left they must win to be considered.

But whether they finish 5-6 or not, don't plan on using your student ID card for another football game this season.

Based on the attendance in the student sections at the last two home games, the cards weren't being used much anyway.

Maybe students won't take their football for granted anymore when there is nothing better to do than go home on a Friday and miss-off another home game.

---

The Volunteers downed the Colonels 4-0.

After losing the first game, the Colonels responded, winning 18-4 record play the University of Tennessee for a difficult fashion when it traveled to Arlington, ranked 16th in the nation.

The Colonels have fallen on almost three weeks ago, the university field hockey team has fallen on leaner times as its regular season came to a close.

Thanksgiving weekend in 1984

The Colonels are seeded third in an eight-team field in the double-elimination tournament.

They will play Notre Dame University at 1:30 p.m. on that day. With a win, they will advance in the winner's bracket to play the winner of the St. Louis University-Morehead State University.

It seems the students have passed judgment on the sport this year and in years past.

After winning four in a row almost three weeks ago, the university field hockey team has fallen on almost three weeks ago, the university field hockey coach Linda Combs said.

"We just put in the notice that we were interested in bidding," Combs said. "We do have a legitimate shot of winning it if the university is awarded a playoff game."

"Like Combs, I believe wins and losses, not money, should determine who gets to host the games and who doesn't."

But if money must be a consideration, I believe the I-AA Football Committee should investigate these bids being made by some schools who don't have a money's chance of making the money.
